Contrasting The French And Italian Communist Parties Comrades And Culture:

The French and Italian Communist Parties Cyrille Guiat, 2004-08-02 This volume is a systematic comparative study of the French and Italian Communist parties in the period from the early 1960s to the early 1980s *International Fascism, 1919-45* Robert Mallett, Gert Sorensen, 2013-10-08 The essays that comprise this study of 20th century fascism shift the focus away from the German and Italian models and towards the influence of fascist ideology within other countries **The French and Italian Communist Parties** Cyrille Guiat, 2003 This volume is a systematic comparative study of the French and Italian Communist parties in the period from the early 1960s to the early 1980s **Marxist Historical Cultures and Social Movements during the Cold War** Stefan Berger, Christoph Cornelissen, 2019-08-21 This book explores the relationship between diverse social movements and Marxist historical cultures during the second half of the twentieth century in Western Europe with special emphasis on the Federal Republic of Germany and Italy During the Cold War Marxist ideas and understandings of history informed not only the traditional Communist Parties in Western Europe but also influenced a range of new social movements that emerged in the 1970s in the wake of the 1968 student rebellions The generation of 1968 was strongly influenced by neo Marxist ideas that they subsequently carried into the new social movements The volume asks how Marxist historical cultures influenced third world movements anti fascist movements the peace movement and a whole host of other new social movements that signaled a new vibrancy of civil society in Western Europe from the 1970s onwards **The French and Italian Communist Parties** Cyrille Guiat, 2004 Beginning with a review of the numerous studies that tend to emphasize the national societal dimension of the Italian and French communist parties Cyrille Guiat's book is a comparative study of the two parties from the early 1960s to the early 1980s

Forthcoming Books Rose Arny, 2003 **Historical Memory of Central and East European Communism** Agnieszka Mrozik, Stanislav Holubec, 2018-03-19 Every political movement creates its own historical memory The communist movement though originally oriented towards the future was no exception The theory of human history constitutes a substantial part of Karl Marx's and Friedrich Engels's writings and the movement inspired by them very soon developed its own strong historical identity combining the Marxist theory of history with the movement's victorious milestones such as the October Revolution and later the Great Patriotic War which served as communist legitimization myths throughout almost the entire twentieth century During the Stalinist period however the movement's history became strongly reinterpreted to suit Joseph Stalin's political goals After 1956 this reinterpretation lost most of its legitimating power and instead began to be a burden The unwanted memory of Stalinism and subsequent examples of violence the Gulag Katy the 1956 Budapest uprising and the 1968 Prague Spring contributed to the crisis of Eastern European state socialism in the late 1980s and led to attempts at reformulating or even rejecting communist self identity This book's first section analyzes the post 1989 memory of communism and state socialism and the self identity of the Eastern and Western European left The second section examines

the state socialist and post socialist memorial landscapes in the former German Democratic Republic Czechoslovakia Czech Republic Poland Lithuania Ukraine and Russia The final section concentrates on the narratives the movement established when in power about its own past with the examples of the Soviet Union Poland Romania and Czechoslovakia **The Red Flag** David Priestland, 2016-05-03 The best and the most accessible one volume history of communism now available A far reaching vividly written account Foreign Affairs In The Red Flag Oxford professor David Priestland tells the epic story of a movement that has taken root in dozens of countries across two hundred years from its birth after the French Revolution to its ideological maturity in nineteenth century Germany to its rise to dominance and subsequent fall in the twentieth century Beginning with the first modern Communists in the age of Robespierre Priestland examines the motives of thinkers and leaders including Marx Engels Lenin Stalin Castro Che Guevara Mao Ho Chi Minh Gorbachev and many others Priestland also shows how Communism in all its varieties appealed to different societies for different reasons in some as a response to inequalities and in others more out of a desire to catch up with the West But paradoxically while destroying one web of inequality Communist leaders were simultaneously weaving another It was this dynamic together with widespread economic failure and an escalating loss of faith in the system that ultimately destroyed Soviet Communism itself At a time when global capitalism is in crisis and powerful new political forces have arisen to confront Western democracy The Red Flag is essential reading if we are to apply the lessons of the past to navigating the future Detailed and scholarly but written in lively prose this is a rich satisfying account of the most successful utopian political movement in history Publishers Weekly starred review

Knapp, 2004-03-12 The French elections of 2002 broke all records for fragmentation abstention and far right protest voting yet returned incumbent President Chirac in triumph and gave him a solid basis of parliamentary support *Parties and the Party System in France* seeks to explain the paradox of France's current relationship to politics through a comprehensive analysis of French political parties and their interaction over the last fifty years set against the two contexts of French history and of contemporary theories of parties and party systems *Books in Print Supplement* ,2002 **Moscow and the Italian Communist Party** Joan Barth Urban, 1986 Ideology Mostafa Rejai, Since the early 1950s the decline of ideology hypothesis has commanded a great deal of attention in the intellectual community at large The controversy has taken both empirical and polemical turns This book concentrates on the empirical literature offering both original contributions and previously published papers of outstanding importance Selections were made to give full play to freshness of view and diversity of sources The book presents the hypothesis of ideological decline as set forth by two of its major spokesmen brings together essays that subject this hypothesis to empirical tests in both Western and non Western contexts and then presents both positive and negative evaluations of the hypothesis Avoiding an ex cathedra definition of ideology the editor and contributors scrutinize the nature of ideology and its workings and suggest approaches to the comparative treatment of ideologies This book offers the first

clear and wide ranging overview of the putative decline of ideology a concept burdened by a history of emotional argumentation Changes in the function of ideology in the Soviet Union the United States Western Europe and Japan are examined and the ideological dimension of student movements of the 1960s is taken into account Ideology Comparative and Cultural Status is an expertly edited presentation of contrasting views of a vital topic It is ideally suited for use in a variety of courses in the area of political thought and political sociology Mostafa Rejai is distinguished professor emeritus of political science at Miami University Ohio Some of his most recent books include Concepts of Leadership in Western Political Thought Leaders and Leadership An Appraisal of Theory and Thought and World Military Leaders A Collective and Comparative Analysis all with Kay Phillips His articles have appeared in several scholarly journals Problems of Communism ,1965
