Contesting Citizenship in Urban China Dorothy J. Practicing Citizenship in Contemporary China Sophia Woodman, Zhonghua Guo, 2020-04-02 This book examines citizenship as practiced in China today from a variety of angles Citizenship in China and elsewhere in the Global South has often been perceived as either a distorted echo of the real democratic version in Europe and North America or an orientalized other that defines what citizenship is not By contrast this book sees Chinese citizenship as an aspect of a connected modernity that is still unfolding The book focuses on three key tensions a state preference for sedentarism and governing citizens in place vs growing mobility sometimes facilitated by the state a perception that state building and development requires a strong state vs ideas and practices of participatory citizenship and submission of the individual to the collective state community village family etc vs the rising salience of conceptions of self development and self making projects Examining manifestations of these tensions can contribute to thinking about citizenship beyond China including the role of the local in forming citizenship orders how individualization works in the absence of liberal individualism and how social citizenship is increasingly becoming a reward to good citizens rather than a mechanism for achieving citizen equality This book was originally published as a Special Issue of the journal *Citizenship Studies*

Rural Women in Urban China Tamara Jacka, 2014-12-18 Based on in depth ethnographic research and using an approach that seeks to understand how migration is experienced by the migrants themselves this is a fascinating study of the experiences of women in rural China who joined the vast migration to Beijing and other cities at the end of the twentieth century It focuses on the experiences of rural urban migrants the particular ways in which they talk about those experiences and how those experiences affect their sense of identity Through first hand accounts of actual migrant workers the author provides valuable insights into how rural women negotiate rural urban experiences how they respond to migration and life in the city and how that experience shapes their world view values and relations with others The book makes a major contribution to our understanding of the relationship between gender and social change and of the ways in which globalization and modernity are experienced at the most personal level

Urban Village Redevelopment in Beijing, China Ran Liu, 2024-06-12 The book provides a multi stage assessment of the changing housing opportunities of migrant workers in the three stages of Beijing's urban village development emergence erasure and preservation The volume re theorizes Henry Lefebvre's notion of the right to the city as a largely property based concept that falls within the city's hybrid tenure matrix of varying degrees of tenure security and formality that is undergoing entrepreneurialization or gentrification This is another highly valuable contribution to China studies from the geographical perspective of the territorial politics at play in the process of urban village redevelopment which has fostered a new propertied landowning class as winners while moving low wage migrants The book takes the reader on a fascinating journey from peri urban villages to IT worker villages to artists villages revealing a restless landscape of urbanism and state centered governance as well as bottom up counterplots The fieldwork explores the contradictions of urban village redevelopment in Beijing On the one hand it is state dominated and yet creates new housing opportunities for migrants on the other it disrupts old orders but also encourages

new forms of grassroots alliances The empirical studies of Beijing's urban villages enrich Henry Lefebvre's discourse on planetary urbanisation Gilles Deleuze and Félix Guattari's notion of the rhizome and Elinor Ostrom's ideas on the wise management of the commons *The Routledge Handbook of Chinese Citizenship* Zhonghua Guo, 2021-11-29 Two assumptions prevail in the study of Chinese citizenship one holds that citizenship is unique to the Western political culture and China has historically lacked the necessary conditions for its development the other implies that China is an authoritarian regime that has always been subject to autocratic power in which citizens and citizenship play a limited role This volume negates both assumptions On the one hand it shows that China has its own unique and rich experiences of the emergence development rights obligations acts culture education and sites of citizenship indicating the need to widen the scope of citizenship studies to include non Western societies On the other hand it aims to show that citizenship has been a core issue running through China's political development since the modern period urging scholars to bring citizenship into consideration in the study of Chinese politics This Handbook sets a new agenda for citizenship studies and Chinese politics Its clear accessible style makes it essential reading for students and scholars interested in citizenship and China studies

Solinger, 2018-09-14 This powerful book presents a fresh and compelling set of portraits that bring to life the human dimension of the vast and growing social and economic divides in urban China Leading scholars explore the increasing rigidity of class and social boundaries focusing on two new castes in contemporary China's cities the immensely wealthy and the abjectly poor Much has been made of the rise in incomes the elimination of much rural poverty and the expansion of an urban middle class over almost forty years of spectacular economic growth But what often has been overlooked is the polarization exclusion and exclusiveness in cities that have accompanied this rise along with the threat that these trends will extend to future generations The book considers five cases that emblemize these castes and depict their varying degrees of agency Highlighting the social groups at opposite ends of the social hierarchy the contributors illuminate the growing inequality in urban China today **Proletarian China** Ivan Franceschini, Christian Sorace, 2022-06-14 A century of complex relations between Communists and workers in China In 2021 the Chinese Communist Party celebrated a century of existence Since the Party's humble beginnings in the Marxist groups of the Republican era to its current global ambitions one thing has not changed for China's leaders their claim to represent the vanguard of the Chinese working class Spanning from the night classes for workers organised by student activists in Beijing in the 1910s to the labour struggles during the 1920s and 1930s from the turmoil of the Cultural Revolution to the social convulsions of the reform era to China's global push today this book reconstructs the contentious history of labour in China from the early twentieth century to this day and beyond This will be achieved through a series of essays penned by scholars in the field of Chinese society politics and culture each one of which will revolve around a specific historical event in a mosaic of different voices perspectives and interpretations of what constituted the experience of being a worker in China in the past century Contributors Corey Byrnes
