what will happen next A Viewing Guide to the Pandemic is a film book like no other It opens with the author s first hand account of the Covid 19 pandemic and life in lockdown His sense of dread and anxiety about his state of health were experiences shared with millions of others across the world Already committed to writing a book about plagues and pandemics in popular culture Covid 19 felt like a perverse twist of fate for Richard Scheib Media depictions of deadly contagions had to this point been speculative and often off the mark his book takes an in depth look at what filmmakers imagined would happen and contrasts it with the reality International in scope the book examines films in a wide variety of genres from the silent era to the present day Black Death Ebola Mad Cow Disease Bird Flu it explores fictionalized accounts of plague and pestilence such as box office hit Outbreak 1995 as well as mockumentary treatments Whether the threats depicted have a basis in reality the biowarfare of the Cold War era for instance or are more fantastical Scheib demonstrates how the fear of contagion has provided a wealth of inspiration for the big and small screen Ceasefire! Ivan

Molloy,2020-02-27 This is a true story On one level it is part my autobiography On another it deals with three generations of my family s active involvement in war terrorism political and social conflict and the tragic emotional and psychological consequences my family endured as a result In 2009 as an Australian academic with expertise in global terrorism and a one time aspiring federal politician I fled to France to try and deal with clinical depression and associated Post Traumatic Stress Disorder PTSD I was fleeing the nightmare of a destroyed career and a shattered family As I tried to battle the Black Dog of depression suicide was a very real option for me But first I decided to write a book about my research and involvement with Muslim terrorists and revolutionary guerrilla groups in the Philippines It was a way of combating a public media campaign that had destroyed my professional and private life But to do this I needed to retrace both my own and my family s earlier experiences with conflicts elsewhere which influenced me to choose such research In so doing I discovered new realities about the psychological condition I was battling and how it impacted on and haunted my own extended family over generations and all due to war and social conflict with horrific human consequences Ultimately I have concluded I m

certainly not alone in my struggle I m merely another casualty of a brutal primeval human phenomenon which continually infects the psychology of the next generation It is the phenomenon of the subconscious human struggle for the survival of the fittest Now with a greater understanding of my condition I have at least so far managed a stand off with the Black Dog I realise it wasn t spawned by any particular condition of my own but rather the very nature of human society So far society still fails to take responsibility for generating such a condition and instead still promotes our innate species drive to achieve the survival of the fittest an endgame which usually results in warfare In the 21st century if we do not challenge and change our notion of what is needed to survive then forget the Koreas ISIS nuclear warfare etc human kind will eventually psychologically and then physically self destruct How did I come to this realisation It all played out in a small village called Ouroux En Morvan in France
