MACROECONOMICS

Section II

Planning Time—10 minutes

Writing Time—50 minutes

Directions: You have 10 minutes to read all of the questions in this booklet, to sketch graphs, to make notes, and to plan your answers. You will then have 50 minutes to answer all three of the following questions. It is suggested that you spend approximately half your time on the first question and divide the remaining time equally between the next two questions. In answering the questions, you should emphasize the line of reasoning that generated your results; it is not enough to list the results of your analysis. Include correctly labeled diagrams, if useful or required, in explaining your answers. A correctly labeled diagram must have all axes and curves clearly labeled and must show directional changes. Use a pen with black or dark blue ink.

Contemporary Issues in American Policing Richard K. Moule Jr., Bryanna Fox, 2021-03-30 American law enforcement and the public's perception of police is a topic of growing interest among academics, practitioners, and policymakers. From the 2014 events in Ferguson, MO, and the alleged Ferguson Effect to the debate over the impact of body-worn cameras (BWCs), police militarization, use of force, and other practices that may alter the public's view of police legitimacy and procedural justice, there is an increasing need for research addressing these contemporary issues in American policing. This book presents the latest research on these topics, as well as related topics noted in the Presidential Task Force on 21st Century Policing, such as police use of technology, transparency, oversight, and building trust with the community. The studies contained in this book examine these issues by leveraging empirical data on policing, public perceptions, crime, and diverse research methods to present high-quality analysis of these timely and relevant topics in today's world. The chapters in this book were originally published as a special issue of the *Journal of Crime and Justice*.
