Professor Graham Harrison, 2013-04-04 Neoliberalism has shaped African development for nearly thirty years As such it is not an economic shock or a structural adjustment but rather a historic shift in Africa s development politics and policy This book explores the ways in which African countries have experienced the neoliberal project highlighting how this project has gone beyond economic liberalisation and towards a bolder social transformation As an ideology neoliberalism projects an end point not simply of a market economy but of a market society After thirty years of projects aid disbursement technical assistance and conditionality this book maps out the extent to which African states have cleaved to neoliberal directives It suggests that neoliberal progress in Africa is notably limited in spite of the resources behind it and the lack of alternatives to it Neoliberalism and Imperialism: Dissecting the Dynamics of Global Oppression Tatah Mentan, 2016-08-06 Today's

neoliberal imperialism crushes all unfavourable conditions through multiple forms of oppression to ensure the creation of a world in its own image The systemic and structural oppression birthed by neoliberal imperialism once again reproduces and implements colonialism armed robbery on a global scale The difference between the old form and the new form is the scale of destruction and the overt use of Weapons of Mass Destruction Hence the militarization of the globe is a natural outcome In this book Professor Tatah Mentan argues that United Fruit Company for instance could not have flourished without the strong support of the Marines the U S State Department and all of its resources In fact the French the German the British and the Belgian financiers could not have been able to suck the blood out of their colonies without their legionnaires soldiers mercenaries preachers merchants and generals Specifically the Western colonial empires in the nineteenth century presented their penetration pillage and rape of Africa Asia and Latin America as modernization and tutelage aided by the ideology of survival of the fittest This conceit pervaded the entire Western bourgeois social science educational and religious institutions And today there is the same clear symbiotic relationship between business and the military Empirical realities demonstrate that companies like Microsoft could not enjoy its overwhelming prosperity without having the strong military that America has This is precisely why neoliberal imperialism operates alongside oppressive militarism war and dictatorship and must be disrupted to liberate mankind from its death grip **Trade Unions in a Neoliberal World** Gary Daniels, John McIlroy, 2009 Written by very well respected contributors this comprehensive volume provides readers with an academic

Vicious Circuits Joseph Jonghyun Jeon, 2019-03-12 In December of 1997 the International Monetary Fund announced the largest bailout package in its history aimed at stabilizing the South Korean economy in response to a credit and currency crisis of the same year *Vicious Circuits* examines what it terms Korea's IMF Cinema the decade of cinema following that crisis in order to think through the transformations of global political economy at the end of the American century It argues that one of the most dominant traits of the cinema that emerged after the worst economic crisis in the history of South Korea was its preoccupation with economic phenomena As the quintessentially corporate art form made as much in the boardroom as in the studio film in this context became an ideal site for thinking through the global political economy in the transitional moment of American decline and Chinese ascension With an explicit focus of state economic policy IMF cinema did not just depict the economy it also was this economy's material embodiment That is it both represented economic developments and was itself an important sector in which the same pressures and changes affecting the economy at large were at work Joseph Jonghyun Jeon's window on Korea provides a peripheral but crucial perspective on the operations of late US hegemony and the contradictions that ultimately corrode it

Democracy for Breakfast Tatah Mentan,2013 Democracy is the faith that the process of experience is more important than any special result attained so that special results achieved are of ultimate value only as they are used to enrich and order the ongoing process Africans must therefore be allowed to apply their cultural and historical experiences and talents in working out a pattern of government of the people by the people and for the people according to their own understanding and as their own peculiar circumstances demand Those who do not want the vertical Western Style Democracy must be given a fair chance to demonstrate an alternative African horizontal democracy Perhaps what they come up with might be of benefit to politics even in the West provided that their radical system of horizontal democracy protects the life liberty and property of citizens and provided that the people want it The question of externally imposed or market driven multi party or

dual party or non party is a matter of modality and should not occupy the center stage in Africa
