organizations administrative culture is about the attitudes and perceptions of public officials In many countries civil servants are criticised for being corrupt incompetent unreliable and self centred Their attitudes norms and values and the way they act are in constant conflict with rule of law Recently the virtues of the Weberian model of bureaucracy have been reclaimed as an alternative to New Public Management NPM i e as a model which emphasizes impartiality rule following expertise and hierarchy rather than manipulation of incentive structures and market competition In particular it has been argued that a system of meritocratic recruitment and predictable long term careers increases the professional competence of the bureaucrats and fosters a culture of professionalism among them Still it is unclear how and under what conditions such a model can be adopted Among main hindrances seems to be established power structures and the existing political and societal culture which undermine the effective implementation of the Weberian model This book was published as a special issue of the International Journal of Public Administration
