Architecture and Urbanization of Colonial Central America Sidney David Markman, 1995 **Architecture and Urbanization of Colonial Central America: Selected primary documentary and literary sources** Sidney David Markman, 1993 Volume I is a compendium of data from the former Reino de Guatemala prior to independence from Spain Documentation from archives in Seville Madrid 602 965 5127 *Architecture and Urbanization of Colonial Central America : Primary Documentary and Literary Sources* ,1993 *Natives, Europeans, and Africans in Sixteenth-Century Santiago de Guatemala* Robinson A. Herrera, 2010-01-01 The first century of Spanish colonization in Latin America witnessed the birth of cities that while secondary to great metropolitan centers such as Mexico City and Lima became important hubs for regional commerce Santiago de Guatemala the colonial capital of Central America was one of these A multiethnic and multicultural city from its beginning Santiago grew into a vigorous trading center for agrarian goods such as cacao and cattle hides With the wealth this commerce generated Spaniards natives and African slaves built a city that any European of the period would have found familiar This book provides a more complete picture of society culture and economy in sixteenth century Santiago de Guatemala than has ever before been drawn Robinson Herrera uses previously unstudied primary sources including testaments promissory notes and work contracts to recreate the lives and economic activities of the non elite sectors of society including natives African slaves economically marginal Europeans and people of mixed descent His focus on these groups sheds light on the functioning of the economy at the lower levels and reveals how people of different ethnic groups formed alliances to create a vibrant local and regional economy based on credit This portrait of Santiago also increases our understanding of how secondary Spanish American cities contributed vitally to the growth of the colonies **Indian Conquistadors** Laura E. Matthew, Michel R. Oudijk, 2014-02-13 The conquest of the New World would hardly have been possible if the invading Spaniards had not allied themselves with the indigenous population This book takes into account the role of native peoples as active agents in the Conquest through a review of new sources and more careful analysis of known but under studied materials that demonstrate the overwhelming importance of native allies in both conquest and colonial control In *Indian Conquistadors* leading scholars offer the most comprehensive look to date at native participation in the conquest of Mesoamerica The contributors examine pictorial archaeological and documentary evidence spanning three centuries including little known eyewitness accounts from both Spanish and native documents paintings lienzos and maps mapas from the colonial period and a new assessment of imperialism in the region before the Spanish arrival This new research shows that the Tlaxcalans the most famous allies of the Spanish were far from alone Not only did native lords throughout Mesoamerica supply arms troops and tactical guidance but tens of thousands of warriors Nahuas Mixtecs Zapotecs Mayas and others spread throughout the region to participate with the Spanish in a common cause By offering a more balanced account of this dramatic period this book calls into question traditional narratives that emphasize indigenous

peoples roles as auxiliaries rather than as conquistadors in their own right Enhanced with twelve maps and more than forty illustrations Indian Conquistadors opens a vital new line of research and challenges our understanding of this important era
