Wireless Dada Kurt Beals, 2019-11-15 Wireless Dada Telegraphic Poetics in the Avant Garde demonstrates that the poetics of the Dada movement was profoundly influenced by the telegraph and the technological and social transformations that it brought about in the nineteenth and early twentieth centuries While telegraphy s impact on Italian Futurism and German Expressionism is widely acknowledged its formative role in Dada poetics has been largely neglected Drawing on media history and theory avant garde studies and German literary studies Kurt Beals shows how the telegraph and the cultural discourses that surrounded it shaped the radical works of this seminal avant garde movement The nonsense strain in Dada is frequently seen as a response to the senseless violence of the First World War Beals argues that it was not just the war that turned Dada poetry into a jumble of senseless signals it was also the wireless

The Immortalization Commission John Gray, 2025-06-25 A Globe and Mail Best Books of the Year 2011 Title At the heart of human experience lies an obsession with the nature of death Religion for most of history has provided an explanation for human life and a vision of what comes after it But in the late nineteenth and early twentieth centuries such beliefs came under relentless pressure as new ideas from psychiatry to evolution to communism seemed to suggest that our fate was now in our own hands humans could cease to be animals defeat death and become immortal In *The Immortalization Commission* the acclaimed political philosopher and critic John Gray takes a brilliant and frightening look at humankind's dangerous striving toward a scientific version of immortality Probing the parallel faiths of Bolshevik God-builders who sought to reshape the planet and psychical researchers who believed they had evidence of a nonreligious form of life after death Gray raises fascinating questions about how such beliefs threaten the very nature of what it means to be human He looks to philosophers journalists politicians charlatans and mass murderers who all felt driven by a specifically scientific and modern worldview and whose revolt against death resulted in a series of experiments that ravaged whole countries An urgent examination of Darwin's post-religious legacy *The Immortalization Commission* is an important work from one of Britain's leading public intellectuals *The Wall Street Journal*

Immortal Longings Trevor Hamilton, 2015-12-01 *Immortal Longings* FWH Myers and the Victorian search for life after death is the first full length biography of Frederic W H Myers leading figure in the Society for Psychical Research and friend and associate of Browning Gladstone Ruskin Tennyson Swinburne Henry James Prince Leopold and other influential Victorians The book offers a fascinating insight into a key period in the development of Victorian thought Among many things it covers 1 Extraordinary Phenomena Myers investigated extraordinary phenomena much of which is still reported today out of body experiences and astral projection near death

experiences poltergeists gurus like Madame Blavatsky claiming strange powers mediums both private and public and haunted houses for example the giant warrior haunting a chateau near Heidelberg the Cheltenham Ghost that was seen by a considerable number of people and the odd doings at Ballechin House in Scotland which caused a scandal in the press 2 Life After Death Investigations Myers believed he had virtually proved life after death by a the link he thought established between hundreds of apparitions and living or dead human beings b the messages that the outstanding mediums Mrs Piper and Mrs Thompson gave him from his first great love Annie and his intimate friend and co worker Edmund Gurney which contained information the medium could not know and was delivered in a way highly characteristic of the personality concerned 3 Automatic Writing Some researchers have claimed that he has returned after death and proved his continued existence through the automatic writings of a number of mediums in England America India These writings continued for thirty years 4 Romance Suicide There is also love tragedy and jealousy in Myers life His first great love Annie a married woman committed suicide and Myers wife a rather possessive person tried to prevent any detail about this being made public after his death even though the relationship was platonic This inhibited the work of researchers who were trying to verify the post mortem communications from Myers since for many years they could not check the facts 5 Credibility Myers researches led him to forming a view about human personality and psychology which Aldous Huxley has said is much richer than Freud's Studies in Sacred Theology, 1918 *Spiritism and Religion* Johan Baron Liljencrants, 1918 *Spiritism and Religion, a Moral Study ...* Johan Baron Liljencrants, 1918 **The Outlook**, 1909 Spiritualism, Its Present-day Meaning Huntly Carter, 1920 **The Modern Churchman**, 1920 **Spiritism and Psychology** Théodore Flournoy, 1911

Encyclopedic Psychic Dictionary June G Bletzer Ph D, 2011-05-01 Standard dictionaries and grammar books do not offer adequate language when it comes to describing invisible mind impressions internal body sensations and altered states of consciousness Newly awakened interest in psychics mystics shamans mediums their philosophy of life and their experiences within invisible dimensions has extended everywhere Organizations seminars weekend workshops classes and therapies in para psychology and humanistic psychology spring up over night Medical doctors and researchers in holistic health are assembling a startling body of evidence that intimately connects parapsychological theories with both physical and mental well being One may now openly speak about one's new attitudes changes in beliefs successful alternative healings meditative and psychic experiences and one's personal quest of a more qualitative lifestyle without under the breath ridicule and harassment This is a global shift in consciousness occurring in all levels of awareness Legions of individuals and other living organisms are beginning to sense the surge of a consciousness shift within themselves from the ant and the tree to the layman and government official Some name this shift in consciousness the age of transformation Whatever one names it it is here Changes change changed and semantic confusion People are groping for words to express new dimensional concepts sensations and experiences with third dimensional language Instructors authors psychics and laymen in this field are coining

new words and giving standard words new meanings in trying to explain the variety of experiences of other levels of consciousness and new inner levels of awareness Mankind has not yet evolved a language or a communication system that can adequately explain these new experiences sensations and concepts This is quite normal in a pioneer field but these descriptive terms are multiplying faster than research and study can evolve The written media system is flooded with newly coined words The aim of this volume is to make the groping for words easier when describing noncustomary experiences and theories with the customary language Any situational shift requires a shift in language variety This book contains a concise grouping of the present day shift in language variety and a comparison of this new language variety to words and phrases used in the past in similar philosophies activities and inner dimensional experiences To accomplish this I have recorded words and phrases from 2000 B C the I Ching to interviews of new age workers such as seen on the Phil Donahue Show Terms used in the mystical and parapsychological field over the years are defined described annotated or theorized This literary reference volume is a twofold book in which a textbook interweaves with a dictionary The same wordage synchronizes a dictionary a textbook and a psychic skill development course This means no unnecessary reading of valueless words The material is concise and to the point Every word is important You could say this volume is a shift in a literary style of writing to accommodate the new global shift in consciousness It is a tool for an accelerated style of learning As a teacher in this field for over four decades Dr Bletzer found that students drawn to the study of parapsychology were people of all ages and all walks of life She observed this human potential movement and consciousness shift becoming alive among her students with an accelerated speed in the later years of her life From the sixteen hundred students she taught to develop psychically the amount of time to acquire good psychic skills lessened by half during the last few years She was finding that the public demand for information relating to parapsychology was coming faster than anyone could teach it She found a strong desire to understand the multitude of new terms and new meanings for standard words used to describe new and rediscovered states of awareness and experiences as well as a concrete need for a comprehensive study of the parapsychological field Human beings all over the world will continue to seek means to transform themselves under the new vibrations of the Aquarian Age and the common ground on terminology given in this book will make this easier With no standard textbooks in this field during her many years of teaching metaphysics and psychic development she researched and prepared all her class lectures experiments and course material With knowledge gleaned from this research she taught psychic development and received feedback from the students being instructed She also read and scanned hundreds of additional books written in the past and present Words and phrases were taken not only from these books but also from magazines pamphlets newspaper articles lectures seminars television and radio programs record jackets and even from herb tea boxes Therefore one will find colloquialisms as well as technical and philosophical terms The bibliography at the end of the volume describes many of these sources Because astrology demonology psychology mythology and many religions have

their own glossary these words are not reprinted in this volume unless the term frequently interfaces with parapsychology. This book is intended to serve as a reference tool for the beginning student, the researcher, and the professional. First consider this volume as an easy to use comprehensive annotated technical dictionary complete with cross references to ninety percent of the entries. The cross references add to the meaning, description, annotation, or sometimes simply presents another person's viewpoint to the reader. Although the definitions emphasize simplicity and clarity, I tried to retain and reflect the beauty and profoundness given by the mystic philosopher and parapsychologist. The annotations are concise and to the point in order to get all the categories in one volume. This gives a holistic view of the parapsychology field. One may feel there are too many relating subjects but once one is open to this field, he or she will be exposed to many of these other fields. There are guidelines as to the format used in the dictionary wordage. It is suggested that one turn to the categories of his or her interest to see what terms exist. In spite of acceleration of popular growth in this field, one can quickly acquaint her or himself with the many words which have recently come into usage. Also consider this volume as a condensed comprehensive technical parapsychology textbook complete with do it by yourself instructions. Because the entries are categorized under their particular field and in alphabetical order, one can very quickly find much information about the subject of their choice. And for a full basic but in capsule form education in this field, there are instructions outlining graduated steps for not only the individual just becoming interested but also the long time instructor. Language varies in different cultures, time periods, and even in small groups of one cause. It varies because the users of language change it to adapt to their needs. Words are alive, powerful, and constantly growing. As a dictionary researcher, Dr. Bletzer felt it her duty to record the words as they were used, not to pass judgment and offer corrections. She tried to keep the definition, description, or annotation as unvarnished and natural as possible so one can more easily understand the philosophy or a new dimension that may be completely foreign to him. The overall aim is to make some kind of common ground melding psychic knowledge pot which will bring together time periods and cultures, showing similarities and differences in psychic skills and philosophies. Language today is being individually designed, different meanings and different parts of speech are being given to standard words, and old words are being revitalized. The reason for this is because there is no common ground melding psychic knowledge pot. Humankind needs a synthesization of communication in this discipline today more than ever before. Hosts of individuals are finding an inner desire to increase their psychic skills in order to better understand themselves and to understand how and why the planet is bringing a consciousness shift. Psychic skills and parapsychological information are tools to help understand this consciousness shift and these accelerated times. They are also good tools for those who wish to add to the shift in the earth's consciousness. The hope is that in some small way, this volume will aid compatibility, co-operation, and conformity in parapsychological affairs among psychics, humanistic psychologists, holistic health practitioners, scientists, researchers, ministers, meditators, etc. and lessen the semantic confusion. As you study from these references, the hope is that you find it as

comforting and educational in learning that man as a universal creature has been using psychic skills holistic health therapies etheric world intelligences etc in other time periods and in every culture of the world Confucius said Without knowing the force of words it is impossible to know men **The Belief in Personal Immortality** Edmund Sidney Pollock Haynes,1913
