Records and Briefs New York State Appellate Division , Demobilization Planning and Operation in the Quartermaster Corps United States. Army. Quartermaster Corps,Erna Risch,1948 This monograph is based primarily on data maintained in the main files of the Office of the Quartermaster General by the Mail and Records Branch Demobilization activities cut across all functions of the Quartermaster Corps and these files were supplemented by data obtained in particular branches such as the Requirements Branch of the Military Planning Division the Contract Termination Branch of the Procurement Division and the Stock Control Branch of the Storage and Distribution Division To correlate activities at the Office of the Quartermaster General and at the depots use was made of several monographs on depot activities prepared by historians at these installations The depot record was further supplemented by interviews with key personnel both military and civilian at the major procuring depots *Q.M.C. The U. S. Army's Transition to the All-Volunteer Force (1968-1974) Robert K. Griffith, Jr.,1999-05 The all volunteer force the historic norm in peacetime America was reestablished in the U S on 30 June 1973 when induction authority expired But never before had the U S attempted to field a standing Army in peacetime based on voluntary enlistments with the worldwide responsibilities that faced this force Since the mid 1980s the ability of the armed forces to recruit and retain quality volunteers has not been seriously questioned This book takes us through those years of transition examining both the context in which the end of the draft occurred and the perspective which the Army s leaders brought to bear on the challenge they faced The U.S. Army's Transition to the All-volunteer Force, 1968-1974 Robert K. Griffith,1996 The U S Army s Transition to the All Volunteer Force is a compelling analysis of the process by which the Army responded to the requirements of creating an all volunteer force reestablished in the United States at midnight on 30 June 1973 when induction authority expired That the transition from virtual dependency on the draft to a manpower system based on volunteerism was accomplished nearly simultaneously with the withdrawal from Vietnam is all the more remarkable Robert K Griffith Jr takes us through the turbulent years of transition from 1968 to 1974 examining both the broad context in which the end of the draft occurred and the less well known perspective that Army leaders brought to bear on the challenge they faced In spite of an environment of fierce opposition those charged with developing and implementing the Army s three phased program to achieve all volunteer status persevered and approached the task with a determination to succeed Griffith s history shows the key role played by the Army staff and Army secretariat in shaping the Army as it underwent deep alterations in the very foundations of its structure It provides both a glimpse into the dynamics of the reciprocal relationship between the Army and society and is a useful case study of the successful management of fundamental organizational change
