Germany After my father's death my mother spent many winters with my husband and I here in Florida During these visits she and I transcribed my father's World War II diaries into German from the old Gabelsberger shorthand which only Mama was able to read Subsequently I translated them into English These diaries fortunately were discovered by my sister Sigrid in the attic upon the sale of the old family home after my father's passing in 1989 She felt Mama and I should translate these books for the family At a later point many friends and acquaintances encouraged me to publish this diary to document his thoughts experiences and innermost feelings from the beginning of his conscripted military service in 1939 through 1946 when he returned home after being released from a French POW labor camp During the latter part of 1946 and into 1947 an epilog describes his daily struggles to return to normalcy the resumption of his teaching career and the search for food to feed his family He describes his touching love for his family as well as his anger and hatred for the insane war and its inept leaders A war he was forced to participate in as an ordinary German soldier Many times he naively commented very unfavorably sometimes using choice words about Hitler the Nazi Party and his superiors a risk if found out could have cost him his life I myself have many memories of the war and its horrors as a little girl without a father spending night after night in a bunker the liberation of our small town by the Americans This has left deep and lasting impressions on me Later on I met a wonderful American with whom I fell in love and married with my father proudly walking me down the aisle This in spite of the resentment he held against Americans for shamefully turning him over to the French as a forced labor POW I remember his sadness when his little Murschel as he used to call me left for America with his conviction that if he was lucky he may be able to see me only once more during his lifetime However he was able to enjoy many trips to the United States and I with my family visited my parents often in Germany After reading his legacy I knew I have my beloved father's permission to share his writings with others and by doing so honor his memory **Army-Navy-Air Force Register and Defense Times** ,1906

from the U.S. Study of Education in Japan ,1987 The Cost-Effectiveness of 22 Approaches for Raising Student Achievement Stuart S. Yeh, 2011-03-01 As a consequence of the federal No Child Left Behind NCLB law there is tremendous pressure on school principals teachers school superintendents district staff state departments of education and governors to maximize the increase in student achievement that is obtained with every dollar of expenditure Currently teachers are forced to rely on extremely inefficient approaches that take enormous amounts of time both during the school day and throughout the K 12 learning years This is experienced in terms of the reduced time that is available to teach subjects other than math and reading as schools resort to double periods of math double periods of reading and enormous amounts of remedial instruction that directly reduce the time available for other subjects including science art and music In contrast this book suggests that student achievement may be increased in a way that is not only cost effective in dollar terms but efficient in the sense that it does not rely on unusual investments in the time required to obtain results The book draws upon a wealth of cost effectiveness data to dispel common notions about what works in addressing the achievement gap increased expenditure per pupil charter schools voucher programs increased educational accountability class size reduction comprehensive school reform increased teacher salaries more selective teacher recruitment the use of value added methods to measure and reward teacher performance the use of National Board teacher certification to identify high performing teachers and a host of other approaches
