40 Architects Under 40:

New Architecture and Technology Gyula Sebestyen, Christopher Pollington, 2007-06-07 Many books have covered the topics of architecture materials and technology New Architecture and Technology is the first to explore the interrelation between these three subjects It illustrates the impact of modern technology and materials on architecture The book explores the technical progress of building showing how developments both past and present are influenced by design methods It provides a survey of contemporary architecture as affected by construction technology It also explores aspects of building technology within the context of general industrial social and economic developments The reader will acquire a vocabulary covering the entire range of structure types and learn a new approach to understanding the development of design **The Architects' Journal**, 2005 **2000 Architects** Aisha Hasanovic, 2006 Doctor Haydock the resident GP of St Mary Mead hopes to cheer up Miss Marple as she recovers from the flu with a little story The tale revolves around the return of the prodigal son of Major Laxton the devilishly handsome Harry Laxton Harry after leading a life of childish indiscretions and falling head over heels for the village tobacconist's daughter has made good and returned to lay claim to his tumbling childhood home and introduce the village to his beautiful new wife But the villagers are prone to gossip about young Harry's past and one person in particular cannot forgive him for tearing down the old house Will Miss Marple's acumen be up to the task of solving the story **Emerging Japanese Architects of the 1990s** Jackie Kestenbaum, 1991 Emerging Japanese Architects of the 1990s introduces a new generation of architects to the west Six of the most exciting members of the fourth generation of architects to emerge in Japan after World War II Atsushi Kitagawara Kiyoshi Say Takeyama AMORPHE Norihiko Dan Hiroyuki Wakabayashi WORKSHOP and Hisashi Hara are profiled in this book amidst stunning photographs of their work these architects have been building and publishing extensively in Japan blessed by Japan's new wealth and love of new fashions and designs The six differ greatly in style and in education from Norihiko Dan who studied at Yale to Hiroyuki Wakabayashi who is self trained They express a variety of styles and many of their works are commercial projects They build restaurants hotels theaters and office buildings structures as practical and architecturally interesting as the buildings of their aesthetic precursors The book contains an introductory essay by Kestenbaum which places this generation in social and historical context and analyzes each of the architects' works The six architects profiled here are some of the best known in Japan today the ones to watch in the international architecture scene **Trauma Informed Placemaking** Cara Courage, Anita McKeown, 2024-04-16 Trauma Informed Placemaking offers an introduction to understanding trauma and healing in place It offers insights that researchers and practitioners can apply to their place based practice learning from a global cohort of place leaders and communities The book introduces the ethos and application of the trauma informed approach to working in place with references to historical and contemporary trauma including trauma caused by placemakers It introduces the potential of place and of place practitioners to heal Offering 20 original frameworks toolkits

and learning exercises across 33 first and third person chapters multi disciplinary insights are presented throughout These are organised into four sections that lead the reader to an awareness of how trauma and healing operate in place The book offers a first gathering of the current praxis in the field how we can move from trauma in place to healing in place and concludes with calls to action for the trauma informed placemaking approach to be adopted This book will be essential reading for students researchers and practitioners interested in people and places from artists and architects policy makers and planners community development workers and organisations placemakers to local and national governments It will appeal to the disciplines of human geography sociology politics cultural studies psychology and to placemakers planners and policymakers and those working in community development Claesson Koivisto Rune Paola Antonelli, Mark

Isitt, 2012-12-21 The Swedish design partnership Claesson Koivisto Rune was founded a little over ten years ago but has already received extraordinary recognition Like Scandinavian masters before them such as Aalto or Jacobsen Claesson Koivisto Rune practise both architecture and design In 2004 they were among the first Swedish architects to be selected for the international section of the Architecture Biennale in Venice The architectural projects in this monograph include private houses and interiors from Europe to North and South America as well as larger buildings like the Sfera Building Culture House in Kyoto Japan The furniture and other product designs presented here are manufactured by over 30 international companies All photographs have been taken anew for this publication which is a design object in itself consisting of two books separate volumes for architecture and design with introductions by Paola Antonelli MoMA and Marcus Fairs ICON Magazine *Spoiled Climate* Andreas Ruby, 2004 Architectural projects which expose the hidden contradictions of our everyday reality in a lively yet challenging way Franois Roche born in 1961 in Paris and his partner Stephanie Lavaux born in 1966 on the Reunion Island are radical advocates of an architecture which is to be perceived as a tool for increasing critical awareness as a discipline which provokes thought and inspires the imagination Their buildings and projects which include the new art museum in Bangkok and the Glacier Museum in Switzerland both of which would have been unthinkable without the latest IT methods of design strive towards designs which are unique and unmistakeable in both function and appearance Franois Roche is guest professor at the London Bartlett School and the Technical University of Vienna and has made a name for himself internationally as a pioneer of a new architecture through his lecture activities and his participation in many exhibitions This monograph is the first complete overview of his work and will be published to coincide with the exhibition No Standard Architecture which opens in November at the Centre Pompidou in Paris where R Sie architects are one of the 12 invited architectural firms *Sacred Buildings* Rudolf Stegers, 2008-05-16 The building of religious structures represents a rare opportunity for the architect to concentrate on the creation of volume space and form Sacred architecture is far less determined than other building tasks by functional requirements norms and standards As a rule it is free to unfold as pure architecture Thus in design terms this building task offers enormous freedoms to the architect At the same time however the

special atmospherics of sacred spaces call on the part of the architect for a highly sensitive treatment of religion and the relevant cultural and architectural traditions In a systematic section this volume introduces the design technical and planning fundamentals of building churches synagogues and mosques In its project section it also presents about seventy realized structures from the last three decades Drawing upon his in depth knowledge of the subject and his many years of publishing experience the author offers a valuable analysis of the conceptual and formal aspects that combine to create the religious impact of spaces e g the ground plan the shapes of the spaces the incidence of light and materiality

Building/Object Charlotte Ashby, Mark Crinson, 2022-06-16 Building Object addresses the space in between the conventional objects of design and the conventional objects of architecture probing and reassessing the differences between the disciplines of design history and architectural history Each of the 13 chapters in this book examine things which are neither object like nor building like but somewhere in between air conditioning bookshelves partition walls table monuments TVs convenience stores cars exposing particular political configurations and resonances that otherwise might be occluded In doing so they reveal that the definitions we make of objects in opposition to buildings and of architecture in opposition to design are not as fundamental as they seem This book brings new aspects of the creative and experiential into our understanding of the human environment

The Rival's Heir Joss Wood, 2018-12-01 She wants a career and a baby Can her sexy boss give her both Darby Brogan has goals single motherhood and a successful career And she won't be distracted even if rival architect Judah Huntley is the stuff of fantasies But when Darby accepts a job with Judah there are strings caring for the baby on his doorstep But when playing house gets hot and heavy will temporary turn into having it all
