Meanings for Manhood Mark C. Carnes,Clyde Griffen,1990-11-06 The stereotype of the Victorian man as a flinty sexually repressed patriarch belies the remarkably wide variety of male behaviors and conceptions of manhood during the mid to late nineteenth century A complex pattern of alternative and even competing behaviors and attitudes emerges in this important collection of essays that points toward a gendered history of men Eugenics and Physical Culture Performance in the

Progressive Era Shannon L. Walsh, 2020-11-16 This book strives to unmask the racial inequity at the root of the emergence of modern physical culture systems in the US Progressive Era 1890s 1920s This book focuses on physical culture systematic non competitive exercise performed under the direction of an expert because tracing how people practiced physical culture in the Progressive Era especially middle and upper class white women reveals how modes of popular performance institutional regulation and ideologies of individualism and motherhood combined to sublimate whiteness beneath the veneer of liberal progressivism and reform The sites in this book give the fullest picture of the different strata of physical culture for white women during that time and demonstrate the unracialization of whiteness through physical culture practices By illuminating the ways in which whiteness in the US became a default identity category absorbed into the universal ideals of culture arts and sciences the author shows how physical culture circulated as a popular performance form with its own conventions audience and promised profitability Finally the chapters reveal troubling connections between the daily habits physical culturists promoted and the eugenics movement s drive towards more reproductively efficient white bodies By examining these written visual and embodied texts the author insists on a closer scrutiny of the implicit whiteness of physical culture and forwards it as a crucial site of analysis for performance scholars interested in how corporeality is marshaled by and able to contest local and global systems of power **The Journalist's Bookshelf** Roland Edgar Wolseley, 1951

Bulletin of the Brooklyn Public Library Brooklyn Public Library, 1930 **Old Fields** John R. Stilgoe, 2014-03-04 Glamour subverts convention Models images and even landscapes can skew ordinary ways of seeing when viewed through the lens of photography suggesting new worlds imbued with fantasy mystery sexuality and tension In Old Fields John Stilgoe one of the most original observers of his time offers a poetic and controversial exploration of the generations long effort to portray glamour Fusing three forces in contemporary American culture amateur photography after 1880 the rise of glamour and fantasy and the often mysterious quality of landscape photographs Stilgoe provides a wide ranging yet concentrated take on the cultural legacy of our photographic history Through the medium of shop theory the techniques tools and purpose made equipment a maker uses to realize intent Stilgoe looks at the role of Eastman Kodak in shaping the ways photographers purchased cameras and films while also mapping the divisions that were created by European made cameras He then goes on to argue that with the proliferation of digital cameras smart phones and Instagram young people s lack of knowledge about photographic technique is in direct correlation to their lack of knowledge of the history of glamour photography In his exploration of the rise of glamour and fantasy in contemporary American culture Stilgoe offers a provocative and very personal look into his enduring fascination with and the possibilities inherent in creating one s own images *The Vegetarian Crusade* Adam D. activities the author applies his structural criminology to the relationships of power which operate in a range of institutional spheres He looks at the relationship between class and criminality showing the inadequacy of a simple causal link and discussing the prevalence of white collar crime Hagan sees other significant structures of power in the relative influence of corporate actors for example large commercial establishments who bring charges against individuals and he analyzes both the legal outcome of such conflicts and the symbolic aspects of sentencing and judicial operations in general Throughout these essays stress the structural importance of unemployment race and gender in the legal definitions of criminal behavior and the need to situate each factor within its complex of power relationships Catalog of Copyright Entries.
