Gomes,2020-08-07 Society can be fun and good but it can be a bit cynical With its different communities and organization and races Because although the law says we are to be treated the same our skin color gets in the way of that Although people try their hardest to make society as adaptable to all blindly it still holds discrimination on its corners We can try and shake it off but the residue remains from generations after generations We would not have societies that we have today full of cultures but unfortunately we still have the pain the scars and the bloody shadows of the past lurking over our shoulders Its bittersweet but also mind boggling The younger generations will continue to create new paths but also need the wisdom of the older generations because it seems like the younger generations tend to go astray But the younger generations need to be wise when learning the old ways that they do not learn the negatives such as racism and prejudice This book gives an insight on how societal problems can affect families in this nation Handbook of Multicultural Perspectives on Stress and Coping Paul T.
