scientists and geographers from Asia Latin America the Caribbean and Europe this volume refines the u Andean Entrepreneurs Lynn A. Meisch,2013-12-18 Native to a high valley in the Andes of Ecuador the Otavalos are an indigenous people whose handcrafted textiles and traditional music are now sold in countries around the globe Known as weavers and merchants since pre Inca times Otavalos today live and work in over thirty countries on six continents while hosting more than 145 000 tourists annually at their Saturday market In this ethnography of the globalization process Lynn A Meisch looks at how participation in the global economy has affected Otavalo identity and culture since the 1970s Drawing on nearly thirty years of fieldwork she covers many areas of Otavalo life including the development of weaving and music as business enterprises the increase in tourism to Otavalo the diaspora of Otavalo merchants and musicians around the world changing social relations at home the growth of indigenous political power and current debates within the Otavalo community over preserving cultural identity in the face of globalization and transnational migration Refuting the belief that contact with the wider world inevitably destroys indigenous societies Meisch demonstrates that Otavalos are preserving many features of their culture while adopting and adapting modern technologies and practices they find useful *Coping and Conformity in World Politics* Hugh C. Dyer,2009-12-16 This book introduces the conceptual frameworks of coping and conformity to provide a new analysis of the ethical and political demands of international life The book also aims to address wider issues of freedom and necessity individualism and communitarianism and cosmopolitanism agency and structure and the legitimacy of governance and institutions *Globalization and State Transformation in China* Yongnian Zheng,2004 As China develops its economy the author argues it will be held back by its refusal to import democratic values Engaging with Bediuzzaman Said Nursi Ian S. Markham,2016-04-29 Too often interfaith dialogue is generic and unfocused Often it involves liberals from each tradition coming together to criticize the conservatives in their own traditions This book provides a model for interfaith dialogue that challenges very directly the dialogue industry This book involves a Christian theologian in deep conversation with a Muslim theologian Bediuzzaman Said Nursi 1877 1960 was born at the end of the Ottoman Empire and lived through the emergence of an aggressive secular state He had to think through in remarkably creative ways the challenge of faith within a secular environment the relationship of faith and politics and the implications and challenge of diversity and difference His entire project is captured in his magnum opus *The Risale i Nur* In the first eight chapters of this book we engage closely with the thought of Nursi and tease out insights that Christians can learn from and accommodate Having established the method the second section of the book examines the precise implications for the interfaith movement The problem with the interfaith movement is that it is an act of western cultural imperialism they are taking the individualist assumptions of modern America and imposing them on the conversation The problems with John Hick s and Leonard Swidler s approach are exposed Moving out from Islam the book then demonstrates how the model of interfaith changes when Christians are in conversation with Hinduism in India A new set of Dialogue Ten Commandments are suggested The book

concludes with an appeal for a commitment to include and reach the conservatives in the major religious traditions
