so much for what we do as for who we are He explores what it means to be a person concluding that personhood is the sum of beliefs and values which are by no means entirely within our control Consequently the voluntariness of our acts or even whether we act at all is irrelevant to the moral evaluation of us as persons Schlossberger contends that we are to be judged morally on the basis of what we are our world view rather than what we do In *Moral Responsibility and Persons* Schlossberger disputes various received philosophical positions His challenging and entertaining account also examines psychology and its view of the nature of personhood as well as insanity and the personality of animals children and computers He explores the validity of emotions we may feel in response to others especially gratitude and resentment And finally Schlossberger tackles the inevitable implications of his position in the area of crime and punishment
