Gębał, Karol Krzyżosiak, 2025-10-13 This volume compiles the latest research on learning and teaching Polish as a foreign and second language among Ukrainian migrants and refugees The authors address the growing necessity for developing both theoretical frameworks and practical solutions to facilitate efficient language acquisition and acculturation amidst the unprecedented inflow of migrants resulting from the ongoing conflict in Ukraine The research presented in this volume marks an important initial step in recognizing and analyzing the diverse needs of individuals with migrant and refugee experiences Furthermore it offers new perspectives that pave the way for future advancements in the field of Polish language education *Studies in West Slavic and Baltic Linguistics* , 2023-11-20 *Studies in Slavic and General Linguistics* is mainly devoted to the field of descriptive linguistics Although the series is primarily intended to be a means of publication for linguists from the Low Countries the editors are pleased to accept contributions by linguists from abroad **The Czech Tradition of Brass Instrument Manufacturing in the Latter Half of the 19th Century in the Light of Practical Manuals of the Period** Tereza Žůrková, 2024-01-01 By their nature musical instruments are very complex objects that embody a combination of both artistic and physical properties Monitoring or interpreting their development in various historical periods must therefore be set into a broader historical and especially cultural context Knowledge about period technologies is increasingly seen as being of fundamental importance not only for understanding the development of instruments and of their manufacturing but also as a precondition for the modern production of faithful copies of historical instruments In answering this question we are faced with a lack of direct sources and findings can be deduced on the basis of surveying preserved specimens and other secondary sources For this reason the practical manuals by two Czech brass instrument makers V F erven On the Manufacturing of Metal Musical Instruments and J ediva Instructions for Making and Ordering Brass Instruments Infantry Signal Horns Cavalry Signal Bugles and Large and Small Drums can be classified as unique sources They give us a real picture of the practices of period craftsmen because they describe in relative detail the entire manufacturing process In both cases the manuals turned out to be quite unique not only for their focus and content but also in particular for the time when they were published at a time when craftsmanship was still largely being passed on by word of mouth and when a firm s competitiveness was ensured not only by its constant progress but especially by its own often secret production processes By

publishing an edition of these practical manuals and setting them in a broader cultural and historical context this book's goal is to contribute something towards our knowledge of a topic that is of increasing interest to researchers performers and musical instrument makers
