Berkeley Modern Revivals In Philosophy:

An Indian Tantric Tradition and Its Modern Global Revival D.E. Osto, 2020-03-06 This book analyzes the contemporary global revival of Nondual aivism a thousand year old medieval Hindu religious philosophy Providing a historical overview of the seminal people and groups responsible for the revival the book compares the tradition s medieval Indian origins to modern forms which are situated within distinctively contemporary religious economic and technological contexts The author bridges the current gap in the literature between insider emic and outsider etic perspectives by examining modern Nondual aivism from multiple standpoints as both a critical scholar of religion and an empathetic participant observer The book explores modern Nondual aivism in relation to recent scholarly debates concerning the legitimacy of New Age consumptive spirituality the global spiritual marketplace and the contemporary culture of narcissism It also analyzes the dark side of the revived tradition and investigates contemporary teachers accused of sexual abuse and illegal financial activities in relation to unique features of Nondual aivism s theosophy and modern scholarship on new religious movements NRMs and cults This book shows that although Kashmir aivism has been adopted by certain teachers and groups to market their own brand of High Tantra some contemporary practitioners have remained true to the system s fundamental tenets and teach authentic albeit modern forms of Nondual aivism This book will be of interest to academics in the fields of religion and Asian philosophies especially South Asian tantric neo tantric and yoga philosophies alternative and New Age spiritualities religion and consumerism and NRMs and cults Winner of the inaugural 2021 New Zealand Asia Society Book Award second prize

Berkeley Geoffrey James Warnock, 1992 Berkeley is one of the most influential and yet most misunderstood of 18th century philosophers In this new revised edition of his classic introduction G J Warnock examines all Berkeley s major philosophical works and discusses his most original and interesting contributions to questions still debated by philosophers today The aim of the book is to help the reader learn not so much about Berkeley but rather through Berkeley something about philosophy itself

Contemporary East Asia and the Confucian Revival Jana S. Rošker, Nataša Visočnik, 2015-10-28 The so called Confucian revival which came to prominence at the end of the twentieth century and which is manifested in the philosophical stream of Modern Confucianism is one of the most significant elements within new Asian modernisation ideologies By providing new insights into the culturally conditioned structure of Asian societies this book contributes to the improvement of political economic and cultural relations between Western and East Asian countries Most classical Western modernisation theories have assumed that Confucianism would have to be abandoned if East Asia wanted to dev

Idealism Hector Davidson, Idealism as a philosophical doctrine holds that the mind and its ideas are the primary reality shaping the material

world rather than being shaped by it This perspective challenges the materialist viewpoint that places physical matter at the foundation of existence From ancient Greek philosophy to modern quantum theories idealism has provided a profound framework for understanding reality perception and consciousness Throughout history idealism has offered a lens through which thinkers could explore the mysteries of existence Plato s theory of forms for instance posited that the tangible world is a shadow of a higher more real world of ideas Similarly German idealists such as Immanuel Kant Johann Gottlieb Fichte and Georg Wilhelm Friedrich Hegel expanded on these concepts arguing that human perception actively constructs reality These ideas have not only shaped philosophy but have also influenced disciplines ranging from art to science At its core idealism raises fundamental questions about the nature of reality Is the external world independent of our consciousness or does it exist only as a construct of the mind Idealism asserts that our understanding of the universe is intrinsically tied to our subjective experiences emphasizing that thought and consciousness are the building blocks of reality This contrasts sharply with materialism which contends that physical matter exists independently and is the source of all mental phenomena

Buddhism in Contemporary Tibet: Religious Revival and Cultural Identity Melvyn C. Goldstein,Matthew Kapstein,1999 Following the upheavals of the Cultural Revolution the People s Republic of China gradually permitted the renewal of religious activity Tibetans whose traditional religious and cultural institutions had been decimated during the preceding two decades took advantage of the decisions of 1978 to begin a Buddhist renewal that is one of the most extensive and dramatic examples of religious revitalization in contemporary China The nature of that revival is the focus of this book

The Revival of Pragmatism Morris Dickstein, 1998-11-23 Although long considered the most distinctive American contribution to philosophy pragmatism with its problem solving emphasis and its contingent view of truth lost popularity in mid century after the advent of World War II the horror of the Holocaust and the dawning of the Cold War Since the 1960s however pragmatism in many guises has again gained prominence finding congenial places to flourish within growing intellectual movements This volume of new essays brings together leading philosophers historians legal scholars social thinkers and literary critics to examine the far reaching effects of this revival As the twenty five intellectuals who take part in this discussion show pragmatism has become a complex terrain on which a rich variety of contemporary debates have been played out Contributors such as Richard Rorty Stanley Cavell Nancy Fraser Robert Westbrook Hilary Putnam and Morris Dickstein trace pragmatism's cultural and intellectual evolution consider its connection to democracy and discuss its complex relationship to the work of Emerson Nietzsche and Wittgenstein They show the influence of pragmatism on black intellectuals such as W E B Du Bois explore its view of poetic language and debate its effects on social science history and jurisprudence Also including essays by critics of the revival such as Alan Wolfe and John Patrick Diggins the volume concludes with a response to the whole collection from Stanley Fish Including an extensive bibliography this interdisciplinary work provides an in depth and broadly gauged introduction to pragmatism one that will be crucial for understanding the shape of the transformations taking place in the American social and philosophical scene at the end of the twentieth century Contributors Richard Bernstein David Bromwich Ray Carney Stanley Cavell Morris Dickstein John Patrick Diggins Stanley Fish Nancy Fraser Thomas C Grey Giles Gunn Hans Joas James T Kloppenberg David Luban Louis Menand Sidney Morgenbesser Richard Poirier Richard A Posner Ross Posnock Hilary Putnam Ruth Anna Putnam Richard Rorty Michel Rosenfeld Richard H Weisberg Robert B Westbrook Alan Wolfe The Principles of Psychology William James, 1918

, 2009 **Heidegger and Kabbalah** Elliot R. Wolfson, 2019-10-01 While many scholars have noted Martin Heidegger's indebtedness to Christian mystical sources as well as his affinity with Taoism and Buddhism Elliot R Wolfson expands connections between Heidegger's thought and kabbalistic material By arguing that the Jewish esoteric tradition impacted Heidegger Wolfson presents an alternative way of understanding the history of Western philosophy Wolfson's comparison between Heidegger and kabbalah sheds light on key concepts such as hermeneutics temporality language and being and nothingness while yielding surprising reflections on their common philosophical ground Given Heidegger's involvement with

National Socialism and his use of antisemitic language these innovative readings are all the more remarkable for their juxtaposition of incongruent fields of discourse Wolfson's entanglement with Heidegger and kabbalah not only enhances understandings of both but more profoundly serves as an ethical corrective to their respective ethnocentrism and essentialism Wolfson masterfully illustrates the redemptive capacity of thought to illuminate common ground in seemingly disparate philosophical traditions *Differentiating the Pearl from the Fish-Eye: Ouyang Jingwu and the Revival of Scholastic Buddhism* Eyal Aviv, 2020-08-17 In *Differentiating the Pearl from the Fish Eye* Eyal Aviv offers an account of Ouyang Jingwu 1871-1943 a leading intellectual who revived the Buddhist scholastic movement during the early Republican period in China Ouyang believed that authentic Indian Buddhism was an alternative to the prevalent Chinese Buddhist doctrines of his time Aviv shows how Ouyang's rhetoric of authenticity won the movement well known admirers but also influential critics This debate shaped modern intellectual history in China and has lost none of its relevancy today
