Contemporary History And Theory The Linguistic Turn And Beyond:

Linguistics of History Roy Harris, 2019-07-30 This book is the first comprehensive attempt to trace the relationship between Western philosophy of history and Western philosophy of language The New Testament Interpreted Cilliers

Breytenbach, Johan C. Thom, Jeremy Punt, 2006-09-01 This volume contains a collection of essays in honour of Bernard C. Lategan a renowned specialist on the modern reception of the New Testament Besides offering analyses of Lategan's own contribution to New Testament scholarship the essays present and discuss interpretations of the New Testament from antiquity through contemporary critical scholarship Topics covered include hermeneutical issues of historical Jesus research intertextuality in antiquity the interpretation of the New Testament in Africa and the New Testament as literature The collection thus provides a representative perspective on the diversity of New Testament scholarship in South Africa and elsewhere

The History and Narrative Reader Geoffrey Roberts, 2001 Are historians story tellers Is it possible to tell true stories about the past These are just two of the questions raised in this comprehensive collection of texts about philosophy theory and methodology of writing history *Organizations in Time* Marcelo Bucheli, R. Daniel Wadhvani, 2014

This book brings together leading organization scholars and business historians to examine the opportunities and challenges of incorporating historical research into the study of firms and markets **Beyond Biblical Theology** Timo

Eskola, 2013-10-02 Reading Heikki R is nen's hermeneutics in context Timo Eskola explores the development of Western New Testament interpretation Reclaiming a Wredean approach to the Scriptures R is nen focuses on tradition and interpretation He builds on Weberian sociology adopted through Peter Berger's theories and substitutes sacralized culturalism for biblical theology After examining fourteenth century Quran criticism and its impact on Reimarusk Eskola discusses the genesis of the revised history of religion theory that R is nen developed when investigating the Quran's relationship to the Bible Sociology then becomes a link between standard historicism and poststructuralism as R is nen reinterprets Berger's sociology of knowledge R is nen's sacralized culturalism finally becomes the theory from which his magnum opus *The Rise of Christian Beliefs* has been written **The Oxford Handbook of Critical Management Studies** Mats Alvesson, Todd Bridgman, Hugh

Willmott, 2009-06-19 Critical Management Studies CMS has emerged as a movement that questions the authority and relevance of mainstream thinking and practice Critical of established social practices and institutional arrangements it challenges prevailing systems of domination and promotes the development of alternatives to them CMS draws upon diverse critical traditions Of particular importance for its initial articulation was the thinking of members of the Frankfurt School of Critical Theory From these foundations CMS has grown into a pluralistic and inclusive movement incorporating a diverse range of perspectives ranging from labour process theory to radical feminism In recent times a set of ideas broadly labelled poststructuralist have been developed to complement and challenge the insights of Critical Theory giving new impetus for scholars seeking to challenge the status quo and articulate a more inclusive and humane future for management practice The

Oxford Handbook of Critical Management Studies provides an overview of theoretical approaches key topics issues and subject specialisms in management studies as well as a set of reflections on the progress and prospects of CMS Contributors are all specialists in the respective fields and share a concern to interrogate and challenge received wisdom about management theory and practice Given the rapid growth of the CMS movement its ever increasing theoretical and geographical diversity and its outreach into the public sphere The Oxford Handbook of Critical Management Studies is a timely publication In addition to UK contributors where CMS has developed most rapidly there is strong representation from North American contributors as well as from areas where CMS has taken hold more recently such as Australasia

Philosophical Reflections on Antiquity Paul Fairfield, 2020-09-02 Philosophical Reflections on Antiquity Historical Change addresses the question of whether there is a logic of historical change and whether the collapse of teleology should deter us from inquiring anew whether any recurring patterns and themes show themselves amid the complexity of historical life Paul Fairfield argues that if any conception of universal history remains possible it is one that rejects teleology and causal laws while identifying thematic tendencies that afford some semblance of unity including the enduring phenomena that are interlocation the struggle for predominance and the endless back and forth that play out between them This book examines the transitional periods of archaic Greece and late antiquity the ostensible birth and death of the ancient west Fairfield argues that an interpretation of the social political and intellectual history of these important turning points brings to light some philosophical understanding of the dynamics of change itself observing that the transition from archaic to classical Greece was no miracle while the end of the Roman era can no longer be conceived as a story of decline and fall Rather Fairfield posits these were not complete breaks but relative beginnings and endings in narratives that are ongoing Scholars of philosophy history and anthropology will find this book particularly useful

From History to Theory Kerwin Lee Klein, 2011-05-19 From History to Theory describes major changes in the conceptual language of the humanities particularly in the discourse of history In seven beautifully written closely related essays Kerwin Lee Klein traces the development of academic vocabularies through the dynamically shifting cultural political and linguistic landscapes of the twentieth century He considers the rise and fall of philosophy of history and discusses past attempts to imbue historical discourse with scientific precision He explores the development of the meta narrative and the post Marxist view of history and shows how the present resurgence of old words such as memory in new contexts is providing a way to address marginalized peoples In analyzing linguistic changes in the North American academy From History to Theory innovatively ties semantic shifts in academic discourse to key trends in American society culture and politics

Beyond the Great Story Robert F. Berkhofer, 1995 What legitimate form can history take when faced by the severe challenges issued in recent years by literary rhetorical multiculturalist and feminist theories That is the question considered in this pathbreaking book Robert Berkhofer addresses the essential practical concern of contemporary historians **The Limits of Literary Historicism** Allen Dunn, Thomas Haddox, 2012-02-28 The Limits of Literary Historicism is a collection of essays arguing that historicism which has come to dominate the professional study of literature in recent decades has become ossified By drawing attention to the limits of historicism its blind spots overreach and reluctance to acknowledge its commitments this provocative new book seeks a clearer understanding of what historicism can and cannot teach us about literary narrative Editors Allen Dunn and Thomas F Haddox have gathered contributions from leading scholars that challenge the dominance of contemporary historicism These pieces critique historicism as it is generally practiced propose alternative historicist models that transcend mere formula and suggest alternatives to historicism altogether The volume begins with the editors extended introduction The Enigma of Critical Distance or Why Historicists Need Convictions and then is divided into three sections The Limits of Historicism Engagements with History and Alternatives to History Defying convention The Limits of Literary Historicism shakes up established modes to move beyond the claustrophobic analyses of contemporary historicism and to ask larger questions that envision more fulfilling and more responsible possibilities in the practice of literary scholarship

Max Horkheimer and the Foundations of the Frankfurt School John Abromeit, 2011-10-10 This book is the first comprehensive intellectual biography of Max Horkheimer during the early and middle phases of his life 1895 1941 Drawing on unexamined new sources John Abromeit describes the critical details of Horkheimer's intellectual development This study recovers and reconstructs the model of early Critical Theory that guided the work of the Institute for Social Research in the 1930s Horkheimer is remembered primarily as the co author of Dialectic of Enlightenment which he wrote with Theodor W Adorno in the early 1940s But few people realize that Horkheimer and Adorno did not begin working together seriously until the late 1930s or that the model of Critical Theory developed by Horkheimer and Erich Fromm in the late 1920s and early 1930s differs in crucial ways from Dialectic of Enlightenment Abromeit highlights the ways in which Horkheimer's early Critical Theory remains relevant to contemporary theoretical discussions in a wide variety of fields

Maurice Mandelbaum and American Critical Realism Ian F. Verstegen, 2009-12-16 This is a unique and timely assessment of the work of American critical realist Maurice Mandelbaum and the relation of his thought to contemporary critical realism Particular attention is paid to how his theories relate to those of Roy Bhaskar This is essential reading for any student with an interest in critical realism or the history of philosophy *History and the Hebrew Bible* Hans M. Barstad, 2008 In this collection of essays Hans M Barstad deals thoroughly with the recent history debate and demonstrates its relevancy for the study of ancient Israelite history and historiography He takes an independent stand in the heated maximalist minimalist debate on the historicity of the Hebrew Bible Vital to his understanding is the necessity to realize the narrative nature of the ancient Hebrew and of the Near Eastern sources Equally important is his claim that stories too may convey positivistic historical facts The other major topic he deals with in the book is the actual history of ancient Judah in the Neo Babylonian and Persian periods Here the author makes extensive use of extant ancient Near Eastern sources both textual and archaeological and he puts much weight on economic aspects He shows that the key to understanding the role of Judah in the 1st millennium lays in the proper evaluation of Judah and its neighbouring city states within their respective imperial contexts A proper understanding of the history of Judah during the 6th century BCE consequently can only be obtained when Judah is studied as a part of the much wider Neo Babylonian imperial policy
