Pragmatism, Objectivity, and Experience Steven Levine, 2019-01-24 In this book Steven Levine explores the relation between objectivity and experience from a pragmatic point of view Like many new pragmatists he aims to rehabilitate objectivity in the wake of Richard Rorty's rejection of the concept But he challenges the idea put forward by pragmatists like Robert Brandom that objectivity is best rehabilitated in communicative theoretic terms namely in terms that can be cashed out by capacities that agents gain through linguistic communication Levine proposes instead that objectivity is best understood in experiential theoretic terms He explains how in order to meet the aims of the new pragmatists we need to do more than see objectivity as a norm of rationality embedded in our social linguistic practices we also need to see it as emergent from our experiential interaction with the world Innovative and carefully argued this book redeems and reactualizes for contemporary philosophy a key insight developed by the classical pragmatists
