Continuing Higher Education The Coming Wave:

Continuing Higher Education Allan W. Lerner, B. Kay King, 1992 How will American institutions of higher learning face the challenges of our evolving society one in which they are under increasing pressure to help solve social problems Higher and thicker walls will not insulate universities from the social policy issues of health reindustrialisation crime race relations and political participation nor from corporate demands for new skills to restore competitiveness with Japan and Western Europe nor from the dwindling of the traditional student pool In Continuing Higher Education Allan W Lerner B Kay King and five other authors address a thorny problem for today's mega universities large research teaching complexes that serve an array of purposes Their dilemma is whether or not to stand fast in their current configurations becoming more and more irrelevant as smaller more resilient organisations fill the void and as funding dries up at all levels for all purposes and from all sources or to commit to a new integration of service teaching and research Continuing Higher Education begins with an examination of how the university must adapt to a fundamentally altered student body explains how changes will affect faculty and research agendas proposes and criticises new structures for delivering continuing education considers financial strategies that accommodate entrepreneurship without bowing to it and prescribes a regimen of adaptation to an environment that is essentially a complicated web of organisations University administrators continuing education program planners professors researchers and graduate students should find this work thought provoking Resources in Education, 1998 **Profile of Undergraduates in U.S. Postsecondary Education Institutions**, 1999 **Heart of Creation**

Andrea Joyce Stone, 2002 This accessible state of the art review of Mayan hieroglyphics and cosmology also serves as a tribute to one of the field's most noted pioneers The core of this book focuses on the current study of Mayan hieroglyphics as inspired by the recently deceased Mayanist Linda Schele As author or coauthor of more than 200 books or articles on the Maya Schele served as the chief disseminator of knowledge to the general public about this ancient Mesoamerican culture similar to the way in which Margaret Mead introduced anthropology and the people of Borneo to the English speaking world Twenty five contributors offer scholarly writings on subjects ranging from the ritual function of public space at the Olmec site and the gardens of the Great Goddess at Teotihuacan to the understanding of Jupiter in Maya astronomy and the meaning of the water throne of Quirigua Zoomorph P The workshops on Maya history and writing that Schele conducted in Guatemala and Mexico for the highland people modern descendants of the Mayan civilization are thoroughly addressed as is the phenomenon termed Maya mania the explosive growth of interest in Maya epigraphy iconography astronomy and cosmology that Schele stimulated An appendix provides a bibliography of Schele's publications and a collection of Schele's written memories of the Rabbit Woman by some of her colleagues and students Of interest to professionals as well as generalists this collection will stand as a marker of the state of Mayan studies at the turn of the 21st century and as a tribute to the remarkable personality who guided a large part of that archaeological research for more than two decades

Reauthorization of the Higher Education Act United States. Congress. House. Committee on Education and Labor. Subcommittee on Postsecondary Education, 1986 The New Balancing Act in the Business of Higher Education R. Clark, 2006-01-01 the stature of the authors who include prominent university presidents and chancellors as well as leading researchers on the business of higher education makes this a worthwhile read Not to be missed are the chapters on how three Virginia universities are redefining what it means to be a public university and an interesting and provocative look at the looming financial crisis in higher education and how it can best be addressed Highly recommended F Galloway Choice

The New Balancing Act in the Business of Higher Education is a must read for higher education leaders It captures the major challenges of balancing enhancement of revenues to sustain mission and core values with containing costs to keep tuition for students affordable At the same time given the changing nature of the faculty colleges and universities must respond by developing more flexibility within faculty careers And presidents must lead their institutions through transformative changes that require trust and credibility among the stakeholders Now is the time for strong collaborative and decisive leadership Claire Van Ummersen Vice President and Director American Council on Education US This volume is an important read for those responsible for working through an environment in which change is the one true constant Richard D Legon President State Higher Education Executive Officers US The New Balancing Act in the Business of Higher Education clearly indicates the world s finest system of higher education as we have so long claimed is undergoing an identity crisis Stan Ikenberry begins by pointing with alarm to an eroding social compact the once well understood reciprocal responsibilities between higher education and society Then other leaders in a series of thoughtful essays outline the dimensions of our situation They warn of the risks of pursuing new revenues without a firm grasp on core values and explore the challenges of rebuilding trust the centrality and growing marginalization of faculty academic leadership the pernicious effects of inertia the urgency of innovation and change and the evidence of successful leadership and adaptation Global forces have made success in higher education indispensable to almost all of the American people Without compromising on quality the nation needs substantially more widespread educational attainment We are in a crisis business as usual is entirely unacceptable The New Balancing Act in the Business of Higher Education is a step beyond denial toward essential change Paul E Lingenfelter State Higher Education Executive Officers US The nation s leadership in higher education is on the line and colleges and universities need tools and insights to remain competitive The New Balancing Act in the Business of Higher Education should be part of their toolkit Travis Reindl Director of State Policy Analysis and Assistant to the President American Association of State Colleges and Universities US In The New Balancing Act in the Business of Higher Education senior insiders and noted scholars assess the economic conditions facing America s universities and colleges in the 21st century The picture they paint is not bright In forthright and unflinching but far from despondent language the authors consider many important issues that must be addressed even as they are often wishfully overlooked stagnating college enrollment rates the need for cost containment and

Justiz, 2001-08-16 Investigating the role of equity diversity and affirmative action in colleges and universities in the United States this book critically examines the issues in light of public debates voter referenda and legislative enactments seeking to influence public policy The contributors argue that providing information and critical skills to students and scholars preparing students for the world of work especially in a rapidly changing technological environment and generating new research and knowledge bases are missions of higher education that can be enhanced with affirmative action as a form of equity **Rethinking Higher Education** George Fallis, 2014-01-01 The basic structure of universities and colleges in Ontario one focused primarily on expansion and greater access and put in place in the 1960s is outdated The system is now large enough the eligible age group for entering post secondary studies is shrinking and participation rates are as high as they are likely to go In Rethinking Higher Education George Fallis argues that policy makers should shift their attention away from growth and towards improving and diversifying the range of programs available and creating new means of program delivery He calls for increases in honours undergraduate programs and polytechnic education and envisions a group of research intensive universities responsible for doctoral education The existing design Fallis contends neglects the specific needs of graduate education and research layering it on top of a system designed for undergraduate education In addition there is disconnection between Ontario s Ministry of Training Colleges and Universities and the research missions of the universities and colleges themselves Fallis recommends that Ontario establish a system for documenting and assessing the quality of research published at universities Thought provoking and thoroughly argued Rethinking Higher Education provides a detailed design for higher education in the twenty first century The University Next Door Mark Schneider, KC Deane, 2015-04-28 The challenges public comprehensive universities face today are expanding they have been challenged to enroll and graduate more students adopt new technologies that lower cost without sacrificing quality and align program and curricular offerings with the skills that employers require While these universities have a long history of adapting to change today s environment will likely test the capabilities of even the most adaptive institutions This volume assembles a team of experts from a variety of disciplines to examine both the history of the comprehensive university and what lies ahead Overall the book grapples with such questions as How do these institutions adapt to serve the growing population of non traditional students How well do they prepare graduates for the labor market

Can partnerships between community colleges and comprehensive universities bolster student success The University Next Door draws much needed attention to a set of institutions that has historically received little notice yet play an important role in meeting our new attainment goals and helping the American economy grow Book Features Examines the role of comprehensive universities from start to finish their history and future Uses empirical analysis to explore complex questions about which students choose these universities and why Explores how these institutions might struggle under a federal ratings system such as the one proposed by President Obama Discusses how these institutions can better monitor the needs of the economy and better educate students to fill those needs Provides recommendations to inform future decisions about higher education policy In chapter after chapter the contributors critically assess whether comprehensive universities can respond to the nation s ambitious call to action This compelling volume is a valuable starting point for anybody concerned about the future of the institutions that help define American higher education as we know it today Richard G Rhoda executive director Tennessee Higher Education Commission Schneider Deane provides much needed illumination on the U S higher education sector that will play a critical role in meeting the nation s educational workforce and economic goals It will serve as a valuable resource for all stakeholders who seek to affect positive change in policy and practice at public comprehensive universities Daniel J Hurley associate vice president for government relations and state policy American Association of State Colleges and Universities *Higher Education Act of 1965* United States.
