

Volvo Inflatable Curtain (VIC)

The Volvo Inflatable Curtain system

This system consists of inflatable curtains located along the sides of the roof liners, stretching from the center of both front side windows to the rear edge of the rear side door windows. It is designed to help protect the heads of the occupants of the front seats and the occupant of the outboard rear seating positions in certain side impact collisions.

In certain side impacts, **both** the Inflatable Curtain (VIC) and the Side Impact Airbag System (SIPS-bag) will deploy, whereas, in some cases, **only** the Inflatable Curtain (VIC) will deploy. In cases where **both** the VIC and the SIPS-bag deploy, this will occur simultaneously.

NOTE

If the inflatable curtain deploys, it remains inflated for approximately 3 seconds.

WARNING

- The VIC system is a supplement to the Side Impact Protection System. It is not designed to deploy during collisions from the front or rear of the car or in rollover situations.
- Never try to open or repair any components of the VIC system. This should be done only by a trained and qualified Volvo service technician.
- Never hang heavy items from the ceiling handles. This could impede deployment of the Inflatable curtain.
