society's interests in the application of measures of deprivation of the right to property and at the same time ensuring a proportional relationship between the goal set and the means used. The author analyzed the current civil legislation and judicial practice of the Civil Court of Cassation, the Commercial Court of Cassation of the Supreme Court and the Grand Chamber of the Supreme Court regarding certain categories of credit disputes and land cases including the resolution of jurisdictional problems in the consideration of land disputes. In her chapter Natalya Chernyshchuk states the fact that the growth of the role of a lawyer in modern society is objectively due to the complication of social infrastructure, democratization of social relations, liberalization of economic life, growth of private initiative, the development of the legal status of the individual, the expansion of individual rights and freedoms. The role of various forms of social and legal regulation is growing, which leads to the emergence of specific social mediators in relations between people and their groups as well as the state. In his chapter Oleksandr Pogulyayev considered the legal approaches of the political forces of the Right Bank ethnic minorities in solving the issue of international relations during the years of struggle for Ukrainian statehood, the influence of foreign policy factors on the formation of national demands of political parties and public organizations. Andrii Dzevelyuk, based on the study of the life path of M. Yu. Chizhov, considers his formation as a lawyer and a political scientist in an interconnected context. Analyzes his conclusions that a lawyer should study not only the forms in which law is made available to us, not only the forms in which it becomes mandatory, but also the awareness of law as one of the social phenomena as a product of various social factors that act under the influence of certain laws. The section prepared by Vitaly Kaidashov is dedicated to solving the problem of the legal basis of the safety of the quality of agricultural products. The author emphasizes that despite the high degree of importance of the problem under investigation, the current legislation of Ukraine on the safety and quality of agricultural products is imperfect, contains many gaps in the legal regulation of the specified issues. Authors Andriy and Maryna Pravdyuk, in the context of various aspects, consider and give their practical characteristics to the constitutional obligations of citizens to pay taxes in Ukraine and the European Union. In the research of Iryna Skichko, the legal prerequisites for the formation of modern vectors of French foreign policy are clearly observed. At the same time, the approach of temporal differentiation and subject analysis was used, which was carried out in accordance with the periods of the reign of French presidents and in relation to the key geopolitical directions of foreign policy: European, Atlantic, Middle Eastern, African. The content of the collective monograph corresponds to the research direction of the Department of Law of the Vinnytsia National Agrarian University: Legal protection of human rights and freedoms in the conditions of European integration. The monograph uses legal, social and legislative research methods. Free Hands and Minds Susan Bartie, 2019-09-19. Peter Brett 1918-1975, Alice Erh Soon Tay 1934-2004 and Geoffrey Sawer 1910-1996 are key yet largely overlooked members of Australia's first community of legal scholars. This book is a critical study of how their ideas and endeavours contributed to Australia's discipline of law and the first Australian legal theories. It examines how three

marginal figures a Jewish man Brett a Chinese woman Tay and a war orphan Sawyer rose to prominence during a transformative period for Australian legal education and scholarship Drawing on in depth interviews with former colleagues and students extensive archival research and an appraisal of their contributions to scholarship and teaching this book explores the three professors international networks and broader social and historical milieux Their pivotal leadership roles in law departments at the University of Melbourne University of Sydney and the Australian National University are also critically assessed Ranging from local experiences and the concerns of a nascent Australian legal academy to the complex transnational phenomena of legal scholarship and theory *Free Hands and Minds* makes a compelling case for contextualising law and legal culture within society At a time of renewed crisis in legal education and research in the common law world it also offers a vivid nuanced and critical account of the enduring liberal foundations of Australia s discipline of law
