Bernard of Clairvaux Bernardo (Santo,), 1987 a milestone in American religious publishing New Catholic World Bernard of Clairvaux Selected Works translation and foreword by G R Evans introduction by Jean Leclercq O S B preface by Ewert H Cousins Lord you are good to the soul which seeks you What are you then to the soul which finds But this is the most wonderful thing that no one can seek you who has not already found you You therefore seek to be found so that you may be sought for sought so that you may be found Bernard of Clairvaux 1090 1153 Born in Fontaines l s Dijon in 1090 Bernard had become by his twenty fifth birthday the abbot of a Cistercian monastery which he had founded in the valley of Clairvaux near Aube France some four years earlier There in those isolated and rugged surroundings he became the spokesman for a revival of monastic life in an age when the radical spirit of religious life was endangered by a movement best seen in the excesses of the monks of Cluny that stressed the adaptation of the rule of St Benedict to the exigencies and taste for princely comforts of the royal courts of twelfth century France But Bernard's dedication to the strict observance of Benedict's rule was mingled not with the abrasive shrill style of the prophet but with a sweetness and purity of vision that earned him the title Doctor mellifluous For he possessed a sense of the love of God the importance of humility and the sheer beauty of holiness that has made his writings favorites of scholars and laymen alike throughout the ages Here in a new translation by G R Evans are the writings that have had such a major role in shaping the Western monastic tradition and influencing the development of catholic mystical theology Together with an introduction by the master of Bernard studies Jean Leclercq they comprise a volume that occupies a place of special importance in the chronicle of the history of the Western spiritual adventure

Holy Power, Holy Presence Elizabeth Dreyer, 2007

Western theology is frequently criticized for not having a fully developed pneumatology According to these critics preoccupation with Christology and an excessive focus on the nature and unity of God have come at the expense of a full theology of the three persons While admitting that there is some truth to these criticisms Elizabeth Dreyer maintains that those who level them base their conclusions on a narrow range of texts and thus fail to establish a true neglect of the Holy Spirit Medieval authors offer a wealth of creative language and insight that speaks to the role of the Holy Spirit in contemporary spirituality and contributes to a renewed pneumatology for the twenty first century Book jacket

Volume 5, Tome II: Kierkegaard and the Renaissance and Modern Traditions - Theology Jon Stewart, 2016-12-05

The long period from the Renaissance to the nineteenth century supplied numerous sources for Kierkegaard's thought in any number of different fields The present rather heterogeneous volume covers the long period from the birth of Savonarola in 1452 through the beginning of the nineteenth century and into Kierkegaard's own time The Danish thinker read authors representing vastly different traditions and time periods Moreover he also read a diverse range of genres His interests concerned not just philosophy theology and literature but also drama and music The present volume consists of three tomes that are intended to cover Kierkegaard's sources in these different fields of thought Tome II is dedicated to the wealth of theological and religious sources from the beginning of the Reformation to Kierkegaard's own day It examines Kierkegaard's relations to some of the key figures of the Reformation period from the Lutheran Reformed and Catholic traditions It thus explores Kierkegaard's reception of theologians and spiritual authors of various denominations most of whom are known to history primarily for their exposition of practical spirituality rather than theological doctrine Several of the figures investigated here are connected to the Protestant tradition of Pietism that Kierkegaard was familiar with from a very early stage The main figures in this context include the forefather of Pietism Johann Arndt the Reformed writer Gerhard

Tersteegen and the Danish author Hans Adolph Brorson With regard to Catholicism Kierkegaard was familiar with several popular figures of Catholic humanism Post Tridentine theology and Baroque spirituality such as Francis of Sales and Ignatius of Loyola He was also able to find inspiration in highly controversial and original figures of the Renaissance and the early Modern period such as Girolamo Savonarola or Jacob Boehme the latter of whom was at the time an en vogue topic among trendsetting philosophers and theologians such as Hegel Franz von Baader Schelling and Hans Lassen Martensen

Hear the Ancient Wisdom Charles R. Ringma, 2013-03-08 There is a hunger in the modern world for spirituality One vast resource of spiritual wisdom comes from the pre Reformation church from the martyrs of the first centuries of Christianity through the long tradition of monasticism to the medieval Christian mystics These are the deep wells of Christian reflection from persons such as John Chrysostom Augustine Benedict Francis of Assisi Bonaventure Bernard of Clairvaux Meister Eckhart Hildegard of Bingen and Julian of Norwich to mention just a few The spiritual insights of over seventy men and women of pre Reformation Christianity are found in these pages From these figures we can learn more about the practices of prayer and contemplation a life of following Christ the relevance of community the challenge of asceticism the movement of withdrawal and engagement the love of God for God's own sake living the gospel sacrificing for the kingdom of God the longing for union with God the practices of justice and a life of prophetic witness For us so embedded and shaped by the modern world this ancient wisdom will come as refreshing water and as a breath of fresh air with the wings of the Spirit and whispers of angels

Mystics William Harmless, 2008 In Mystics William Harmless SJ introduces readers to the scholarly study of mysticism He explores both mystics extraordinary lives and their no less extraordinary writings using a unique case study method centered on detailed examinations of six major Christian mystics Thomas Merton Bernard of Clairvaux Hildegard of Bingen Bonaventure Meister Eckhart and Evagrius Ponticus Rather than presenting mysticism as a subtle web of psychological or theological abstractions Harmless's case study approach brings things down to earth restoring mystics to their historical context

One in the Lord Susan Muto, 2013 Susan Muto challenges us to turn away from the cultural impulse toward me centeredness She maps out the factors that work against our being one in the Lord and she offers ways to begin each day looking to love first and to seek God's will in each daily action

Finding the Monk Within Edward C. Sellner, 2008 Finding the Monk Within is written with the conviction that lying deep within every person and underlying much of contemporary western and eastern cultures is an ancient memory a vital archetypal energy related to monasticism and its spirituality This book recovers that monastic memory the living presence of the past for those who desire to name and incorporate monastic values values of solitude and silence faith and compassion friendship and mentoring contemplation and leadership itself The author examines the social and religious dimensions in the fourth century that gave rise to monasticism then looks at Christian leaders from late antiquity to the medieval period associated with monasticism in both East and West who have much to teach about monastic values and their relevance for today among them

Antony the first monk Augustine and Jerome John Cassian Brigit of Kildare and early Celtic monasticism Gregory the Great Benedict and Scholastica and finally Bernard of Clairvaux By studying the history of monasticism and its great heroes we come to realize that for the Christian much of what we call monastic is purely and simply what being a follower of Christ is all about and that being a monk whether inside monastic enclosures or outside in the world is simply becoming the sort of person everyone ought to be a person who unites action and contemplation in the care of souls writes the author By becoming familiar with the stories and thought of these inspirational figures readers will be inspired to incorporate monastic perspectives and values into their own lives *Revelation and the Apocalypse in Late Medieval Literature* Justin M. Byron-Davies,2020-02-01 The book will equip the reader with a stronger understanding of the religious and historical background to these late medieval texts It will provide insight into the influence of the biblical Apocalypse upon the literature of the period in a systematic way Importantly by treating the writings of Julian of Norwich and William Langland as contemporaneous the book balances the female and male approaches to and engagement with the biblical Apocalypse *A Hermeneutics of Contemplative Silence* Michele Kueter Petersen,2021-10-06 A Hermeneutics of Contemplative Silence Paul Ricoeur Edith Stein and the Heart of Meaning brings together the work of Paul Ricoeur and Edith Stein and locates the role of silence in the creation of meaning Michele Kueter Petersen argues that human being is language and silence Contemplative silence manifests a mode of capable human being whereby a shared world of meaning is constituted and created The analysis culminates with the claim that a hermeneutics of contemplative silence manifests a deeper level of awareness as a poetics of presencing a shared humanity The term awareness refers to five crucial levels of meaning creating consciousness that are ingredients in the practice of contemplative silence Contemplative awareness includes self critique as integral to the experience and the understanding of the virtuous ordering of relational realities The practice of contemplative silence is a spiritual and ethical activity that aims at transforming reflexive consciousness Inasmuch as it leads to openness to new motivation and intention for acting in relation to others contemplative awareness elicits movement through the ongoing exercise of rethinking those relational realities in and for the world The texts of Ricoeur and Stein reveal a contemplative discourse of praise and beauty for capable human beings whose actions and suffering respond to word and silence The Oxford Handbook of Mystical Theology Edward Howells,Mark Allen McIntosh,2020 This collection provides a guide to the mystical element of Christianity as a theological phenomenon Part I offers a historical overview Part II considers sources and practices of mystical theology Part III examines conceptualities of mystical thought Part IV explores contributions of mystical teaching to theology and metaphysics Thinking With the Church Derek C. Hatch,2017-12-08 Over the centuries Baptists have labored to follow Christ in faithful devotion and service More recently they have occasionally partnered with fellow Christians from other traditions in these efforts while learning from each other along the way In Thinking With the Church Derek Hatch argues that Baptists need to follow the same pattern when it comes to their theological reflection engaging the

wisdom of all Christian pilgrims across time This will require a new theological method ressourcement that embraces Baptists place within the Great Tradition of the Christian faith Such work will not abandon long held Baptist convictions but offers resources for renewing Baptists theological vision as they participate in the fullness of the mystical body of Christ

Affirmation and Healing Within Spiritual Direction Cynthia Herman,2020-05-26 ABSTRACT Key to the process of spiritual growth is the knowledge that human beings long for love They desire to know their worth and value This seeking leads to a desire for a relationship with God In order to grow in faith to a deeper relationship with God it is important to first have a strong sense of one s own worth as a basis for growth This involves an accurate self perception and a loving self acceptance Affirmation can help to develop a loving self acceptance where one can experience feel and see one s worth Affirmation is a gift of love from one person to another where one receives oneself as one experiences one s own goodness and dignity from the other and one learns one is lovable Another key to spiritual growth is self knowledge Self acceptance and self knowledge are the beginning of the spiritual life Developing emotional awareness leads to greater self knowledge Emotions need to be listened to and interpreted as part of the development of self knowledge and self acceptance This emotional awareness is the beginning of understanding the negative patterns of behavior that comes out of one s woundedness With the healing presence of Christ through prayer one can experience God s love for them in one s woundedness and know that God dwells within and desires to transform and heal wounds with his love This affirms one in one s worthiness enabling one to be able to open to receive love and then return love In spiritual direction one seeks a relationship with God It is a sacred time of growth conversion and transformation It is a time when one looks at a relationship with self others and God One is empowered by the grace of God to enter this process and continue the development of these relationships The ministry of spiritual direction is called to be the sacred place where humanity in their fullness meets their God and accepts his mercy When one surrenders to this grace one is surrendering to love mercy and affirmation One s self image and relationship with others and God are touched and experienced in a new light

Francis of Assisi as Artist of the Spiritual Life Andrew T. McCarthy,2010-08-13 Francis of Assisi as Artist of the Spiritual Life applies modern psychological understanding to a historical person While most such studies have sought a comprehensive personality profile this work focuses on one aspect Francis imagination and seeks greater insight into the imaginatively inspired spiritual vision of St Francis An analysis of Francis writings builds on a survey of modern views of the imagination and the approach of ORT or Object Relations Theory ORT with its contention that the imaginative creation of an infant s world develops out of the earliest interactions with the maternal caregiver highlights the way Francis formed his way of visualizing the reality around him While any study of a person 800 years in the grave is more dependent on what is plausible than on what is determinable this

study finds numerous examples where Francis writings display an adept use of imagination and even encourages others in that use in a manner that corresponds to an ORT perspective on tutoring the imagination
