Moulton, 1999-01-01 The University of Nebraska Press editions of The Journals of the Lewis and Clark Expedition are widely heralded as a lasting achievement In all twelve volumes and a comprehensive index are projected which together will provide a complete record of the expedition Volume 12 contains the most complete listing of the plant specimens cataloged by the Lewis and Clark expedition All but one of the plants were collected by Meriwether Lewis the most skilled botanist among the expedition s members The collection however was nearly lost over the years due to its scattering among various botanists who intended to catalog the expedition s scientific discoveries Fortunately for many years the specimens have been in the care of major institutions principally the Academy of Natural Sciences in Philadelphia The 239 extant items are brought together here for the first time This invaluable volume will assist researchers and enthusiasts hoping to identify each plant s location distribution and use along the expedition s route Lewis and Clark Vernon Preston, 2013-01-22 By Terry Nathans he weather and climate of the trans Mississippi west was virtually unknown at the begin Tning of the nineteenth century This changed dramatically shortly after the Louisiana P chase was signed in 1803 which set the stage for acquiring the first systematic weather measurements of the trans Mississippi west The framework for obtaining these measurements was outlined in the now famous June 20 1803 letter from President Thomas Jefferson to his prot g and personal secretary Captain Meriwether Lewis In that letter Jefferson instructed Lewis to plan and carry out an overland expedition to the Pacific Ocean for the purposes of commerce and to observe and record a broad range of natural history subjects including the climate as characterised by the thermometer by the proportion of rainy cloudy clear days by lightning hail snow ice by the access recess of frost by the winds prevailing at different s sons the dates at which particular plants put forth or lose their flower or leaf Jackson 1978 p 63 Jefferson s instructions to Lewis which were part of his decades long ambition of laun ing an expedition to explore the interior of North America were made at the threshold of what Fleming 1990 has called the expanding horizons in meteorology During this period more reliable meteorological instruments began to emerge allowing for a more comprehensive and systematic acquisition of weather data **Lewis and Clark Herbarium of the Academy of Natural Sciences: Part 1: History: Notulae Naturae of The Acad. of Natural Sciences of Phila., No. 475 , Lewis and Clark Herbarium of the Academy of Natural Sciences : Part 2. Gary E. Moulton, 2004-01-01 This landmark volume contains the most complete listing and presentation of the plant specimens collected by the Lewis and Clark expedition. All but one of the plants were collected by Meriwether Lewis, the expedition's botanist. The collection, however, was nearly lost over the years when it was scattered among various botanists who intended to catalog the expedition's scientific discoveries. Fortunately for many years the specimens have been in the care of major institutions, principally the Academy of Natural Sciences in Philadelphia. The 239 extant items are brought together in one book for the first time. This indispensable volume will assist researchers and enthusiasts hoping to identify each plant's date and place of collection and other information such as plant habitat and ethnobotanical use. Lewis and Clark Road Trips: Exploring the Trail Across America Kira Gale, 2006 *Undaunted Courage* Stephen E.

Ambrose, 2013-04-23 From the New York Times bestselling author of *Band of Brothers* and *D Day*, the definitive book on Lewis and Clark's exploration of the Louisiana Purchase, the most momentous expedition in American history and one of the great adventure stories of all time. In 1803 President Thomas Jefferson selected his personal secretary, Captain Meriwether Lewis, to lead a voyage up the Missouri River to the Rockies, over the mountains, down the Columbia River to the Pacific Ocean, and back. Lewis and his partner, Captain William Clark, made the first map of the trans-Mississippi West, provided invaluable scientific data on the flora and fauna of the Louisiana Purchase territory, and established the American claim to Oregon, Washington, and Idaho. Ambrose has pieced together previously unknown information about weather, terrain, and medical knowledge at the time to provide a vivid backdrop for the expedition. Lewis is supported by a rich variety of colorful characters: first of all, Jefferson himself, whose interest in exploring and acquiring the American West went back thirty years. Next comes Clark, a rugged frontiersman whose love for Lewis matched Jefferson's. There are numerous Indian chiefs and Sacagawea, the Indian girl who accompanied the expedition, along with the French Indian hunter Drouillard, the great naturalists of Philadelphia, the French and Spanish fur traders of St. Louis, John Quincy Adams, and many more leading political, scientific, and military figures of the turn of the century. High adventure, high politics, suspense, drama, and diplomacy combine with high romance and personal tragedy to make this outstanding work of scholarship as readable as a novel. **By His Own Hand?** John D. W. Guice, James J. Holmberg, Jay H. Buckley, 2014-10-30 For two centuries the question has persisted: Was Meriwether Lewis's death a suicide, an accident, or a homicide? *By His Own Hand* is the first book to carefully analyze the evidence and consider the murder versus suicide debate within its full historical context. The historian contributors to this volume follow the format of a postmortem court trial, dissecting the case from different perspectives. A documents section permits readers to examine the key written evidence for themselves and reach their own conclusions.

momentous expedition in American history Ambrose follows the Lewis and Clark Expedition from Thomas Jefferson's hope of finding a waterway to the Pacific through the heart stopping moments of the actual trip to Lewis's lonely demise on the Natchez Trace Along the way Ambrose shows us the American West as Lewis saw it wild awesome and pristinely beautiful Nothing Like It in the World A riveting account of an unprecedented feat of engineering vision and courage this is the story of the men who built the transcontinental railroad The US government pitted two companies the Union Pacific and the Central Pacific Railroads against each other in a race for funding encouraging speed over caution and their race brilliantly comes to life in Ambrose's telling of the investors who risked their businesses and money the enlightened politicians who understood its importance the engineers and surveyors who risked and sometimes lost their lives and the Irish and Chinese immigrants the defeated Confederate soldiers and all the laborers who did the backbreaking and dangerous work on the tracks

Danisi, 2012-02-07 The critically acclaimed biography Meriwether Lewis coauthored by Thomas C Danisi was praised for its meticulous research and for shedding new light on the adventurous life and controversial death of the great explorer who became famous through the Lewis and Clark Expedition Now the author with some help from contributors extends his groundbreaking studies of Meriwether Lewis with this compilation of historical essays that offers new findings based on recently discovered documents tackling such intriguing subjects as The court martial of Meriwether Lewis Danisi's discovery of the astonishing never before published transcript of the entire court martial proceedings affords him the distinction of

being the first historian to mine the document for the many insights it offers into the then untested twenty one year old officer who eloquently defended himself and won his case Documentation straight from the medical ledgers of Dr Antoine Saugrain the physician who treated Governor Lewis which helps to confirm that Lewis suffered from malaria prior to his celebrated trek to the Pacific Ocean with the Corps of Discovery and continuing through his service as governor of the Louisiana Territory Was Lewis's death as reported the result of suicide or was he merely a victim of this episodic and incurable disease Documentation that proves the true nature of the much discussed Gilbert Russell Statement given at the court martial of General James Wilkinson Some historians have argued that Wilkinson orchestrated Lewis's murder but Danisi's research sets the record straight The role of Major James Neely in Lewis's last days This subject has gained much prominence through the History Channel according to which Neely supposedly lied to President Thomas Jefferson about his presence at Meriwether Lewis's burial but Danisi has evidence to the contrary The author presents an abundance of additional material to fill in previous historical gaps regarding the mysteries and controversies surrounding Lewis's life and death In doing so he paints a vivid picture of the brilliant rise of an ambitious young man by virtue of courage talent and political connections and the tragic fall of a conscientious public servant under the weight of chronic illness bureaucratic pettiness and the political intrigue that was rampant throughout America's Wild West This superb contribution to Meriwether Lewis research is a must read for students and scholars of American history and anyone with an interest in one of our nation's most important explorers and public servants

A Bibliography of American Natural History: An annotated bibliography of the publications relating to the history, biography, and bibliography of American natural history and its institutions, during colonial times and the pioneer century, which have been published up to 1924; with a classified subject and geographic index; and a bibliography of bibliographies Max Meisel, 1924
