Contested Citizenship Immigration And Cultural Diversity In Europe:

Contested Citizenship Ruud Koopmans, Presenting an unprecedented wealth of empirical research *Contested Citizenship* compares collective actions by migrants xenophobes and antiracists in Germany Britain France the Netherlands and Switzerland Revealing striking cross national differences in how immigration and diversity are contended by different national governments these authors find that how citizenship is constructed is the key variable defining the experience of Europe s immigrant populations

Contested Citizenship Ruud Koopmans,Paul Statham,Marco Giugni,Florence Passy,2005 From international press coverage of the French government s attempt to prevent Muslims from wearing headscarves to terrorist attacks in Madrid and the United States questions of cultural identity and pluralism are at the center of the world s most urgent events and debates Presenting an unprecedented wealth of empirical research garnered during ten years of a cross cultural project *Contested Citizenship* addresses these fundamental issues by comparing collective actions by migrants xenophobes and antiracists in Germany Britain France the Netherlands and Switzerland Revealing striking cross national differences in how immigration and diversity are contended by different national governments these authors find that how citizenship is constructed is the key variable defining the experience of Europe s immigrant populations *Contested Citizenship* provides nuanced policy recommendations and challenges the truism that multiculturalism is always good for immigrants Even in an age of European integration and globalization the state remains a critical actor in determining what points of view are sensible and realistic and legitimate in society Ruud Koopmans is professor of sociology at Free University Amsterdam Paul Statham is reader in political communications at the University of Leeds Marco Giugni is a researcher and teacher of political science at the University of Geneva Florence Passy is assistant professor of political science at the University of Lausanne Switzerland

The Politics of Citizenship in Europe Marc Morjé Howard,2009-09-07 In this book Howard addresses immigrant integration one of the most critical challenges facing European countries the resolution of which will in large part depend on how foreigners can become citizens Howard s research shows that despite remarkable convergence in their economic judicial and social policies the countries of the European Union still maintain very different definitions of citizenship Based on an innovative measure of national citizenship policies the book accounts for both historical variation and contemporary change Howard s historical explanation highlights the legacies of colonialism and early democratization which unintentionally created relatively inclusive citizenship regimes Howard s argument focuses on the politics of citizenship showing in particular how anti immigrant public opinion when activated politically usually by far right movements or public referenda can block the liberalizing tendencies of political elites Overall the book shows the far reaching implications of this growing and volatile issue

Challenging Multiculturalism: European Models of Diversity Raymond Taras,2012-12-17 Tackles the challenge of dismantling the multicultural model without destroying diversity in European society Have Europeans become hostile to multiculturalism When people vote for anti immigration parties do they

also support their anti multiculturalism policies And are right wing extremists becoming the storm troopers of the struggle against diversity In recent years European political leaders from Angela Merkel to David Cameron have discarded the term multiculturalism and now express scepticism criticism and even hostility towards multicultural ways of organising their societies Yet they are unprepared to reverse the diversity existing in their states These contradictory choices have different political consequences in the countries examined in this book The future of European liberalism is being played out as multicultural notions of belonging inclusion tolerance and the national home are brought into question The Evolution of Human Cooperation and Community Development August John Hoffman,Michelle Filkins,Saul Alamilla,2021-02-12

Communities today face unprecedented racial tension conflict and turmoil Social unrest political rhetoric authoritarian rulers and economic disparities contribute to unprecedented levels of community violence and extremism The Evolution of Human Cooperation and Community Development A Greener Approach to Understanding the Dynamics of Conflict proposes a more comprehensive and community oriented approach to address conflict through the development of community resources and ecologically sustainable green space programs such as community gardening programs The authors draw on empirical research to identify how resources may be utilized to promote increased positive intergroup contact and provide greater collaboration among community residents This book provides the essential interpersonal mechanisms to achieve a more resilient empowered and peaceful community **The Oxford Handbook of Political Psychology** Leonie Huddy,David O.

Sears,Jack S. Levy,Jennifer Jerit,2023 This updated third edition gathers together an international group of distinguished scholars to provide an up to date account of key topics and areas of research in political psychology Focusing first on political psychology at the individual level attitudes values decision making ideology personality and then moving to the collective group identity mass mobilization political violence this fully interdisciplinary volume covers models of the mass public and political elites and addresses both domestic issues and foreign policy Now with new chapters on authoritarianism nationalism status hierarchies and minority political identities along with updated material this is an essential reference for scholars and students interested in the intersection of the two fields *Muslims, Trust and Multiculturalism* Amina Yaqin,Peter

Morey,Asmaa Soliman,2018-05-17 This book critically engages with the contemporary breakdown of trust between Muslim and non Muslim communities in the West It argues that a crisis of trust currently hampers intercultural relations and obstructs full participation in citizenship and civil society for those who fall prey to the suspicions of the state and their fellow citizens This crisis of trust presents a challenge to the plurality of modern societies where religious identities have come to demand an equal recognition and political accommodation which is not consistently awarded across Europe especially in nations which view themselves as secular or where Islamic culture is seen as alien This volume of interdisciplinary essays by leading scholars explores the theme of trust and multiculturalism across a range of perspectives employing insights from political science sociology literature ethnography and cultural studies It provides an urgent critical response to the

challenging contexts of multiculturalism for Muslims in both Europe and the USA Taken together the contributions suggest that the institutionalisation of multiculturalism as a state led vehicle for tolerance and integration requires a certain type of trustworthy performance from minority groups particularly Muslims Even when this performance is forthcoming existing discourses of integration and underlying patterns of mistrust can contribute to Muslim alienation on the one hand and rising Islamophobia on the other

European Multiculturalisms Anna Triandafyllidou, 2011-11-30 Proposes a common European intellectual framework to evaluate recent developments in European multiculturalism The heightened security awareness in the wake of the 9 11 attacks and the London and Madrid bombings has resulted in a crisis of multiculturalism Now is the time to look at the renewed challenges that multiculturalism faces today Each chapter in this interdisciplinary book reviews the actual state of affairs in several countries in relation to the theories behind immigrant minority claims With a special focus on Muslim immigrants the contributors look at the value issues entrenched in multiculturalism and the policy challenges and measures adopted to address them

Migration and the Crisis of Democracy in Contemporary Europe Christoph M. Michael, 2021-01-12 This innovative and thought provoking study puts forth a compelling analysis of the constitutive nexus at the heart of the European refugee conundrum It maps and historically contextualises some of the distinctive challenges that pervasive ethnic and cultural pluralism present to real politics as on the level of political theorizing By systematically integrating hitherto insufficiently linked research perspectives in a novel way it lays open a number of paradoxical constellations and regressive tendencies in contemporary European democracy It thereby redirects attention to the ways in which liberal thought and liberal democratic institutions shape interact with and may even provide justification for illiberal and exclusionary practices This book thus makes an important contribution to the analysis of post migrant realities in Europe and the ways in which they are defined by imperial legacies punitive migration regimes the culturalization of mainstream politics and the discursive construction of a European Other

Creating European Citizens Willem Maas, 2007-02-03 Exploring a key aspect of European integration this clear and thoughtful book considers the remarkable experiment with common rights and citizenship in the EU Governments around the world traditionally distinguish insiders citizens from outsiders foreigners Yet over the past half century an extensive set of supranational rights has been created in Europe that removes member governments authority to privilege their own citizens a hallmark of sovereignty The culmination of supranational rights European citizenship not only provides individuals with

choices about where to live and work but also forces governments to respect those choices Explaining this innovation why states cede their sovereignty and eradicate or redefine the boundaries of the political community by including foreigners Willem Maas analyzes the development of European citizenship within the larger context of the evolution of rights Imagining more than simply a free trade market the goal of building a broader and deeper community among peoples with a destiny henceforward shared creating European citizens has informed European integration since its origins The author argues that its success or failure will not only determine the future of Europe but will also provide lessons for political integration elsewhere **The Routledge Handbook of the Politics of Migration in Europe** Agnieszka Weinara, Saskia

Bonjour, Lyubov Zhyznomirska, 2018-07-06 The Routledge Handbook of the Politics of Migration in Europe provides a rigorous and critical examination of what is exceptional about the European politics of migration and the study of it Crucially this book goes beyond the study of the politics of migration in the handful of Western European countries to showcase a European approach to the study of migration politics inclusive of tendencies in all geographical parts of Europe including Eastern Europe the Western Balkans Turkey and of influences of the European Union EU on countries in Europe and beyond Each expert chapter reviews the state of the art field of studies on a given topic or question in Europe as a continent while highlighting any dimensions in scholarly debates that are uniquely European Thematically organised it permits analytically fruitful comparisons across various geographical entities within Europe and broadens the focus on European immigration politics and policies beyond the traditional limitations of Western European immigrant receiving societies The Routledge Handbook of the Politics of Migration in Europe will be essential reading and an authoritative reference for scholars students researchers and practitioners involved in and actively concerned about research on migration and European and EU Politics

European Democracy as Demoi-cracy Francis Cheneval, Sandra Lavenex, Frank Schimmelfennig, 2017-10-02 Whereas democracy assumes a single demos or people demoi cracy refers to democratic government and governance in a polity constituted by separate peoples Since the European Union consists of many demoi with different collective identities largely separate public spheres and a predominantly national political infrastructure demoi cracy is an appropriate standard for the analysis and evaluation of democracy in the EU In its vertical dimension demoi cracy is based on the equality and interaction of citizens and states peoples representatives in the making of common policies Horizontally it seeks to balance equal transnational rights of citizens with national policy making autonomy This volume offers exemplary studies exploring the potential for and the workings of demoi cracy in the EU across a broad range of institutions and issues in both its vertical and horizontal dimensions In particular the contributions address the following questions Is demoi cracy relevant to citizen attitudes and public discourse on the EU s legitimacy How do national and supranational democratic institutions interact Do the EU s modes of governance such as regulation through agencies mutual recognition and the open method of coordination meet demoi cratic expectations This book was originally published as a special issue of the Journal of European Public Policy

Minorities of Europeanization Hakan Ovunc Ongur, 2014-11-13 What are the societal effects of Europeanization How successful is the EU s project to create an overarching European identity representative of all its citizens transcending national boundaries and including those previously excluded as national minorities This study addresses these questions by adapting the Social Identity Theory s SIT concept of social identity to the discussions of European identity offering a novel approach that remedies previous definitional and ontological problems of the term The conceptualization of a European social identity is generated here to invite a reconsideration of conventional understandings of how minorities group identities are formed Presenting itself as a challenge to nations and nationality the European integration process has yet to achieve its supra national ideal falling instead into the trap of nationalizing those who are subsumed under the category of minorities in practice arguably because of a faulty theoretical understanding of the term The new Others of Europeanization have been chosen specifically to emphasize despite the EU s united in diversity rhetoric the marked lack of united destiny and common heritage of selected European nationals Among these new Others Russophones in the Baltic states the Roma people populations of the Western Balkans immigrants and guest workers and Muslims residing in European countries have all been excluded from Europe s new social identity Through in depth historical analysis this book aims to correct this problem providing both European studies and broader political science literatures with a new understanding of minorities that is more dynamic both in practice and theory

Challenging the Paradoxes of Integration Policies Fabiola Pardo, 2017-08-29 This book traces Latin American migration to Europe since the 1970s Focusing on Amsterdam London and Madrid it examines the policies of integration in a comparative perspective that takes into account transnational national regional and

local levels It examines the entire mechanism that Latin American migrants confront in the European cities they settle and provides readers with a theoretical framework on integration that addresses the concepts of multiculturalism interculturality transculturality and transnationalism This work is based on rich qualitative data from in depth interviews focus groups and participant observation complemented by a substantial documentary and legislative analysis It reveals that current policies are limited and migrants are excluded in most of the formal venues for integration In addition the book shows the many ways that migrants negotiate the constraints and imperatives of integration In Western Europe today immigrants are largely assuming the entire responsibility of their integration This book provides readers with much needed insight into why European integration policies are not responding to the needs of immigrants nor to society as a whole [The Making of a European Public Sphere](#) Ruud Koopmans,Paul Statham,2010-07-29 This book investigates an important source of the European Union s recent legitimacy problems It shows how European integration is debated in mass media and how this affects democratic inclusiveness Advancing integration implies a shift in power between governments parliaments and civil society Behind debates over Europe s democratic deficit is a deeper concern whether democratic politics can perform effectively under conditions of Europeanization and globalization This study is based on a wealth of unique data from seven European countries combining newspaper content analyses an innovative study of Internet communication structures and hundreds of interviews with leading political and media representatives across Europe It is by far the most far reaching and empirically grounded study on the Europeanization of media discourse and political contention to date and a must read for anyone interested in how European integration changes democratic politics and why European integration has become increasingly contested **Handbook of Citizenship and Migration** Marco Giugni,Maria Grasso,2021-06-25 Taking an integrated approach this unique Handbook places the terms citizenship and migration on an equal footing examining how they are related to each other both conceptually and empirically
