Special Advocates in the Adversarial System John Jackson,2019-07-24 The last twenty years have seen an unprecedented rise in the use of secret courts or closed material proceedings largely brought about in response to the need to protect intelligence sources in the fight against terrorism This has called into question the commitment of legal systems to long cherished principles of adversarial justice and due process Foremost among the measures designed to minimise the prejudice caused to parties who have been excluded from such proceedings has been the use of special advocates who are given access to sensitive national security material and can make representations to the court on behalf of excluded parties Special advocates are now deployed across a range of administrative civil and criminal proceedings in many common law jurisdictions including the UK Canada New Zealand Hong Kong and Australia This book analyses the professional services special advocates offer across a range of different types of closed proceedings Drawing on extensive interviews with special advocates and with lawyers and judges who have worked with them the book examines the manner in which special advocates are appointed and supported how their position differs from that of ordinary counsel within the adversarial system and the challenges they face in the work that they do Comparisons are made between different special advocate systems and with other models of security cleared counsel

including that used in the United States to consider what changes might be made to strengthen their adversarial role in closed proceedings In making an assessment of the future of special advocacy the book argues that there is a need to reconceptualise the unique role that special advocates play in the administration of justice *The New Law of Peaceful Protest* David Mead, 2010-04-06 The right to demonstrate is considered fundamental to any democratic system of government yet in recent years it has received little academic attention However events following the recent G20 protests in April 2009 make this a particularly timely work Setting out and explaining in detail the domestic legal framework that surrounds the right of peaceful protest the book provides the first extensive analysis of the Strasbourg jurisprudence under Articles 10 and 11 of the European Convention on Human Rights offering a critical look at recent cases such as *Ilginer Vajnai Bukta Oya Ataman Patyi and Ziliberberg* as well as the older cases that form its bedrock The principles drawn from this case law are then synthesised into the remainder of the book to see how the right of protest enshrined in the Human Rights Act 1998 now operates The five central chapters show how the right is defined the restrictions on the choice of location of a protest the constraints imposed on peaceful persuasive protest the near total intolerance of any form of obstructive or disruptive protest the scope of preventive action by the police and the extent to which commercial targets can avail themselves of private law remedies This contemporary landscape is highlighted by critical analysis of the principles and case law including the leading decisions in *Laporte* *Austin Jones and Lloyd* and *Kay* The book also highlights and develops themes that are currently under theorised or ignored including the interplay of the public and the private in regulating protest the pivotal role played by land ownership rules and the disjuncture between the law in the books and the law in action While the book will appeal primarily to scholars students and practitioners of law as well as to campaigners and interest groups it also offers political and socio legal insights which will be of interest equally to non specialists *Empty Justice* Melanie Williams, 2013-03-04 Utilising literature as a serious source of challenges to questions in philosophy and law this book provides a fresh perspective not only upon the inculcation of the legal subject but also upon the relationship between modernism postmodernism and how such concepts might evolve in the construction of community ethics The creation and role of the legal subject is just one aspect of jurisprudential enquiry now attracting much attention How do moral values act upon the subject How do moral systems impinge upon the subject jurist and judged throughout the 20th century when religious values are called into question when existential doubt prevails To what extent do issues of gender and identity inform these questions Many sources can provide insights into these issues this book intends to concentrate upon fiction as just such a resource However it is not just another law and literature compilation Spanning the last century each chapter will attempt to fulfil four objectives to identify key texts in relation to a given period to look for linked legal and philosophical developments from that period to establish fresh links from these sources regarding concrete doctrinal or practical legal questions and finally draw a more general inference about the legal subject and the frequently less evident feminine citizen subject Central to this approach will be the

consideration of contemporary case law and legal materials as social documents of the relationship between law and the wider community

Scrutiny of arms export controls (2012) Great Britain: Parliament: House of Commons: Business, Innovation and Skills Committee, 2012-07-13 The Committees on Arms Export Controls CAEC believe that the Government should apply significantly more cautious judgements on the export of arms to authoritarian regimes which might be used for internal repression The Committees have scrutinised in unprecedented detail the Government's latest 2010 Annual Report on Strategic Export Controls HC 1402 session 2011 12 ISBN 9780102973662 the Government's quarterly information on individual export licence approvals and refusals and the Government's policies and performance on arms export controls and on arms control generally The Committees conclude that the Government's review of its policies and practices on arms exports following the Arab Spring should not have been carried out merely as an internal review and should instead have been the subject of public consultation in accordance with the Government's stated policy of transparency on arms exports And whilst the Government's introduction of a new licence suspension mechanism is

welcome this is not sufficient to ensure that arms exported are not used for internal repression overseas because in many cases the arms will have left the UK before suspension occurs The Government should extend its arms export policy review from countries in the Middle East and North Africa to authoritarian regimes and countries of human rights concern worldwide Annex 7 of the report gives selected arms export licence approvals by the Government to countries of human rights concern and the report also contains details of the extant UK Government approved arms export licences to Argentina Bahrain Egypt Libya Saudi Arabia Syria Tunisia and Yemen The Right to Confrontation in Europe Stefano Maffei,2012 Investigates the theory and practice of the Right to Confrontation and the right of an accused person to examine witnesses against him This book tackles the question of what values and interests should allow incursions into this fundamental right A conceptual analysis is developed in order to define the concept of testimonial evidence **Corporate Manslaughter in the Maritime and Aviation Industries** Simon Daniels,2016-08-12 This book provides expert analysis of the application of the evolving law in Corporate Manslaughter as it relates to the Maritime and Aviation industries It will prove to be a useful tool for practitioners and students in this specialised area as well as those working in the maritime and aviation industries such as those who will be accountable under the Corporate Manslaughter Act 2007 the Masters and Pilots who manage the risks and the insurers who underwrite the cost of the risks The author will discuss areas such as The liability towards passengers and employees The Prosecution of offenders Comparative analysis of corporate manslaughter in the wider global industry

Principles of Evidence in International Criminal Justice Karim A. A. Khan,Caroline Buisman,Christopher Gosnell,2010 Principles of Evidence in International Criminal Justice provides an overview of the procedure and practice concerning the admission and evaluation of evidence before the international criminal tribunals The book is both descriptive and critical and its emphasis is on day to day practice drawing on the experience of the Yugoslavia Rwanda and Sierra Leone Tribunals This book is an attempt to define and explain the core principles and rules that have developed at those ad hoc Tribunals the rationale and origin of those rules and to assess the suitability of those rules in the particular context of the International Criminal Court which is still at its early stages The ICC differs in structure from the ad hoc Tribunals and approaches the legal issues it has to resolve differently from its predecessors The ICC is however confronted with many of the same questions The book examines the differences between the ad hoc Tribunals and the ICC and seeks to offer insights as to how and in which circumstances the principles established over years of practice at the ICTY ICTR and SCSL may serve as guidance to the ICC practitioners of today and the future The contributors represent a cross section of the practising international criminal bar drawn from the ranks of the Bench the Prosecution and the Defence and bringing with them different legal domestic cultures Their mixed background underlines the recurring theme in this book which is the manner in which a legal culture has gradually taken shape in the international Tribunals drawing on the various traditions and experiences of its participants How the Law Works Gary Slapper,2013-12-17 How the Law Works is a refreshingly clear
