international trade by the Depression encouraged regional expansion And finally he looks at how Roosevelt parlayed the threat of war in Europe and the specter of Nazi penetration in the Americas to further solidify a hemispheric stand Gellman s account vividly demonstrates that Good Neighbor diplomacy was as much the product of personality as it was of policy In particular it emerged out of the rivalries and alliances among three men Roosevelt his Secretary of State Cordell Hull and Assistant Secretary of State Sumner Welles Gellman the first to have access to FBI files on Welles characterizes FDR as an astute politician who saw an opportunity to use pan Americanism to restore America to world prominence yet could not handle the personality conflicts among those in his own ranks Gellman shows how tenuous a government policy can be when so much of it depends on personal control and influence Department of Agriculture Appropriations United States.
