Interethnic Relations An Essay In Sociological Theory:

Interethnic Relations Emerich K. Francis, 1976 **Ibss: Anthropology: 1978** International Committee for Social Science Information and Documentation, 1990-12-31 First published in 1981 Routledge is an imprint of Taylor Francis an informa company *Ethnic Relations in the USSR* Rasma Karklins, 2024-11-26 *Ethnic Relations in the USSR* 1986 focuses on popular ethnic attitudes and behaviour among the various nations and nationalities of the Soviet Union Ethnicity matters not only in Soviet high politics and in economic and cultural planning but is also a dominant force in the daily lives of many Soviet citizens Using a combination of political and sociological methods the author draws out the patterns and determinants of ethnic relations among the major nationalities at both the group and individual levels Co winner of the 1987 American Political Science Association Ralph E Bunche Award **Civic Nationalisms in Global Perspective** Jasper Trautsch, 2019-03-14 Recent events around the globe have cast doubt on the assumption that as a result of increasing cross border migrations and global interdependencies nation states are becoming more inclusive ethnic forms of identification more and more a thing of the past and processes of supranational integration progressively more acceptable Xenophobic forms of nationalism have once again been on the rise as became strikingly visible through the results of the Brexit referendum the election of Donald Trump and the inclusion of the Lega Nord in the Italian government It is timely therefore to inquire how multiethnic forms of nationalism can be re promoted and for this purpose to re investigate the concept of civic nationalism This book assembles case studies that analyse the historical practices of civic or quasi civic nationalisms from around the world By allowing for global comparisons the collection of articles seeks to shed new light on pressing questions faced by nation states around the world today Are truly civic nationalisms even possible Which strategies have multiethnic nation states pursued in the past to foster national sentiment How can nation states generate social solidarity without resorting to primordialism Can the historical example of civic or quasi civic nation states offer useful lessons to contemporary nation states for successfully integrating immigrants *Ethnicity In Modern Africa* Brian M. du Toit, 2019-04-11 The fifteen essays written for this volume reflect the increasing importance for social scientists of ethnic rather than physical or tribal criteria for classifying modern population groups The authors from South Africa the United States South West Africa Namibia Nigeria and Scotland cover most of Africa south of the Sahara They consider the range from large national population groupings to small scale societies attempting to maintain their social boundaries and discuss such topics as emergent nationalism ethnic divisiveness social distance voluntary association and the role of women The first section is concerned with particular communities peoples and ethnic groups and treats traditional tribal groupings as well as communities delineated on phenotypic grounds In the second section the focus turns to modern situations of interaction the two major themes discussed here are situational ethnicity and situational realignment The third section deals with color one of the physical criteria of ethnic identification here the authors discuss the political and legal implications of a system based on

color The last essay reports on current changes in attitude and organization within the countries of white ruled southern Africa

Ethnonationalism in the Contemporary World Daniele Conversi, 2004 Essential reading for anyone interested in problems associated with ethnicity and nationalism it offers a guide to understanding the ethnonational forces that underpin much of recent terrorist activity

Human Nature and Biocultural Evolution Joseph Lopreato, 2024-12-02 First published in 1984 Human Nature and Biocultural Evolution aims to delineate a theory of human nature viewed as an interrelated set of genetically programmed behavioral predispositions and a theory of biocultural evolution The author's approach is based on the hypothesis that innate predispositions and cultural environmental factors cooperate to determine human behavior and socio cultural forms Professor Lopreato begins by tracing the development of evolutionary biology up to sociobiology It is his argument that the social and biological disciplines have for over a century been moving towards a synthesis and that Homo sapiens is neither just another animal nor so unique a being that culture has become divorced from its genetic underpinnings The argument is supported with evidence from evolutionary biology and social science with a critical discussion of basic issues of behavioral science and with an analysis of certain famous theories in social science e.g theories of suicide anomie capitalism which prove to be richer and more complete when viewed from a biocultural perspective The theory of human nature is arrived at through a rich analysis of ethnographic psychological and sociological arguments and data as well as facts and theories from comparative zoology In the process the author treats critically numerous theoretical problems associated with topics such as exploitation class consciousness structured inequality reciprocal behavior territorial aggression religious ritual socialization ethnicity and prejudice The author concludes with an examination of behavioral predispositions that are hypothesized to be at the base of cultural variation

Ethnic Identity and the State in Iran A. Saleh, 2013-07-17 While the Islamic Republic has employed various strategies to mitigate the worst excesses of inter ethnic tension while still securing a Shi'a dominated Persian hegemony the systematic neglect of ethnic groups by both the Islamic Republic and its predecessor regime has resulted in the politicization of ethnic identity in Iran

Rewriting the Break Event Robert Zacharias, 2013-10-26 Despite the fact that Russian Mennonites began arriving in Canada en masse in the 1870s Mennonite Canadian literature has been marked by a compulsive retelling of the mass migration of some 20 000 Russian Mennonites to Canada following the collapse of the Mennonite Commonwealth in the 1920s This privileging of a seminal dispersal within the community's broader history reveals the ways in which the 1920s narrative has come to function as an origin story or break event for the Russian Mennonites in Canada serving to affirm a communal identity across national and generational boundaries Drawing on recent work in diaspora studies Rewriting the Break Event offers a historicization of Mennonite literary studies in Canada followed by close readings of five novels that rewrite the Mennonite break event through specific strains of emphasis including a religious narrative ethnic narrative trauma narrative and meta narrative The result is thoughtful and engaging exploration of the shifting contours of Mennonite

collective identity and an exciting new methodology that promises to resituate the discourse of migrant writing in Canada

Small Town in Modern Times David M. Rayside, 1991-04-01 Rayside conducted informal interviews with more than 150 Glengarrians and attended numerous meetings of local councils school boards planning boards and conservation authorities This field research provides the basis for a detailed examination of the self image of the town as a friendly caring united community and of the unequal power relations that exist between different social classes language groups and men and women Working class life is disadvantaged in Alexandria much as it is in large cities French English relations are strained and the experience of women has not been affected to any great extent by the challenges of feminism Local government in Alexandria may be more accessible to the ordinary citizen than it is elsewhere but as Rayside shows the local council rarely engages in issues of genuine concern to residents who themselves largely ignore municipal politics Most local politicians seem inclined to avoid controversy and innovation hoping to retain an environment favourable to business investment Rayside examines the impact of the external world on a small community He situates this impact and the resulting changes in historical context and reveals economic and social relationships that differ from what many of Alexandria's inhabitants believe to be the case A Small Town in Modern Times will be of interest not only to students and scholars of political science sociology history and Canadian studies but also to residents of Alexandria and any other small community in transition

Ethnicity and the Colonial State Alexander Keese, 2015-11-30 Ethnicity and the Colonial State compares the choices of community leaders in three different West African groups Wolof Temne and Ewe with regard to selling their identifications to the colonial rulers The book thereby addresses ethnicity as a factor in global history *Whose Democracy?* Sabrina P. Ramet, 1997 The years since the collapse of communism in 1989 have witnessed a dangerous renewal of religious intolerance and nationalist demands across Eastern Europe In this provocative application of moral philosophy to the analysis of contemporary political processes in the region Sabrina Ramet draws upon the literature of Natural Law to demonstrate that liberal democracy depends on a delicate balance between individual and societal rights Exploring the situation of Hungarians in Slovakia Albanians in Kosovo theoretically inclined Catholic bishops in Poland Serbs in Croatia and contending forces in post Dayton Bosnia Ramet contends that the terms of dispute in these cases can be deceptive She illustrates that claims made on the basis of what she calls the doctrine of collective rights actually subvert the liberal democratic project

Dominant Nationalism, Dominant Ethnicity André Lecours, Geneviève Nootens, 2009 Although nationalism and ethnicity have long been associated with minority populations an emerging literature looks at how the state and or a majority group interact with minorities and how behind the expression of the nation promoted by the state there is often an ethnic core This book contributes to this emerging literature on dominant nationalism and dominant ethnicity by presenting multidisciplinary contributions that center on how states deploy their own nationalism and how the state's nation building and nation consolidating processes are very often spearheaded by a specific ethnocultural group It focuses on the

interrelated issues of identity federalism and democracy Dominant nationalism and ethnicity involve the projection the promotion and sometimes the imposition by the state and or a dominant group of an identity which can be challenged negotiated and or resisted by minority groups This brings questions for democratic practices since it raises the issue of self rule Since dominant nationalism and ethnicity are shaped by ideas and institutions relating to the territorial division of power federalism is crucial for understanding these phenomena The book is amongst the first to look at dominant nationalism and ethnicity from historical theoretical empirical and normative perspectives **Nationalism, Ethnicity and the State** John Coakley, 2012-11-12 This exciting new book is the first to offer a truly comprehensive account of the vibrant topic of nationalism Packed with a series of rich illustrative examples the book examines this powerful and remarkable political force by exploring Definitions of nationalism Language and nationalism Religion and Nationalism Nationalist history The social roots of ideologies and the significance of race gender and class Nationalist movements from dominant majorities to peripheral minorities socio economic and sociological perspectives State responses to nationalism Supported by a number of helpful illustrations tables and diagrams the text is both engaging and highly informative Nationalism Ethnicity and the State Making and Breaking Nations will prove an insightful read for both undergraduate and postgraduate students and researchers in the area of Politics and International Relations *European Constitutional Language* András Jakab, 2016-04-15 Provides a systematic analysis of both the historical development and current interpretation of constitutional law discourse in Europe Ethnosymbolism and the Dynamics of Identity Liu Mingxin, Elya Tzaneva, 2015-10-13 This book is an exploration of the potential of the ethnosymbolic approach to nation and identity to act as an instrumental tool for research into the mechanisms of identity building Using insights and data from Bulgarian history and culture it views the construction of Bulgarian national identity as a modern process intimately affected by circumstances which prevailed in nineteenth century Bulgarian society and also as a process which for its structural and psychological prerequisites drew upon and reworked various specific features and peculiarities of an available but always malleable and never fixed Bulgarian ethnic and cultural tradition The development of Bulgarian national identity drew in combination or mutual interaction upon two main sources namely a process of articulating systematising and rationalising ideas of group commonality and ethnic distinctiveness and the mobilising and politicising effect of modern economic and political forces upon that intersubjective process The overall means of national identity construction in all its complexity was achieved as a symbiosis between the historical continuity of a collective ethnic inheritance and the modern dynamics of its political activation and mobilisation The book combines diachronically the ideas and logic of social evolution with a synchronic approach that draws upon the so called instrumentalist view of ethnic phenomena It explores the cultural landscape of available ethnic notions and terms that were utilised as expressions of Bulgarian ethnic identity but which also in that process reshaped all this in response to the changing conditions of Bulgarian society in the nineteenth century As such the

book offers an in depth investigation of how ideas of national identity were formed and changed within a modernist framework Furthermore it shows how ethnosymbolism used as a tool and instrumentarium for national identity construction can reveal the main patterns that contribute to what is defined as a discursive construction of identity dynamics **The Blackwell Dictionary of Modern Social Thought** William Outhwaite,2008-04-15 Modern social thought ranges widely from the social sciences to philosophy political theories and doctrines cultural ideas and movements and the influence of the natural sciences Provides an authoritative overview of the main themes of social thought Long essays and entries give full coverage to each topic Covers major currents of thought philosophical and cultural trends and the individual social sciences from anthropology to welfare economics New edition updates about 200 entries and includes new entries suggestions for further reading and a bibliography of all sources cited within the text **The Religion of the Landless** Daniel L. Smith-Christopher,2015-01-14 Through brilliant new interpretations of biblical exiles Daniel Smith Christopher shows their experience as the most apt model for the Church as witnesses for the peace and justice of God in a strange land *Doing Business in Rural China* Thomas Heberer,2012-09-01 Longlisted for the 2009 ICAS Book Award Mountainous Liangshan Prefecture on the southern border of Sichuan Province is one of China s most remote regions Although Liangshan s majority ethnic group the Nuosu now classified by the Chinese government as part of the Yi ethnic group practiced a subsistence economy and were by Chinese standards extremely poor Their traditional society was stratified into endogamous castes the most powerful of which owned slaves With the incorporation of Liangshan into China s new socialist society in the mid twentieth century the Nuosu were required to abolish slavery and what the Chinese government considered to be superstitious religious practices When Han Chinese moved into the area competing with Nuosu for limited resources and introducing new cultural and economic challenges some Nuosu took advantage of China s new economic policies in the 1980s to begin private businesses In *Doing Business in Rural China* Thomas Heberer tells the stories of individual entrepreneurs and presents a wealth of economic data gleaned from extensive fieldwork in Liangshan He documents and analyzes the phenomenal growth during the last two decades of Nuosu run businesses comparing these with Han run businesses and asking how ethnicity affects the new market oriented economic structure and how economics in turn affects Nuosu culture and society He finds that Nuosu entrepreneurs have effected significant change in local economic structures and social institutions and have financed major social and economic development projects This economic development has prompted Nuosu entrepreneurs to establish business political and social relationships beyond the traditional social confines of the clan while also fostering awareness and celebration of ethnicity *The Partition of Palestine* Itzhak Galnoor,2012-02-01 Some seventy five years after the boundaries of the British Mandate for Palestine were set the State of Israel still lacks a defined territory and agreed upon boundaries except for its boundary with Egypt This book examines this unusual situation concentrating especially on the perceptions of territory and boundaries within the Zionist movement Galnoor discusses the

period from the first territorial decision in 1919 up to the establishment of the State of Israel in 1948 placing special emphasis on the relatively unknown Zionist Palestinian and Arab positions regarding territorial partition in 1937 And he argues that although dramatic changes have occurred in the international and regional arena the partners to the conflict the security considerations and the international dilemmas the 1937 decision contained the parameters of the choices that have confronted Arab and Israeli leaders ever since His findings are of direct relevance to the ongoing Arab Israeli peace negotiations which once again revolve around the trade off between national goals and territorial aspirations
