Medicine is a new medical specialty that focuses on the treatment of disorders of substance use and related diseases. It occupies a unique place amongst the medical specialties that connects mental and physical health. The field of addiction medicine is growing heavily as the range of treatments and resulting professional interest in working in this field evolve together. Structured training in the necessary skills in physical and mental health is an essential prerequisite to the establishment of this new medical specialty. This volume describes training programs established in Europe, the Americas, and the Asia Pacific regions. It has been developed with the support of the International Society of Addiction Medicine and is therefore a significant milestone in the development of addiction medicine internationally and will assist local training programs in incorporating the best ideas worldwide. The work will play an important role in establishing standards of training and consequently of practice leading in turn to better patient care and health outcomes. This book was originally published as a special issue of Substance Abuse.

Police Conflict Management, Volume I Mario S. Staller, Swen Koerner, Benni Zaiser, 2023-12-04. This book as part of a two volume set provides a broad overview of the current state of research on conflict management in law enforcement contexts globally with a focus on contemporary challenges and opportunities in policing globally and ethical considerations. They cover a wide range of interactions between police and the public. This volume I focusses on the challenges and opportunities examining topics such as police legitimacy, police culture, violence, mental health, community relations, and crisis situations. Volume II focusses on police training and education and the learning settings needed for police to professionally tackle contemporary challenges. These books bring together leading research that is determining the state of the art in communication, de-escalation, use of force, and other contemporary issues in policing with practical key takeaways in each chapter. They broaden the field by focussing on research which goes beyond the US including in Scandinavia, Switzerland, the Netherlands, Germany, the Republic of South Africa, and Russia.

Relating Theory - Clinical and Forensic Applications John Birtchnell, Michelle Newberry, Argyroula Kalaitzaki, 2016-06-29. This book brings together recent research developments in relating theory. It is divided into four parts which introduce the reader to relating theory, how it has developed, and how it can be applied to clinical and forensic psychology. Topics include how couples relate to one another, how young people relate to their parents, how assessments of relating can be used in therapy, how specific negative relating styles relate to offending behaviour, risk taking, and alcohol use, psychopathic and sadistic tendencies, and how the interpersonal relating of offenders can change during treatment in prison. The book covers international research involving both quantitative and qualitative methods and will be of interest to clinicians, academics, and both undergraduate and postgraduate students in the fields of psychology, clinical psychology, forensic criminal psychology, psychiatry, psychotherapy, counselling, art therapy, and mental health.

Living Mindfully Across the Lifespan J. Kim Penberthy, J. Morgan Penberthy, 2020-11-22. *Living Mindfully Across the Lifespan: An Intergenerational Guide* provides user-friendly, empirically supported information about and answers to some of the most frequently encountered questions and dilemmas of human living interactions and emotions. With a mix of empirical data, humor, and personal insight, each chapter introduces the reader to a significant topic or question including self-worth, anxiety, depression, relationships, personal development, loss, and death. Along with exercises that clients and therapists can use in daily practice, chapters feature personal stories and case studies interwoven throughout with the authors' unique intergenerational perspectives. Compassionate, engaging writing is balanced with a straightforward presentation of research data and practical strategies to help address issues via psychological, behavioral, contemplative, and movement-oriented exercises. Readers will learn how to look deeply at themselves and society and to apply what has been learned over decades of research and clinical experience to enrich their lives and the lives of others.

Navigating Ruptures, Repairs, and Termination Within the Therapeutic Process Judy Z.

Koenigsberg, 2024-03-21. This book explores the importance of the therapeutic relationship, the tensions or disagreements that may emerge during a therapy session, and how they can be repaired. Dr. Koenigsberg introduces a two-part, transtheoretical, psycholinguistic model which focuses on the connection between ruptures and the termination phase of therapy, emphasizing the verbal and nonverbal nuances of language to understand what is happening in the therapeutic alliance. With a reliance on psycholinguistic elements, this model can guide therapists who wish to reduce the premature termination of patients from therapy. Written in an accessible format, it provides case examples including the patients' and therapists' inner experiences and defines and describes the phases of therapy so that difficult transitions in the therapeutic process can be navigated with skill and compassion. This text is essential for providing early career as well as more seasoned therapists with excellent strategies to repair their therapeutic relationships with clients.

Working with Emotion in

Cognitive-Behavioral Therapy Nathan C. Thoma, Dean McKay, 2014-11-12. Working actively with emotion has been empirically shown to be of central importance in psychotherapy yet has been underemphasized in much of the writing on cognitive-behavioral therapy (CBT). This state-of-the-art volume brings together leading authorities to describe ways to work with emotion to enrich therapy and achieve more robust outcomes that go beyond symptom reduction. Highlighting experiential techniques that are grounded in evidence, the book demonstrates clinical applications with vivid case material. Coverage includes mindfulness and acceptance-based strategies, compassion-focused techniques, new variations on exposure
