Das Manifest Der 60:

Crossing Boundaries Larry Jones, 2001-10 Jones history Canisius College Buffalo NY introduces crossing borders as a metaphor for challenging racial geo political and disciplinary divides In 13 papers originally delivered at a namesake 1998 U of Buffalo conference honoring German Jewish refugee historian G Iggers US and German academics explore the leitmotifs of migration ethnicity and minorities in public policy in Germany and the US the struggle for civil rights in both countries new perspectives on the experiences of Jewish refugees from Germany and reflections on difference and equality in

historiography with a contribution by Iggers Lacks an index c Book News Inc **The Language of Human Rights in West**

Germany Lora Wildenthal, 2012-10-15 Human rights language is abstract and ahistorical because advocates intend human rights to be valid at all times and places Yet the abstract universality of human rights discourse is a problem for historians who seek to understand language in a particular time and place Lora Wildenthal explores the tension between the universal and the historically specific by examining the language of human rights in West Germany between World War II and unification In the aftermath of Nazism genocide and Allied occupation and amid Cold War and national division West Germans were especially obliged to confront issues of rights and international law The Language of Human Rights in West Germany traces the four most important purposes for which West Germans invoked human rights after World War II Some human rights organizations and advocates sought to critically examine the Nazi past as a form of basic rights education Others developed arguments for the rights of Germans especially expellees who were victims of the Allies At the same time human rights were construed in opposition to communism especially with regard to East Germany In the 1970s several movements emerged to mobilize human rights on behalf of foreigners both far away and inside West Germany Wildenthal demonstrates that the language of human rights advocates no matter how international its focus can be understood more fully when situated in its domestic political context **After Unity** Konrad Hugo Jarausch, 1997 In order to probe this new uncertainty and to explore the consequences of unification for German politics history and culture political scientists

historians and literary scholars have come together in this volume to focus on the main issues of the current debate such as the shadow of the Nazi past the threat of xenophobia new regional tensions persistent problems of gender relations and the future shape of Europe Public Attitudes Toward Immigration in the United States, France, and Germany Joel S.

Fetzer, 2000-09-04 This book explores the causes of public opposition to immigration in three industrialized Western countries **Immigration and Social Systems** Christina Boswell, Gianni D'Amato, 2012-08-01 Michael Bommes 1954 2010

was one the most brilliant and original scholars of migration studies in the twentieth and twenty first centuries This posthumously published collection brings together a selection of his most important essays on immigration transnationalism irregular migration and migrant networks In Bommes the academy lost a scholar with penetrating analyses of migration the welfare state and social systems where the two interact By completing his last project Boswell and D Amato have done

scholarship a lasting service A major contribution to public debate and a tribute to a very great man Randall Hansen University of Toronto

Becoming Multicultural Triadafilos Triadafilopoulos, 2012-04-25 In a world of nation states international migration raises questions of membership Should foreigners be admitted to the national space And should they and their children be granted citizenship Canada and Germany s responses to these questions during the first half of the twentieth century consisted of discriminatory immigration and citizenship policies aimed at harnessing migration for economic ends while minimizing its costs Yet by the end of the century the admission settlement and incorporation of previously excluded groups had transformed both countries into highly diverse multicultural societies *Becoming Multicultural* explains how this remarkable shift came about Triadafilopoulos argues that dramatic changes in global norms after the Second World War made the maintenance of established membership regimes difficult to defend opening the way for the liberalization of immigration and citizenship policies It is a thought provoking analysis that sheds light on the dynamics of membership politics and policy making in contemporary liberal democratic countries

Germany in Transit Deniz Göktürk, David Gramling, Anton Kaes, 2007-04-03 How does migration change a nation *Germany in Transit* is the first sourcebook to illuminate the country s transition into a multiethnic society from the arrival of the first guest workers in the mid 1950s to the most recent reforms in immigration and citizenship law The book charts the highly contentious debates about migrant labor human rights multiculturalism and globalization that have unfolded in Germany over the past fifty years debates that resonate far beyond national borders This cultural history in documents offers a rich archive for the comparative study of modern Germany against the backdrop of European integration transnational migration and the fall of the Berlin Wall Divided into eleven thematic chapters *Germany in Transit* includes 200 original texts in English translation as well as a historical introduction chronology glossary bibliography and filmography

Migration Past, Migration Future Klaus J. Bade, Myron Weiner, 2001-08-01 The United States is an immigrant country Germany is not This volume shatters this widely held myth and reveals the remarkable similarities as well as the differences between the two countries Essays by leading German and American historians and demographers describe how these two countries have become to have the largest number of immigrants among advanced industrial countries how their conceptions of citizenship and nationality differ and how their ethnic compositions are likely to be transformed in the next century as a consequence of migration fertility trends citizenship and naturalization laws and public attitudes

Immigration and the Nation-state Christian Joppke, 1999 In this important and timely new study Professor Joppke compares the postwar politics of immigration control and immigrant integration in the United States Germany and Britain three liberal states characterized by sharply distinct nationhood traditions and immigration experiences Mapping out the many variations between these cases the book focuses on the impact of immigration in the two key areas of sovereignty and citizenship In Part 1 the author analyses the effect of immigration control on state sovereignty arguing that liberal states are self limited by interest group pluralism autonomous legal systems

and moral obligations toward particular immigrant groups the weight of these factors differing across particular cases In Part 2 he addresses the ways in which immigrant integration impacts upon citizenship arguing for the continuing relevance of national citizenship for incorporating immigrants albeit modified by nationally distinct schemes of multiculturalism In the face of current diagnoses of nation states weakened by the external forces of globalization and international human rights regimes and discourses Professor Joppke demonstrates that in relation to immigration at least nation states have proved remarkably resilient Not only does this book offer an thorough insightful examination of the immigration experiences of the USA Germany and Britain it also makes a powerful contribution to the growing macro sociological and political science literature on immigration citizenship and the nation state

Roseman, Hans-Dieter Laux, Günter Thieme, 1996 Urban ethnic groups frequently are confronted by residential segregation discrimination xenophobia and conflict However ethnic diversity has also enriched the urban scene with a variety of languages religions businesses and cultural activities In this volume distinguished scholars present analyses of ethnic population change in twelve urban areas Chicago Los Angeles Sydney Melbourne Paris London Amsterdam the Ruhr conurbation Vienna Milan Madrid Johannesburg Durban and Singapore EthniCity reveals fundamental commonalities in ethnic community dynamics as well as significant differences from place to place It will be important for scholars and students of human geography sociology anthropology and history

Networking Europe Eberhard Bort, Neil Evans, 2000-01-01 From 1991 an annual symposium at Freudenstadt in Germany has explored issues in the European regions This representative collection of papers presented offers a view of the future of the EU which stresses the need for more democracy and for a conception of Europe that emphasizes its diversity

Handbücher zur Sprach- und Kommunikationswissenschaft Hans Goebel, Herbert Ernst Wiegand, 1996 *People in Transit* Dirk Hoerder, Jürg

Nagler,2002-08-22 The demographic shockwaves of the nineteenth and early twentieth centuries in Europe produced tremendous change in the national economies and affected the political social and cultural development of these societies Migration historians have begun to connect the various European migratory streams during this period with transcontinental migration to North America This volume contains empirical studies on German in migration internal migration and transatlantic emigration from the 1820s to the 1930s placed in a comparative perspective of Polish Swedish and Irish migration to North America Special emphasis is placed on the role of women in the process of migration By looking specifically at postwar Germany Klaus J Bade underscores the relevance of this history in a concluding essay

Österreichisches Staatswörterbuch Ernst Mischler,1909 **European Citizenship--in the Process of**

Construction Ditta Dolejšiová,Miguel Angel García López,Youth Partnership (Organization),Council of Europe,European Commission,2009-01-01 European citizenship is still a contested concept bringing together two notions and therefore two different debates one around Europe and European identity And The other related to citizenship and non citizenship Europe In an ongoing process of construction should be shaped and defined by its citizens Young people in particular have a special interest in and concern about what kind of Europe they want to live in it is therefore important to reflect on how European citizenship and debates around European identity could help and empower young people to actively contribute to building Europe The essays collected here address this issue They present the debates and findings of the research seminar entitled Young People and Active European Citizenship organised by the Youth Partnership between the Council of Europe And The European Commission European citizenship remains one of the main priorities of this partnership Religion and Politics in Comparative Perspective Ted Gerard Jelen,Clyde Wilcox,2002-04-01 Religion is resurgent across the globe In many countries religion is a powerful source of political mobilization and in some a potent social cleavage In some religion reinforces the state in others it provides the space for resistance This book contains a series of detailed studies examining religion and politics in specific countries or regions The cases include countries with one dominant religious tradition and others with two or more competing traditions They include Catholicism Protestantism Islam Hinduism Shinto and Buddhism They include states where religion and politics are closely linked and others with at least a low wall of separation between church and state The cases are organized by the type of religious marketplace but allow many other comparisons as well We develop some generalizations from the cases and hope that they will be a fertile source of theorizing for others **Migration, Citizenship, and the European Welfare State** Carl-Ulrik Schierup,Peo Hansen,Stephen Castles,2006-03-16 This book provides a major new examination of the current dilemmas of liberal anti racist policies in European societies linking two discourses that are normally quite separate in social science immigration and ethnic relations research on the one hand and the political economy of the welfare state on the other The authors rephrase Gunnar Myrdal s questions in An American Dilemma with reference to Europe s current dual crisis that of the established welfare statefacing a declining capacity to

maintain equity and that of the nation state unable to accommodate incremental ethnic diversity They compare developments across the European Union with the contemporary US experience of poverty race and class They highlight the major moral political dilemma emerging across the EU out of the discord between declared ideals of citizenship and actual exclusion from civil political and social rights Pursuing this overall European predicament the authors provide a critical scrutiny of the EU's growing policy involvement in the fields of international migration integration discrimination and racism They relate current policy issues to overall processes of economic integration and efforts to develop a European social dimension Drawing on case study analysis of migration the changing welfare state and labour markets in the UK Germany Italy and Sweden the book charts the immense variety of Europe's social and political landscape Trends of divergence and convergence between single countries are related to the European Union's emerging policies for diversity and social inclusion It is among other things the plurality of national histories and contemporary trajectories that makes the European Union's predicament of migration welfare and citizenship different from the American experience These reasons also account in part for why it is exceedingly difficult to advance concerted and consistent approaches to one of the most pressing policy issues of our time Very few of the existing sociological texts which compare different European societies on specific topics are accessible to a broad range of scholars and students The European Societies series will help to fill this gap in the literature and attempt to answer questions such as Is there really such a thing as a European model of society Do the economic and political integration processes of the European Union also imply convergence in more general aspects of social life such as family or religious behaviour What do the societies of Western Europe have in common with those further to the East This series will cover the main social institutions although not every author will cover the full range of European countries As well as surveying existing knowledge in a manner useful to students each book will also seek to contribute to our growing knowledge of what remains in many respects a sociologically unknown continent The series editor is Colin Crouch

Dialogues on Migration

Policy Marco Giugni, Florence Passy, 2006-01-01 Dialogues on Migration Policy brings together leading American and European scholars of immigration politics to address migration policy Editors Marco Giugni and Florence Passy's aim to present a number of informed dialogues addressing three main theoretical concerns in this field the role of the national state in a globalizing world the determinants of policy change and the role of collective interests in migration policy Adopting an unconventional format the novelty of Dialogues on Migration Policy lies in the fact that it is structured around a series of debates among authors In each debate expert contributors working in different theoretical traditions and with divergent views on the subject matter confront each other followed by a commentary from a leading scholar based on her/his reading of these authors' views These lively debates are certain to engage scholars of migration political science and sociology

Integrating Immigrants in Europe Peter Scholten, Han Entzinger, Rinus Penninx, Stijn Verbeek, 2015-06-02 This open access book explores how research and policymaking in the field of migrant integration have developed historically and how

this interrelationship plays out in the strongly politicised climate of opinions on migration in Europe. It features interdisciplinary theoretical contributions as well as original empirical studies on research policy dialogues at both the EU and country level. The chapters study not only how the dialogue between research and policy is structured such as advisory bodies, research agencies and ad hoc committees but also how these dialogues affect policymaking and the development of migrant integration research itself as well. The analysis reveals profound changes in the dialogue structures associated with the research policy nexus in the domain of migrant integration. On the one hand, dialogue structures have become more ad hoc, often established in response to distinct political events or to specific problems. On the other, politicisation has not thwarted all efforts to develop more institutionalised dialogue structures between producers and users of knowledge. In addition, research has contributed to policymaking in very different ways in various European countries. This edited volume is unique in this effort to reflect on the impact of research policy dialogues both on the development of migrant integration policies as well as on migrant integration research. It will be of importance to scholars in this field as well as to policymakers and other stakeholders involved in migrant integration policymaking.
