Cops Teachers Counselors:

Cops, Teachers, Counselors Steven Williams Maynard-Moody, Michael Craig Musheno, 2022-05-10 The new edition of Cops Teachers Counselors furthers the exploration of forces that shape the contours of frontline work This line of inquiry is at the heart of street level bureaucracy research a field of study cutting across disciplines including public administration political science social work law and society education and criminal justice The oft cited 2003 edition pioneered a qualitative method of inquiry using workers own voices and storytelling about fairness in the delivery of services This NSF supported field research reveals the ways workers engage in moral judgments more than implementing laws and policies to account for their decisions and actions The new edition wraps an expanded framing around the original chapters while maintaining a lively approachable presentation style It takes on a more enriched perspective of legality than the original while retaining a focus on frontline work as a powerful source of cultural ordering In addition to examining workers stories of encounters attention is given to the agency of the governed during interactional moments the power dynamics in play during both interpersonal and group encounters and patterns of practice that converge across distinctive service domains The original edition describes two narratives that shape frontline workers decisional judgments and the interplay between legality and morality the state agent and citizen agent narratives This edition adds the knowledge agent narrative that stresses the importance of professional and field learning to decisional judgments The book examines routine encounters of cops teachers and counselors with diverse publics when questions of justice and fairness are at play This new edition speaks to contemporary issues at a time when frontline workers gained broad recognition for their heroic contributions to communities during the Covid 19 pandemic as well as sustained condemnation for their embodiment of the brutal expression of racialized state power in police actions The authors conclude with a focus on the significance of place and trust in building social inclusion on the frontlines of public service Cops, Teachers, Counselors Steven Maynard-Moody, Michael C.

Musheno, 2003-05-12 A penetrating look at how government workers make sense of their work ascribe identity to the people they encounter and account for their decisions and actions Cops, Teachers, Counselors Steven Williams Maynard-Moody, Michael Craig Musheno, 2009-11-10 Whether on a patrol beat in social service offices or in public school classrooms street level workers continually confront rules in relation to their own beliefs about the people they encounter Cops Teachers Counselors is the first major study of street level bureaucracy to rely on storytelling Steven Maynard Moody and Michael Musheno collect the stories told by these workers in order to analyze the ways that they ascribe identities to the people they encounter and use these identities to account for their own decisions and actions The authors show us how the world of street level work is defined by the competing tensions of law abidance and cultural abidance in a unique study that finally allows cops teachers and counselors to voice their own views of their work Steven Maynard Moody is Director of the Policy Research Institute and Professor of Public Administration at the University of Kansas Michael Musheno is Professor of

Justice and Policy Studies at Lycoming College and Professor Emeritus of Justice Studies Arizona State University *The New Metrics* Elaine M. Civil Servants on the Silver Screen Michelle C. Pautz, 2017-12-29 In the movies government often finds itself in a variety of roles from villain to supporting cast and rarely if ever the hero A frequent component of that role is the bureaucracy and as documented in *Civil Servants on the Silver Screen* Hollywood's Depiction of Government and Bureaucrats bureaucrats are routinely found on screen This book investigates how government bureaucrats are portrayed in the top ten box office grossing films from 2000 through 2015 Perhaps unsurprisingly government is generally portrayed poorly while individual government bureaucrats are typically depicted positively These images of government on screen are particularly important given the ability of movies to influence the attitudes and perceptions of its audiences The nature of these depictions and potential implications are considered as bureaucrats in film are categorized *When the State Meets the Street* Bernardo Zacka, 2017-09-18 Street level discretion Three pathologies the indifferent the enforcer and the caregiver A gymnastics of the self coping with the everyday pressures of street level work When the rules run out informal taxonomies and peer level accountability Impossible situations on the breakdown of moral integrity at the frontlines of public service **Policing Immigrants** Doris Marie Provine, Monica W. Varsanyi, Paul G. Lewis, Scott H. Decker, 2016-06-14 The United States deported nearly two million illegal immigrants during the first five years of the Obama presidency more than during any previous administration President Obama stands accused by activists of being deporter in chief Yet despite efforts to rebuild what many see as a broken system the president has not yet been able to convince Congress to pass new immigration legislation and his record remains rooted in a political landscape that was created long before his election Deportation numbers have actually been on the rise since 1996 when two federal statutes sought to delegate a portion of the responsibilities for immigration enforcement to local authorities *Policing Immigrants* traces the transition of immigration enforcement from a traditionally federal power exercised primarily near the US borders to a patchwork system of local policing that extends throughout the country's interior Since federal authorities set local law enforcement to the task of bringing suspected illegal immigrants to the federal government's attention local responses have varied While some localities have resisted the work others have aggressively sought out unauthorized immigrants often seeking to further their own objectives by putting their own stamp on immigration policing Tellingly how a community responds can best be predicted not by conditions like crime rates or the state of the local economy but rather by the level of conservatism among local voters What has resulted the authors argue is a system that is neither just nor effective one that threatens the core crime fighting mission of policing by promoting racial profiling creating fear in immigrant communities and undermining the critical

community based function of local policing *Researching Street-level Bureaucracy* Mike Rowe, 2024-12-30 Police officers social workers teachers and many other street level bureaucrats exercise discretion in dealing with clients In so doing they make policy as it is experienced at the frontline Instead of puzzling at repeated public policy implementation failures and wondering why street level bureaucrats SLBs don't behave the way policy makers expect we need to understand the world as seen from the ground This short and practical text explores the value of interpretive analysis for researching street level bureaucracy Using Michael Lipsky's 1980 idea of SLB and connecting it to contemporary debates Mike Rowe argues for an approach to researching SLBs that focuses on dilemmas in practice ones that change with each policy shift each new target with austerity and with new technology such that no settled state is likely He places emphasis on the need to understand the ways SLBs respond to pressures in order to work with them and to understand what policy becomes in practice Street level bureaucrats and their clients are engaged in a process of sense making *Researching Street level Bureaucracy* is not just an essential resource for teachers and students of Master's and Doctoral programs in Public Administration Public Policy Social Work and Criminal Justice it is a must read for anyone interested in understanding the structural pressures that bear on the individual and how any change to the dilemmas confronted might play out at the street level *Latina Teachers* Glenda M. Flores, 2017-06-13 Winner 2018 Outstanding Contribution to Scholarship Book Award presented by the American Sociological Association's Section on Race Class and Gender Honorable Mention 2018 Distinguished Contribution to Research Book Award presented by the American Sociological Association's Latina o Sociology Section How Latina teachers are making careers and helping students stay in touch with their roots Latina women make up the fastest growing non white group entering the teaching profession at a time when it is estimated that 20% of all students nationwide now identify as Latina o Through ethnographic and participant observation in two underperforming majority minority schools in Los Angeles as well as interviews with teachers parents and staff *Latina Teachers* examines the complexities stemming from a growing workforce of Latina teachers The teachers profiled use Latino cultural resources and serve as agents of ethnic mobility They actively teach their students how to navigate American race and class structures while retaining their cultural roots necessary tactics in an American education system that has not fully caught up with the nation's demographic changes Flores also explores the challenges faced by Latina teachers including language barriers and cultural acclimation and professional inequalities that continue to affect women of color at work An unprecedented look at an understudied population *Latina Teachers* presents an important picture of the women who are increasingly shaping the way America's children are educated *Police Leadership in a Democracy* James Isenberg, 2017-07-27 Every day the media floods the airwaves with their often contradictory version of the role and behavior of the police force Based on this you might think that police officers either brutally enforce their own interpretation of the nation's laws or use all the modern tools available to carefully and persistently uncover the special clues that lead **Federal Intervention in American Police Departments** Stephen Rushin, 2017-04-07 This book evaluates

how structural reform litigation initiated by federal intervention has transformed police departments and reduced law enforcement misconduct

Ghere, 2015-04-22 This book examines the rhetoric of various exemplars who advocate for causes and actions pertaining to human rights in particular contexts Although some of these exemplars champion human rights others are human rights antagonists Simply put the argument here is that concern for how particular individuals advocate for human rights causes as well as how antagonists obstruct such initiatives adds significant value to understanding the successes and failures of human rights efforts in particular cultural and national contexts On one hand we can grasp how specific international organizations and actors function to develop norms for example the rights of the child and how rights are subsequently articulated in universal declarations and formal codes But on the other it becomes apparent that the actual meaning of those rights mutate when accepted within particular cultures A complementary facet of this argument relates to the centrality of rhetoric in observing how rights advocates function in practice specifically rhetoric focuses upon the art of argumentation and the various strategies and techniques enlisted therein In that much of the reality surrounding human rights from the standpoints of advocates and antagonists alike is fundamentally interpretive rhetorical or argumentative skill is of vital importance for advocates as competent pragma dialecticians in presenting the case that a rights ideal can enhance life in a culture predisposed to reject that ideal This book includes case studies focusing on the rhetoric of the following individuals or groups as either human rights advocates or antagonists Mary B Anderson Rwandan hate radio broadcasters politicians and military officials connected with the Kent State University and Tiananmen Square student protest tragedies Iqbal Masih Pussy Riot Lyndon Johnson Julian Assange Geert Wilders Daniel Barenboim Joe Arpaio and Lucius Banda

Perry, 2020-12-17 New behavioural science knowledge about motivation in public service from a pioneer of the field **Proposing Prosperity?** Jennifer M. Randles, 2016-12-27 Fragile families unmarried parents who struggle emotionally and financially are one of the primary targets of the Healthy Marriage Initiative a federal policy that has funded marriage education programs in nearly every state These programs which encourage marriage by teaching relationship skills are predicated on the hope that married couples can provide a more emotionally and financially stable home for their children Healthy marriage policy promotes a pro marriage culture in which two parent married families are considered the healthiest It also assumes that marriage can be a socioeconomic survival mechanism for low income families and an engine of upward mobility Through interviews with couples and her own observations and participation in marriage education courses Jennifer M Randles challenges these assumptions and critically examines the effects of such classes on participants She takes the reader inside healthy marriage classrooms to reveal how their curricula are reflections of broader issues of culture gender governance and social inequality In analyzing the implementation of healthy marriage policy Randles questions whether it should target individual behavior or the social and economic context of that behavior The most valuable approach she concludes will not be grounded in notions of middle class marriage culture Instead it will reflect the fundamental premise that love and commitment thrive most within the context of social and economic opportunity
