

Competition

Competition is a key factor in the success of a business. It can be defined as the struggle between two or more entities for a limited resource. In the business world, competition is often seen as a race to be the first to market a new product or service. However, competition can also be a source of innovation and improvement. By studying their competitors, businesses can learn from their mistakes and adopt best practices. Ultimately, competition is a double-edged sword that can both challenge and inspire a business to succeed.
