Gold Warriors Peggy Seagrave, Sterling Seagrave, 2020-05-05 In 1945 US intelligence officers in Manila discovered that the Japanese had hidden large quantities of gold bullion and other looted treasure in the Philippines President Truman decided to recover the gold but to keep its riches secret These combined with Japanese treasure recovered during the US occupation and with recovered Nazi loot would create a worldwide American political action fund to fight communism This Black Gold gave Washington virtually limitless unaccountable funds providing an asset base to reinforce the treasuries of America's allies to bribe political and military leaders and to manipulate elections in foreign countries for more than fifty years [Seven Seals: Dark Savior Series Book 2](#) Jim Clougherty, 2020-07-08

Dragged Up Proppa is the story of growing up working class in a forgotten England Very compelling beautifully written memoir of a time and England that no longer exists but remains just as important today as ever Sebastian Payne author of Broken Heartlands Pip Fallow was born in the coal miner s cottage where his family of eight lived in a village near Durham Pip was destined to join his father down the pit but the closure of his village s mine in the 1980s saw him at the back of the dole queue like the rest This is Pip s story of being dragged up proppa living by his wits working and travelling the world before finally settling a few miles from where he grew up A lot has been written about the red wall in recent years but Pip Fallow has lived it This is his account of some of the most important issues affecting Britain today from levelling up and the north south divide to social mobility and class and the devastating social upheaval caused by decades of deindustrialization and government neglect He shows how broken promises of the past impact his village and the politics of today This is the memoir of a man who left school illiterate but has now written a book The story of a lost generation who were prepared for a life that had disappeared by the time they were ready for it of communities with once strong social ties that have now disintegrated and a way of living that simply no longer exists in Britain today Fallow s memoir is not just a classic piece of working class writing but a truly gripping narrative Brian Groom author of Northerners A History *New Statesman* ,2006

Railroad Telegrapher ,1901 *The Golden Americas* John Tillotson,1869 Oil Addiction Pierre Chomat,2004 Totally addicted to oil Man in his industrial adventure has transformed nearly all the Earth s ecosystems into egosystems designed to serve only his own needs and desires at the expense of all other species He persists despite the irreversible damage he is causing to the environment He has already disrupted the Earth s thermostats Western society has reached the Age of Excess which will last only as long as there is still fossil energy to fuel it The Earth cannot keep up with Man s demand for natural resources Her hydrocarbon reserves are shrinking rapidly and by 2010 global production will begin to decrease setting off a period of unprecedented planetary disorder and turmoil Today the United States must import most of the oil it needs from

faraway countries Therein lies a terrible paradox the power of America is rooted in dependency The free enterprise system that it is imposing on the rest of the world cannot solve this paradoxical situation it will only amplify it and hasten destabilization It is high time to wonder whether we in the West in our suicidal quest for energy are not running the risk of losing control of the course of our history The invasion of Iraq by the United States military in lockstep with American corporations is a distressing and reprehensible step in this direction
