Contemporary Mexican Painting In A Time Of Change:

Contemporary Mexican Painting in a Time of Change Shifra M. Goldman, 1995 United by their belief in the importance of the human image in art they distanced themselves both from the social realism of their predecessors and from the pure abstraction of many of their contemporaries Shifra Goldman begins with a brief examination of the era and issues of muralism and the art of Rufino Tamayo She then focuses on the confrontation between socially conscious art and pure painting that began in the late 1950s and resulted in the formation of Nueva Presencia Dimensions of the Americas Shifra M. of the political was largely conferred to the image Furthermore at the moment of its historical demise the new postmodern forms of sovereignty appear to rely even more heavily on visual discourses of power However a critique of the iconography of the modern state form has been missing This volume is the first concerted attempt by cultural historical and visual scholars to address the political dimension of visual culture in Latin America in a comparative perspective spanning various regions and historical stages The case studies are divided into four sections analysing the formation of a public sphere the visual politics of avant garde art the impact of mass society on political iconography and the consolidation and crisis of territory as a key icon of the state

Nacho Lopez, Mexican Photographer John Mraz, 2003 Annotation Photographer Nacho Lopez was Mexico's Eugene Smith fusing social commitment with searing imagery to dramatize the plight of the helpless the poor and the marginalized in the pages of glossy illustrated magazines Even today Lopez's photographs forcefully belie the picturesque exoticism that is invariably presented as the essence of Mexico In Nacho Lopez Mexican Photographer John Mraz offers the first full length study in English of this influential photojournalist and provides a close visual analysis of more than fifty of Lopez's most important photographs Mraz first sets Lopez's work in the historical and cultural context of the authoritarian presidentialism that characterized Mexican politics in the 1950s the cult of wealth and celebrity promoted by Mexico's professional photographers and the government's attempts to modernize and industrialize Mexico at almost any cost Mraz skillfully explores the implications of Lopez's imagery in this setting the extent to which his photographs might constitute further victimization of his downtrodden subjects the relationship between them and the middle class readers of the magazines for which Lopez worked and the success with which his photographs challenged Mexico's economic and political structures Mraz contrasts the photos Lopez took with those that were selected by his editors for publication He also compares Lopez's images with his theories about documentary photography and considers Lopez's photographs alongside the work of Robert Capa Dorothea Lange Henri Cartier Bresson and Sebastiao Salgado Lopez's imagery is further analyzed in relation to the Mexican Golden Age cinema inspired by Sergei Eisenstein the pioneering digital imagery of Pedro Meyer and the work of Manuel Alvarez Bravo who Mraz provocatively argues was the first Mexican photographer to take an anti picturesque stance The definitive English language assessment of Nacho Lopez *Intersected Identities* Erica Segre, 2007-05-01 There has always been an important visual element to the construction and questioning of national identity in post Independence Mexico though one that has not always been given its due outside of the celebrated and much studied muralists Ranging from the early nineteenth century to the present from the vogue for the picturesque illustrated periodicals and the influential writings of Altamirano to a wealth of twentieth century graphic artists filmmakers and photographers this book re examines the complex variety of ways in which that visual element has operated In particular it looks at the ways in which discourses concerning ethnicity and cultural hybridity have been echoed and transformed in Mexican visual culture resulting in fields of visual discourse which are eclectic and increasingly self reflexive *Mexico* Metropolitan Museum of Art (New York, N.Y.), Los Angeles County Museum of Art, 1990 Precolumbian art Viceregal art Nineteenth century art

Twentieth century art **As Radical as Reality Itself** Matthew Beaumont, 2007 This collection of essays by a number of established scholars and artists proposes new directions for Marxist cultural theory and the criticism of modern visual culture It addresses a diverse range of topics including the state and revolution Communist and post Communist aesthetics Situationist thought and the avant garde subjectivity and commodification and the politics and problems of contemporary artistic practice The contributions also consider several other pressing questions in the visual arts from the practice of digital culture to appropriations of critical theory from the relations of art and the spectacle to architecture in the age of global modernity This book on Marxism and art is not offered in a spirit of nostalgia on the contrary it testifies to the continuing vitality and confidence of historical materialist thought in the field of cultural theory and practice in the 21st century

Cold War in the White Cube Delia Solomons, 2023-04-28 In 1959 the very year the Cuban Revolution amplified Cold War tensions in the Americas museumgoers in the United States witnessed a sudden surge in major exhibitions of Latin American art Surveying the 1960s boom of such exhibits this book documents how art produced in regions considered susceptible to communist influence was staged on U S soil for U S audiences Held in high profile venues such as the Guggenheim Museum the Walker Art Center MoMA and the Art Institute of Chicago the exhibitions of the 1960s Latin American art boom did not define a single stylistic trend or the art of a single nation but rather attempted to frame Latin America as a unified whole for U S audiences Delia Solomons calls attention to disruptive artworks that rebelled against the curatorial frames purporting to hold them and reveals these exhibitions to be complex contact zones in which competing voices collided Ultimately through multiple means including choosing to exclude artworks with readily decipherable political messages and evading references to contemporary inter American frictions the U S curators who organized these shows crafted projections of Pan American partnership and harmony with the United States as leader interpreter and good neighbor during an era of brutal U S interference across the Americas Theoretically sophisticated and highly original this survey of Cold War era Latin American art exhibits sheds light on the midcentury history of major U S art museums and makes an important contribution to the fields of museum studies art history and Latin American modernist art Hotel Mexico George F. Flaherty, 2016-08-16 In 1968 Mexico prepared to host the Olympic games amid growing civil unrest The spectacular sports facilities and urban redevelopment projects built by the government in Mexico City mirrored the country's rapid but uneven modernization In the same year a street savvy democratization movement led by students emerged in the city Throughout the summer the 68 Movement staged protests underscoring a widespread sense of political disenfranchisement Just ten days before the Olympics began nearly three hundred student protestors were massacred by the military in a plaza at the core of a new public housing complex In spite of institutional denial and censorship the 1968 massacre remains a touchstone in contemporary Mexican culture thanks to the public memory work of survivors and Mexico's leftist intelligentsia In this highly original study of the afterlives of the 68 Movement George F Flaherty explores how urban spaces material but also literary

Culinary Palettes Lesley A. Wolff, 2025 How the visual culture of food cookery and consumption played a central role in the making of postrevolutionary Mexico María Izquierdo and Frida Kahlo Nancy Deffebach, 2015-08-15 Mar a Izquierdo 1902 1955 and Frida Kahlo 1907 1954 were the first two Mexican women artists to achieve international recognition During the height of the Mexican muralist movement they established successful careers as easel painters and created work that has become an integral part of Mexican modernism Although the iconic Kahlo is now more famous the two artists had comparable reputations during their lives Both were regularly included in major exhibitions of Mexican art and they were invariably the only women chosen for the most important professional activities and honors In a deeply informed study that prioritizes critical analysis over biographical interpretation Nancy Deffebach places Kahlo's and Izquierdo's oeuvres in their cultural context examining the ways in which the artists participated in the national and artistic discourses of postrevolutionary Mexico Through iconographic analysis of paintings and themes within each artist's oeuvre Deffebach discusses how the artists engaged intellectually with the issues and ideas of their era especially Mexican national identity and the role of women in society In a time when Mexican artistic and national discourses associated the nation with masculinity Izquierdo and Kahlo created images of women that deconstructed gender roles critiqued the status quo and presented more empowering alternatives for women Deffebach demonstrates that paradoxically Kahlo and Izquierdo became the most successful Mexican women artists of the modernist period while most directly challenging the prevailing ideas about gender and what constitutes important art Women Made Visible Gabriela Aceves Sepúlveda, 2019-04-01 2020 Canadian Association for Latin American and Caribbean Studies CALACS Book Prize In post 1968 Mexico a group of artists and feminist activists began to question how feminine bodies were visually constructed and politicized across media Participation of women was increasing in the public sphere and the exclusive emphasis on written culture was giving way to audio visual communications Motivated by a desire for self representation both visually and in politics female artists and activists transformed existing regimes of media and visibility Women Made Visible by Gabriela Aceves Sepúlveda uses a transnational and interdisciplinary lens to analyze the fundamental and overlooked role played by artists and feminist activists in changing the ways female bodies were viewed and appropriated Through their concern for self representation both visually and in formal politics these women played a crucial role in transforming existing regimes of media and visibility increasingly important intellectual spheres of action Foregrounding the work of female artists and their performative and visual rather than written interventions in urban space in Mexico City Aceves Sepúlveda demonstrates that these women feminized Mexico's mediascapes and shaped the debates over the female body gender difference and sexual violence during the last decades of the twentieth century Weaving together the practices of activists filmmakers visual artists videographers and photographers Women Made Visible questions the disciplinary boundaries that have historically undermined the

practices of female artists and activists and locates the development of Mexican second wave feminism as a meaningful actor in the contested political spaces of the era both in Mexico City and internationally Futures of Dance Studies Susan Manning, Janice Ross, Rebecca Schneider, 2020-01-14 A collaboration between well established and rising scholars Futures of Dance Studies suggests multiple directions for new research in the field Essays address dance in a wider range of contexts onstage on screen in the studio and on the street and deploy methods from diverse disciplines Engaging African American and African diasporic studies Latinx and Latin American studies gender and sexuality studies and Asian American and Asian studies this anthology demonstrates the relevance of dance analysis to adjacent fields **Liliana Porter and the Art of Simulation** Florencia Bazzano-Nelson, 2017-07-05 Visually appealing conceptually startling and intellectually engaging these phrases aptly describe the art of Liliana Porter Florencia Bazzano Nelson's study focuses on the principal theme in the Argentine born artist's work since the 1970s her playful but subversive dismantling of the limits that separate everyday reality from the world of illusion and simulacra Over the years Porter's own evolving interest in perception lead the author to explore a series of interconnected and timely issues in her artistic production such as the representative function of art the structural links between art and language and the witty re-signification of the art historical images and mass produced kitsch figurines she has so often featured in her art Strongly founded in critical theory Bazzano Nelson's approach considers Porter's art as the site of conceptually exciting dialogues with Jorge Luis Borges René Magritte Michel Foucault and Jean Baudrillard Her carefully crafted interdisciplinary analysis not only combines art historical literary and theoretical perspectives but also addresses the artist's work in different media such as printmaking conceptual art photography and film
