Proehl, D. D. Kugler, Mark Lamos, Michael Lupu, 2008 Toward a Dramaturgical Sensibility begins with a moment in Shakespeare's Antony and Cleopatra in which Cleopatra says to Antony

Not know me yet With these four words Cleopatra poses a simple but fundamental human problem What can we know She and Antony have known each other for years at times gloriously emotionally mentally and in the archaic sense of the word physically but still the challenge of knowing hangs in the air Cleopatra s question reminds us that knowledge is not simple that it is as likely to create yearning as satisfaction that it is not confined to any one part of the self that it is far from intellect alone It reminds us as do most great plays that life is part wonder part terror What we can know This study aimed at students teachers and theater artists suggests that he attempt to know the dramaturgy of a play is little different from the attempt to know another person for whom we care **BOOK JACKET** **A Dictionary of the English and Portuguese Languages**

God and Human Dignity

Rufus Burrow Jr.,1992-01-31 Although countless books have been devoted to the life and work of Martin Luther King Jr few if any have focused on King s appropriation of and contribution to the intellectual tradition of personalism Emerging as a philosophical movement in the early 1900s personalism is a type of philosophical idealism that has a number of affinities with Christianity such as a focus on a personal God and the sanctity of persons Burrow points to similarities and dissimilarities between personalism and the social gospel movement with its call to churchgoers to involve themselves in the welfare of both individuals and society He argues that King s adoption of personalism represented the fusion of his black Christian faith and his commitment not only to the social gospel of Rauschenbusch but most especially to the social gospelism practiced by his grandfather father and black preacher scholars at Morehouse College Burrow devotes much needed attention both to King s conviction that the universe is value infused and to the implications of this ideology for King s views on human dignity and his concept of the Beloved Community Burrow also sheds light on King s doctrine of God He contends that King s view of God has been uncritically and erroneously relegated by black liberation theologians to the general category of theistic absolutism and he offers corrections to what he believes are misinterpretations of this and other aspects of King s thought He concludes with an application of King s personalism to present day social problems particularly as they pertain to violence in the black community This book is a useful and fresh contribution to our understanding of the life and thought of Martin Luther King Jr It will be read with interest by ethicists theologians philosophers and social historians
