Marine Painting Manual A.M. Berendsen, 2013-06-29 It is a pleasure to introduce to the reader this new Marine Painting Manual The previous edition entitled Ship Painting Manual was published in 1975 Since then a number of new technological developments have taken place Also standards with regard to safety health and the environment have become more severe These changes called for a thoroughly revised and updated Marine Painting Manual I believe that the editor should be congratulated on having completed this task in such a commendable way I hope that this new volume will find as enthusiastic a response among those concerned with maritime affairs as its predecessor did some fifteen years ago Dr Jan Raat Director Netherlands Foundation for the Co ordination of Maritime Research The Marine Painting Manual sets out to provide clear guidelines for the effective protection of marine structures ocean going vessels and offshore platforms Painting is a high cost procedure and is a crucial factor in determining the life and subsequent maintenance of steel structures in the marine environment The book is a follow up to the Ship Painting Manual published in 1975 It has been completely revised partly rewritten and an additional chapter on offshore structures included The present volume contains detailed and up to date information on all aspects of the preparation and painting for the protection of marine structures

Brief Interventions for Psychosis Basant Pradhan, Narsimha Pinninti, Shanaya Rathod, 2016-06-10 This book offers a clinical guide that brings together a broad range of brief interventions and their applications in treating psychosis It describes two core approaches that can narrow the current substantial gap between the need for

psychotherapeutic interventions for all individuals suffering from psychosis and the limited mental health resources available. The first approach involves utilizing the standard therapeutic modalities in the context of routine clinical interactions after adapting them into brief and effective formats. To that end, the book brings in experts on various psychotherapeutic modalities who discuss how their particular modality could be adapted to more effectively fit into the existing system of care delivery. The second approach addressed in detail is to extend the availability of these brief interventions by utilizing the circle of providers as well as the social circle of the clients so that these interventions can be provided in a coordinated and complementary manner by psychiatrists, psychologists, clinical social workers, case managers, peer support specialists, and other providers on the one hand, and by family members, friends, social and religious institutions on the other.

Active Aging and Disease Management Helena Canhão, Jaime C. Branco, Giuseppe Liotta, 2019-01-11. Population aging and the associated burden of chronic diseases are one of the main challenges in public health worldwide. This Research Topic on Active Aging and Disease Management provides a comprehensive overview of population aging through fourteen comprehensive papers. Chapter 1 discusses an overview of health systems in active and healthy aging while Chapter 2 focuses on the role of lifestyles, exercise and new technologies. Chapter 3 debates psychological and cognitive issues in aging and finally in Chapter 4 an older people self-assessment is proposed and the role of communities and supporters are highlighted. We think that real social and health care integration at community level could be the key point to deliver effective health promotion and preventive intervention. Enjoy the reading.

Contemporary Intellectual Assessment Dawn P. Flanagan, Erin M. McDonough, 2022-12-05. In one volume, this authoritative reference presents a current, comprehensive overview of intellectual and cognitive assessment with a focus on practical applications. Leaders in the field describe major theories of intelligence and provide the knowledge needed to use the latest measures of cognitive abilities with individuals of all ages from toddlers to adults. Evidence-based approaches to test interpretation and their relevance for intervention are described. The book addresses critical issues in assessing particular populations including culturally and linguistically diverse students, gifted students and those with learning difficulties and disabilities in today's educational settings.
