Contraceptive Research And Development 1984 1994 The Road From Mexico City To Cairo And Beyond:

Contraceptive Research and Development, 1984-1994 P. F. A. van Look, Gregorio Pérez-Palacios, 1994 Based on the proceedings of the 1993 International Conference on Population and Development the book contains the technical presentations and discussions by a distinguished group of eminent scientists program directors and senior staff of international and national agencies involved in reproductive health research and by women s health advocates

Contraceptive Research and Development Institute of Medicine, Committee on Contraceptive Research and Development, 1996-12-04 The contraceptive revolution of the 1960s and 1970s introduced totally new contraceptive options and launched an era of research and product development Yet by the late 1980s conditions had changed and improvements in contraceptive products while very important in relation to improved oral contraceptives IUDs implants and injectables had become primarily incremental Is it time for a second contraceptive revolution and how might it happen Contraceptive Research and Development explores the frontiers of science where the contraceptives of the future are likely to be found and lays out criteria for deciding where to make the next R D investments The book comprehensively examines today s contraceptive needs identifies niches in those needs that seem most readily translatable into market terms and scrutinizes issues that shape the market method side effects and contraceptive failure the challenge of HIV AIDS and other sexually transmitted diseases and the implications of the women s agenda Contraceptive Research and Development analyzes the response of the pharmaceutical industry to current dynamics in regulation liability public opinion and the economics of the health sector and offers an integrated set of recommendations for public and private sector action to meet a whole new generation of demand

Coerced Contraception? Ellen H. Moskowitz, Bruce Jennings, 1996-09-13 Long acting and reversible contraceptives such as Norplant and Depo Provera have been praised as highly effective moderately priced and generally safe Yet as this book argues the very qualities that make these contraceptives an important alternative for individual choice in family planning also make them a potential tool of coercive social policy For example policymakers have linked their use to welfare benefits and judges to probation agreements In this book authors from the fields of medicine ethics law and the social sciences probe the unique and vexing ethical and policy issues raised by long acting contraception The book offers comprehensive ethical guidelines for health care professionals and policymakers as well as an ethical framework for analyzing policies and practices concerning long acting contraceptives The authors consider cultural social and ethical issues pertaining to contraception and they provide historical and scientific background on today s controversies They explore alternative conceptual and theoretical frameworks including analyses of autonomy coercion and responsibility in reproductive decisions This volume also notes the special concerns that arise when policies promoting long term birth control target low income women and women of color and when these contraceptives are used in developing countries

Fertility and Sterility: A Current Overview J. Bringer, B. Hedon, 1995-09-15 This is the most complete and up to date medical

reference work available on the newest clinical developments and scientific findings dealing with contraception infertility the endocrinology of reproduction andrology reproductive surgery IVF technology ethics and research on human fertility and sterility It contains 65 chapters by prominent international authorities As the volume editors state in their Foreword Whether you are a gynecologist endocrinologist biologist andrologist or basic scientist or whatever your own interest reproductive surgery assisted medical procreation techniques new drugs contraception reproductive endocrinology or perhaps all of these you will find that this book contains the appropriate answers *Género y salud reproductiva en América Latina* Lucila Scavone,1999 *Advances in Sociology Research* Jared A. Jaworski,2006 *Advances in Sociology Research* presents original research results on the leading edge of sociology Each chapter has been carefully selected in an attempt to present substantial advances across a broad spectrum This volume focuses on ageing abortion and leadership **Family-building and Family Planning Evaluation** United Nations. Department of Economic and Social Affairs. Population Division,1997 Fertility researchers family planning evaluators policymakers programme managers among others will find this publication an essential reader It presents a new approach for analyzing fertility behaviour which is based on a woman s childbearing experience as she moves through successive phases of the family building process The development of this approach culminates in the establishing of an empirically verified mathematical model for measuring the demographic impact of family planning programmes An excellent publication that surveyed 15 countries in the developing regions **Women, Medicine, Ethics and the Law** Susan Sherwin,Barbara Parish,2020-09-10 This title was first published in 2002 A collection of articles focused on women within a general study of medicine ethics and the law Topics covered include areas where the institutions of medicine ethics and the law intersect in women s reproductive and sexual lives the impact of legal policies and dominant ethical beliefs on many aspects of women s health and the health practices and policies of bioethics and health law The editors recognise that it is important not to lose sight of social differences other than gender such as race ethnicity class age sexuality religion level of physical and mental ability and family relationships In their approach they seek to consider the lives and experiences of women as primary Hence they focus on the question of how women s encounters with the health care system are structured by gender and other socially significant dimensions of their lives rather than the question of how women differ from the male norm **The Abortion Debate in the World Arena** Andrzej Kulczycki,1999 Using extensive interviews including discussions with heads of state and church and original research in Kenya Mexico and Poland Andrzej Kulczycki examines how cultural history women s movements the Catholic Church and transnational influences have shaped abortion policies in those nations and beyond **Global Health and Security** Colleen O'Manique,Pieter Fourie,2018-03-13 The past decade has witnessed a significant increase in the construction of health as a security issue by national governments and multilateral organizations This book provides the first critical feminist analysis of the flesh and blood impacts of the securitization of health on different bodies while broadening the scope of what we understand as global health

security It looks at how feminist perspectives on health and security can lead to different questions about health and in security problematizing some of the common sense assumptions that underlie much of the discourse in this area It considers the norms ideologies and vested interests that frame specific threats to health and policy responses while exposing how the current governance of the global economy shapes new threats to health Some chapters focus on conflict war and complex emergencies while others move from a high political focus to the domain of subtler and often insidious structural violence illuminating the impacts of hegemonic masculinities and the neoliberal governance of the global economy on health and life chances Highlighting the critical intersections across health gender and security this book is an important contribution to scholarship on health and security global health public health and gender studies [Women's Bodies, Women's Worries](#) Tine Gammeltoft, 2012-12-06 The first fully fledged ethnography on health related issues to come out of contemporary Vietnam *Women's Bodies Women's Worries* is a study of women's lives in a rural commune in Vietnam's Red River delta Starting as an examination of the impact of Vietnam's ambitious family planning policy on the health and lives of rural women the study explores historical and contemporary socio cultural forces which influence the lives of Vietnamese women What begins as an investigation of contraceptive side effects becomes an inquiry into the daily lives of rural women an examination of the moral ideologies by which women's lives are circumscribed and an exploration of the ways women themselves manage and negotiate the moral demands and social relations which constitute daily lives In addition the book provides a sympathetic account of the everyday lives and concerns of rural women while also including theoretical considerations of the social grounding of bodily experience the cultural meanings of health and illness and the everyday politics of emotional expression **Accessions List, South Asia** Library of Congress. Library of Congress Office, New Delhi, 1995 **Population Policies Reconsidered** Gita Sen, Adrienne Germain, Lincoln C. Chen, 1994 *Population Policy Reconsidered* brings together a rare combination of scholars feminists social activists and policy makers across many disciplines to critically reexamine the scientific foundation of contemporary population policies This book explores population policy dilemmas based on the perspective of ethics women's empowerment and health and human rights The seventeen chapters are centered around the premise that the single minded pursuit of demographic goals may not be the most effective means of achieving policy objectives for such may lead to the abuse or violation of choice and human rights especially of women Rather the book explores the alternative idea that population policies should focus on those ultimate aims of development that are linked to human reproduction health social empowerment and human rights If respectful of individuals especially women such policies are likely to promote better individual welfare and may well also result in desirable demographic outcomes **New Horizons in Reproductive Medicine** C. Coutifaris, L. Mastroianni, 1997-08-15 This is an extensively detailed comprehensive clinical reference text dealing with every aspect of reproductive medicine and science in 77 major contributions by today's leading international authorities The book covers an immense range of subjects including
