Accounting For Managers:

Accounting for Managers Bergevin/Macqueen, Peter M. Bergevin, 2010 Peter M Bergevin and Michael M MacQueen's objective in writing Accounting for Managers is to make students and professionals informed users of accounting data. They believe in getting to the point and demonstrating the practical benefits of accounting. In other words, their book is the anti-textbook. It reflects the authors' educational and life philosophy: get to the point and do something about it. Improve your decision-making abilities and climb the corporate ladder. Accounting for Managers enables you to unleash the power of financial information in order to improve your ability to conduct business operations, make shrewd investments, and secure needed financing. Unlike stuffy treatments of accounting, Accounting for Managers clearly and concisely provides you with the needed financial information necessary to make the right choices at the right time. Accounting for Managers seamlessly integrates accounting theory with practice. Its information, insights, and lessons will help you to convert business challenges into professional accomplishments. This superb treatment of the Language of Business will reside on your desk through the years as your professional successes mount. Accounting for Managers is an ideal text for managerial accounting courses in MBA programs. It is especially suitable to online accelerated and executive programs. **Managerial Accounting for Managers** Eric W. Noreen, Peter C. Brewer, Ray H. Garrison, 2016 **Managerial Accounting for Managers** Eric Noreen, Peter Brewer, Ray Garrison, 2007-11-12 Managerial Accounting for Managers 1e by Noreen Brewer Garrison is based on the market-leading text Managerial Accounting by Garrison Noreen and Brewer. The Noreen book was created to serve customers who do not wish to teach the financial accounting-oriented content that is included in the Garrison book. Of our three books, the Brewer book, the Garrison book, and the Noreen book, the Noreen book is the most pure management accounting textbook. The other two books have greater amounts of financial accounting content. N B G 1e is geared towards professors who love Garrison's market-leading managerial accounting content but have been bothered by the debits and credits included in the book. It includes the same great coverage of managerial accounting topics such as Relevant Costs for Decision Making, Capital Budgeting Decisions, and Segment Reporting and Decentralization without the journal entries. The job order costing chapter has been extensively rewritten to remove all journal entries. There is not one journal entry included in the entire book. Furthermore, the chapters dealing with process costing, the statement of cash flows, and financial statement analysis have been dropped to enable professors to focus their attention on the bedrocks of managerial accounting: planning, control, and decision making. It is important to emphasize that the same great content from Garrison is included in Noreen. More specifically, the following chapters and appendices are exactly the same in the two books: **Accounting for Managers** John J. Glynn, John Perrin, Michael P. Murphy, 1994-01-01 Explains and analyzes the broad area of accounting and financial management, providing an understanding of the concepts and methods used by accountants.
