Handbook of the Behavior and Psychology of Disease Colin R. Martin, Victor R. Preedy, Vinood B. Patel, Rajkumar Rajendram, 2025-09-26 This comprehensive handbook covers the entire range of physical disorders and their interrelated psychological problems Behavioral changes altered psychology and in some cases severe psychiatric conditions are frequent manifestations of communicable and non communicable disease While diseases have predictable trajectories their psychological comorbidities do not This unpredictability and sometimes lack of understanding can have profound effects on the professional the patient and the larger family unit Mental health related domains of quality of life measure also impact the disease process but are often overlooked Critical information targeted to experts within specialized areas can fail to reach a wider group of more general practitioners This is complicated by the fact that psychological conditions may prompt organic disease or conversely disease may set off psychological disorders This reference work creates the linkage between the two areas in a manner that is accessible to both experts and non experts alike

Rural Household Vulnerability and Insurance Against Commodity Risks Luc J. Christiaensen, Alexander Sarris, 2007-01-01 This report has two objectives It assesses the nature and the extent of vulnerability among rural households in Tanzania with a particular focus on smallholder cash crop growers though exploring all risks including the decline in commodity prices It further explores the potential role for market based insurance schemes such as commodity price and weather based insurance to mitigate household vulnerability The empirical analysis is based on two rounds of specifically designed representative surveys of farm households in Kilimanjaro and Ruvuma two cash crop growing regions in the United Republic of Tanzania in 2003 and 2004 The contrasting experiences of a richer Kilimanjaro and a poorer Ruvuma region substantially enriches the policy guidance emerging from the report The report applies descriptive econometric and contingent valuation techniques to achieve its objectives

Country Women Cope with Hard Times Melissa A. Walker,2012-10-15 Rare glimpses into the hardscrabble lives of rural Southern women and a model for oral history practice It was hard times French Carpenter Clark recalls a sentiment unanimously echoed by the sixteen other women who talk about their lives in Country Women Cope with Hard Times Born between 1890 and 1940 in eastern Tennessee and western South Carolina these women grew up on farms in labor camps and in remote towns during an era when the region s agricultural system changed dramatically As daughters and wives they milked cows raised livestock planted and harvested crops worked in textile mills sold butter and eggs preserved food made cloth sewed clothes and practiced remarkable resourcefulness Their recollections paint a vivid picture of rural life in the first half of the twentieth century for a class of women underrepresented in historical accounts Through her edited interviews with these women Melissa Walker provides firsthand descriptions of the influence of modernization on ordinary people struggling through the agricultural depression of the 1920s and 1930s and its aftermath Their oral histories make plain the challenges such women faced and the self sacrificing ways they found to confront hardship While the women detail the difficulties of their existence the drought years early freezes low crop prices and tenant farming they also recall the good times and the neighborly assistance of well developed mutual aid networks of which women were the primary participants

The Oxford Handbook of the Economics of Prostitution Scott Cunningham,Manisha Shah,2016 Prostitution bears the unique title of being both the world s oldest profession and one of the least understood occupations Unlike most of the crime and family literature prostitution appears to have all the features of traditional markets prices supply and demand considerations variety in the organizational structure and policy relevance Despite this economists have largely ignored prostitution in their research and writings This has been changing however over the last twenty years as greater access to data has enabled economists to build better theories and gain a better understanding of the organization of sex market The Oxford Handbook of the Economics of Prostitution fills the gap in our understanding It brings together many of the top researchers in the field who explain how the prostitution markets are organized across space and time the role of technology

in shaping labor supply and demand the intersection of prostitution with trafficking and the optimal use of law enforcement What makes the material unique is its explicit focus on economics as the primary methodology for organizing our understanding of prostitution The Handbook brings to scholars attention for the first time a collection of original writings on prostitution that provides an overview of what is known and what is not known in this area Researchers with an interest in underground markets labor economics risky behaviors marriage and gender will find the book s contents illuminating and path breaking ,
