significant number. Because of larger class sizes in most institutions the amount of real help and support from academic staff to final year students is diminishing. Many final year students will have read one of the many useful general study skills texts which are available. However these books do not provide the depth of assistance or the range of coverage which final year students need. *How to Win as a Final Year Student* is the first book to deal with the specific challenges faced by final year students. It is strongly recommended that students be advised to read it at the beginning of their final year. Topics covered by this book include: How to think strategically about what you're doing; How to plan your time in order to work successfully on several things at once; Tackling big dissertations and projects; Revision learning from past mistakes; Managing stress; Exam techniques for final exams including preparing for a viva; Thinking about research and higher degrees; Writing a CV; Making job applications; Preparing for interviews and tests.
