Modern French

Literature Benjamin Willis Wells, 1896 **Contemporary French Literature** René Lalou, 1924 **The Modern Essay in French** Charles Forsdick, Andy Stafford, 2005

As a textual form the *essai* predominates in modern and contemporary literature in French. Emerging from an earlier tradition and distinguished from its English language counterpart, the French language essay ranges from Stéphane Mallarmé to Colette, Victor Segalen to Aimé Césaire, Jean Grenier to Pierre Michon. The *essai* remains however one of the most hazily identified of textual forms; its definition often depending on the progressive elimination of all other generic possibilities. Excluded from the archigenres theatre, poetry, and criticism, it can even be seen as a hold-all category whose role is to absorb the anarchic extremes of writing. It is perhaps this very lack of pretension to orthodoxy that has drawn so many writers to the *essai*. The conventional understanding of the term as a tentative, unsystematic exploration stresses the genre's provisional nature, its refusal of any claims to comprehensiveness. The *essai* exploits the devices of anecdote, illustration, and humour; it is addressed to a wide and often general audience; it is also intricately linked to the performance of ideological and writerly strategies, often reordering the classical art of rhetoric and persuasion. As the contributions to this volume show, there is a need to outline an ethics and politics as well as poetics of essayism.

Paths to Contemporary French Literature, Volume 1 John Taylor, 2005-04-27

Although the great French novelists of the last two centuries are widely read in America, there is a widespread notion that little of importance has happened in French literature since the heyday of Sartre, Camus, and the *nouveau roman*. Some might argue that even well-read Americans are ignorant about what is happening in European literature generally. Certainly there has never been so few translations of foreign books in the United States or so little coverage of foreign writers. Curious American readers need new up-to-date information and analyses about what is happening elsewhere. *Paths to Contemporary French Literature* is a stimulating and much-needed guide to the major currents of one of the world's great literatures. This critical panorama of contemporary French literature introduces English language readers to over fifty important writers and poets, many of whom are still little known outside of France. Emphasizing authors who are admired by their peers as opposed to those with overnight reputations, John Taylor offers a compelling insider's view. The pioneering essays included in this book offer incisive analyses of the ideas motivating current writing and delve into a writer's or poet's entire output. Although some names may be familiar—Marguerite Duras, Hélène Cixous, Philippe Jaccottet, Henri Michaux—the reader obtains fresh reappraisals of their seminal work. Especially noteworthy, however, are Taylor's lively introductions to many other key writers who either have not yet crossed the English Channel or, let alone the Atlantic, combating the notion that French literature is overtly intellectual, inaccessible, or interested only in formal experimentation. Taylor shows that many French writers are instead acutely inquisitive about the outside world, shrewd observers of reality, even very funny. Although not conceived as a reference book, the volume possesses some qualities of a reference work: a good bibliography, reliable dates, and biographical facts. *Paths to Contemporary French Literature* will be of interest to students of French literature and culture, literary scholars, and readers of contemporary fiction and poetry.
