Bread and Freedom Ron O'Grady,1977 **Negotiating Peace** Shimreingam L. Shimray,2020-09-29 In *Negotiating Peace* Shimreingam L Shimray argues that peace cannot be derived from outside forces but that it must instead be created from within the local context by the local people adopting their own cultural and historical system and using their own intellectual and material resources The author uses a deeply contextual reading of his own setting resulting in a work whose value rests in revealing how the tribal people of North East India have used their own resources to work for a culture of peace amidst tension and difficulty *Negotiating Peace* grows from an ongoing commitment on the part of Fortress Press to bring creative theological reflection from the Global South to the conversations taking place around the world It will be of interest not only to scholars of Christianity in North East India but to scholars students and those interested in peace studies

Dictionary of Mission Karl Muller,Theo Sundermeier,Stephen B. Bevans,Richard H. Bliese,2006-01-30 Conceived and developed by two of Europe s most eminent missiologists in the country where the scientific and sustained study of mission first took shape the *Dictionary of Mission* represents the finest of the chorus of voices that comprise contemporary missiology The choice of topics and the authors to address them reflects what Christian mission has become a genuinely worldwide and ecumenical phenomenon That there would be entries on regional theological developments is indicative of how the world church is developing A host of other topics here explored show too how the landscape of mission is changing Taken as a whole then the *Dictionary of Mission* is a road map through this exciting and challenging terrain from the Foreword

Human Rights in Domestic Law and Development Claus Gulmann,Lars Adam Rehof,2021-11-15 *The International Dimensions of Human Rights* Philip Alston,1982 *International Christian Literature Documentation Project* Douglas W. Brackney,2005 *Human Rights and the Reinvention of Freedom* Nick Stevenson,2016-10-04 This volume seeks to propose a reinvention of freedom under contemporary conditions of globalization cross border mobility and neo liberal dominance There are currently two predominant myths circulating about freedom The first is that in a global age growing numbers of citizens are less concerned with freedom than they are with security Secondly there is the presumption that freedom only refers to market freedom and consumerism implying that the ideas of choice and consumption are interchangeable with ideas of freedom Stevenson argues that while these arguments are significant they are deeply misleading More authentic ideas of freedom such as self realisation participating in politics and seeking a meaningful life of self reflection have not been entirely displaced but have instead become reinvented in our global times The cries of freedom can still be heard in a multitude of places from the Arab

Spring to the Occupy Movement and from the protests against European austerity to the current popularity of human rights Stevenson also argues that the idea of freedom has become increasingly mobile in our interconnected and transnational society The spaces and places of civil society are more complex in this global age pushing ideas of freedom far beyond the usual arena of national politics This volume brings together a diverse range of cultural interpretations in respect of freedom related to the idea of the commons cosmopolitanism contemporary documentary cinema and the history of jazz music Exploring the ways in which notions of freedom are being re made within the context of the present and looking more precisely at the current threats to freedom it will be of interest to students and scholars of globalization human rights and cultural sociology

Abozaid,2022-03-28 This book reveals how counterterrorism discourses and practices became the main tool of a systematic violation of human rights in Egypt after the Arab Uprising It examines how the civic and democratic uprising in Egypt turned into robust authoritarianism under the pretence of counterterrorism and the war on terror By interrogating Egypt s counterterrorism legislation the book identifies a correlation between counterterrorism narratives and the systemic violation of human rights It examines the construction of a national security state that has little tolerance for dissent political debate or the questioning of official policy and how the anti terrorism measures undertaken are actually anti democracy strategies The book also traces 150 years of Egyptian counterterrorism and counterinsurgency discourse and analyses how this links with these practices of human rights assaults By investigating how this discourse constructs and reproduces knowledge and meaning about terrorism and counterterrorism practices in Egypt the book highlights how the government legitimises these
