Evidence Based Validation of Traditional Medicines Subhash C. Mandal, Raja Chakraborty, Saikat Sen, 2021-01-18 The demand for traditional medicines herbal health products herbal pharmaceuticals nutraceuticals food supplements and herbal cosmetics etc is increasing globally due to the growing recognition of these products as mainly non toxic having lesser side effects better compatibility with physiological flora and availability at affordable prices In the last century medical science has made incredible advances all over the globe In spite of global reorganization and a very sound history of traditional uses the promotion of traditional medicine faces a number of challenges around the globe primarily in developed nations Regulation and safety is the high concern for the promotion of traditional medicine Quality issues and quality control pharmacovigilance scientific investigation and validation intellectual property rights and biopiracy are some key issues that restrain the advancement of traditional medicine around the globe This book contains diverse and unique chapters explaining in detail various subsections like phytomolecule drug discovery and modern techniques standardization and validation of traditional medicine and medicinal plants safety and regulatory issue of traditional medicine pharmaceutical excipients from nature plants for future The contents of the book will be useful for the academicians researchers and people working in the area of traditional medicine

Phytopharmaceuticals and Herbal Drugs Manju Rawat Singh, Deependra Singh, 2023-07-15 Phytopharmaceuticals and Herbal Drugs Prospects and Safety Issues in the Delivery of Natural Products explores the delivery aspects of plant based drugs providing insights into

formulation constraints associated with plant based drugs the development of novel delivery systems based on polymers or lipids and how combining natural products with technological advancements in drug delivery is making large strides Some of the best selling drugs for the treatment of diseases like cancer ulcers and malaria are either natural products or their derivatives all of which are covered in this comprehensive resource This book will be useful to researchers working in plant derived medicines and the development of their delivery systems including sections on their derivatives and analogs that represent over 50% of all drugs in clinical use Active ingredients originated from plant resources generally exhibit compromised desired effects limited by issues such as stability solubility molecular size bioavailability and toxicity Includes perspectives from academic and industry research Provides information on the safety regulatory aspects and clinical aspects related to plant based drugs Introduces developments of new targeted drug delivery systems

Formulating Pharma-, Nutra-, and Cosmeceutical Products from Herbal Substances Anupama Singh, Hitesh Kulhari, Vikas Anand

Saharan, 2025-08-12 A practical and up to date discussion of the formulation and design of dosage forms and delivery systems containing herbal ingredients In *Formulating Pharma Nutra and Cosmeceutical Products from Herbal Substances* Dosage Forms and Delivery Systems a team of distinguished researchers delivers a step by step approach to preparing and manufacturing dosage forms and delivery systems Intuitively organized with comprehensive coverage of the fundamentals functional materials manufacturing and marketing of pharmaceutical nutraceutical and cosmeceutical products the book also examines regulatory issues of quality safety and efficacy The authors discuss essential formulation development and delivery information for novel and controlled delivery systems of herbal ingredients Readers will also find A thorough introduction to the basic principles of developing modern pharma nutra and cosmeceutical products from herbal substances Comprehensive explorations of conventional formulations including issues of stability Practical discussions of advanced formulations including chronotherapeutic delivery systems liposome based delivery of phytoconstituents and nanoparticle mediated delivery of herbal actives Complete treatments of regulatory challenges including nonclinical characterization and documentation for marketing authorizations of herbal formulations Perfect for professionals working in the herbal drug natural product and dietary supplement industries *Formulating Pharma Nutra and Cosmeceutical Products from Herbal Substances* will also benefit academic researchers and graduate students studying herbal research cosmetics and pharmaceutical sciences

Quality Control and Evaluation of Herbal Drugs Pulok K. Mukherjee, 2019-05-30 *Quality Control and Evaluation of Herbal Drugs* brings together current thinking and practices for evaluation of natural products and traditional medicines The use of herbal medicine in therapeutics is on the rise in both developed and developing countries and this book facilitates the necessary development of quality standards for these medicines This book elucidates on various challenges and opportunities for quality evaluation of herbal drugs with several integrated approaches including metabolomics chemoprofiling marker analysis stability testing good practices for manufacturing clinical aspects

Ethnopharmacology and Ethnomedicine inspired drug development Written by Prof Pulok K Mukherjee a leader in this field the book highlights on various methods techniques and approaches for evaluating the purity quality safety and efficacy of herbal drugs Particular attention is paid to methods that assess these drugs activity the compounds responsible and their underlying mechanisms of action The book describes the quality control parameters followed in India and other countries including Japan China Bangladesh and other Asian countries as well as the regulatory profiles of the European Union and North America This book will be useful in bio prospecting of natural products and traditional medicine inspired drug discovery and development Provides new information on the research and development of natural remedies essential reading on the study and use of natural resources for preventative or healing purposes Brings together current thinking and practices in quality control and standardization of herbal drugs highlighting several integrated approaches for metabolomics chemo profiling and marker analysis Aids in developing knowledge of various techniques including macroscopy microscopy HPTLC HPLC LC MS MS GC MS etc with the development of integrated methods for evaluation of botanicals used in traditional medicine Assessment of herbal drugs through bio analytical techniques bioassay guided isolation enzyme inhibition pharmacological microbiological antiviral assays and safety related quality issues References global organizations such as the WHO USFDA CDSCO AYUSH TCM and others to serve as a comprehensive document for enforcement agencies NGOs and regulatory authorities

Crude Drugs of Unani Medicine Shaikh Ajj Ahmad Makbul, Shamim Irshad Azmi, Mohd. Sayeed Akhtar, 2025-10-14 This novel two volume compilation presents scientific knowledge pertaining to the utilization of crude drugs encompassing data on pharmacology and phytochemistry ethnomedical applications as well as the influence of adulterants and substitutes on human health for the prevention treatment and management of diseases Volume 1 Application and Utility for Human Welfare explores both the theoretical and practical aspects of potential medicinal plants and their bioactive compounds either used individually or in combination within drug formulations to combat a broad spectrum of chronic ailments such as skin diseases liver disorders musculoskeletal conditions reproductive system dysfunctions immunological aberrations and various other health issues Volume 2 Phytochemistry and Pharmacology Aspects provides a comprehensive understanding of the pharmacology phytochemistry and pharmacovigilance of medicinal plants utilized in the traditional Unani system of medicine It discusses the extensive range of possibilities presented by traditional medicine that enables the utilization of potential therapeutic agents in the form of standardized extracts in conjunction with other herbs or as isolated bioactive constituents These agents possess diverse properties such as antiparasitic antifungal antiviral antibacterial antioxidant and anticancer activities which can be utilized as drug treatments for various systemic disorders

Emerging Trends and Challenges in Biosciences Mr. Sanjeev Pandey, 2024-08-16 Explores recent innovations technological developments and key challenges in diverse fields of biosciences including molecular biology biotechnology and environmental biology

Plants as Sources for Novel Medicines Ameyatma Mahajan, 2025-01-03 Plants as Sources for Novel Medicines delves into the vital role plants play in providing essential resources for human well being Their unique metabolisms produce compounds beneficial to human health making them indispensable in drug development Many traditional methods of drug preparation use plant derived compounds for their remarkable healing properties Our book explores the various techniques used to produce drugs from plants highlighting the advancements in recent methods while emphasizing the need to protect endangered plant species We cover the different stages of drug preparation discussing the properties of plants and their application in modern medicine We also touch on the importance of botany and related fields in drug development illustrating how sophisticated methods in plant based drug preparation are transforming healthcare This book is an invaluable resource for understanding how plants contribute to developing novel medicines and improving human health

Profiles of Drug Substances, Excipients, and Related Methodology, 2024-02-29 Profiles of Drug Substances Excipients and Related Methodology Volume 49 provides timely and pertinent information on a variety of timely topics including Physical Profiles of Drug Substances and Excipients

Analytical Profiles of Drug Substances and Excipients ADME Profiles of Drug Substances and Excipients Methodology Related to the Characterization of Drug Substances and Excipients and Methods of Chemical Synthesis In addition it includes comprehensive profiles of five drug compounds Deferasirox Duvelisib Regorafenib Ponatinib and Avanafil Finally the book contains a chapter on Regulation and Standardization of Herbal Drugs Current status Limitation Challenge s and Future Prospectives Offers a comprehensive review of the biological chemical and physical characteristics of commonly prescribed medications Provides synthesis and pathways of physical or biological degradation of selected drug substances Presents the pharmacology of certain drug substances Describes nearly all analytical methods used to identify and quantify drug substances Pharmacognosy and Phytochemistry Mr. Ajeet Singh,2018-05-22 A comprehensive study of medicinal plants their bioactive compounds and extraction techniques

New Avenues in Drug Discovery and Bioactive Natural Products Raja Chakraborty,Saikat Sen,2023-08-01 New Avenues in Drug Discovery and Bioactive Natural Products is the second volume of the Natural Medicine book series It is devoted to current research in drug discovery from natural sources The volume features 13 chapters that cover modern analytical and scientific approaches The book starts with chapters on advanced analytical and research techniques such as genomic mining quality control of herbal drugs DNA fingerprinting high throughput screening molecular docking and extraction techniques The contributors provide a summary of challenges for researchers and commercial applications where possible The book also features chapters dedicated to specific medicinal agents that target a disease glycosides SARS CoV2 spike protein inhibitors and andrographolides The collection of important research topics in natural product chemistry aims to help the scholars and researchers in the scientific community that are involved in the extraction and development of new medicines **Himalayan Phytochemicals** Sumira Jan,Nazia

Abbas,2018-04-10 Himalayan Phytochemicals Sustainable Options for Sourcing and Developing Bioactive Compounds provides a detailed review of the important medicinal plants which have already been discovered in the Himalayan region outlining their discovery activity and underlying chemistry In addition it supports a global shift towards sustainable sourcing of natural products from delicate ecosystems Across the world environmental destruction and overharvesting of medicinal plants are reducing and destroying multiple important sources and potential leads before researchers have the chance to discover explore or synthesize them effectively By identifying this problem and discussing its impact on the Himalayan region Himalayan Phytochemicals Sustainable Options for Sourcing and Developing Bioactive Compounds frames the ongoing global struggle and highlights the key factors that must be considered and addressed when working with phytochemicals from endemic plant sources Reviews both well known and recently discovered plants of this region Highlights methods for phytochemical extraction and analysis Provides context to support a shift towards sustainable sourcing of natural products

Evidence-Based Validation of Herbal Medicine Pulok K. Mukherjee,2022-07-12 Evidence Based Validation of Herbal Medicines Translational Research on Botanicals brings together current thinking and practice in the characterization and

validation of natural products The book describes different approaches and techniques for evaluating the quality safety and efficacy of herbal medicine particularly methods to assess their activity and understand compounds responsible and their probable underlying mechanisms of action This book brings together the views expertise and experiences of scientific experts in the field of medicinal plant research hence it will be useful for researcher who want to know more about the natural lead with their validation and also useful to exploit traditional medicines Includes state of the art methods for detecting isolating and performing structure elucidation by degradation and spectroscopic techniques Highlights the trends in validation and value addition of herbal medicine with different scientific approaches used in therapeutics Contains several all new chapters on topics such as traditional medicine inspired drug development to treat emerging viral diseases medicinal plants in antimicrobial resistance TLC bio profiling botanicals as medicinal foods bioprospecting and bioassay guided isolation of medicinal plants immunomodulators from medicinal plants and more

Bioactive Phytochemicals: Drug Discovery to Product Development Javed Ahmad, Javed Ahamad, 2020-10-28 Natural bioactive compounds from medicinal plants are inexplicably diverse in chemical structure and biological properties The unmet therapeutic requirements for various diseases serve as a guide for researchers to study natural compounds These studies are intended to isolate identify the structural characterization and eventually discover the pharmacological activity of natural compounds from their plant sources with the goal of treating specific diseases Bioactive Phytochemicals Drug Discovery to Product Development explores the scope and approaches of drug discovery from natural products Chapters in the book cover information about the cultivation collection and processing of medicinal plants the methods and high throughput techniques for isolation and characterization of bioactive phytochemicals and pharmacological screening for activity formulation and quality control Information about the regulations specified for natural medicinal products in different region of the world is also presented followed by a concluding chapter devoted to the role of natural herbal products for treatment of human diseases such as cancer cardiovascular diseases diabetes obesity inflammation and neurological disorders Each chapter concludes with a general reference section which is a bibliographic guide to more advanced texts The contributing authors for this volume are drawn from a rich blend of experts in various areas of herbal medicine which encompass herbal drug discovery to product development The concise and organized layout along with a broad coverage of phytochemistry and drug discovery makes this book a suitable reference for students of medicinal chemistry researchers and industry professionals interested in herbal product development

Integrated Pathy Acharya Balkrishna, 2025-04-01 Integrated Pathy Re envisioning Healthcare and Wellness Using India as a Case Study brings together the best holistic treatments tailored to improve patient care The book focuses on health and healing rather than disease and treatment Instead of following the fragmented approach of modern and contemporary line or more specifically the allopathic regime of treatments the book views patients as a complete entity inclusive of minds spirits and bodies and includes these dimensions in diagnosis and treatment to provide a custom healing
