BOOK JACKET Scansion in Psychoanalysis and Art Vanessa Sinclair, 2020-11-16 Scansion in Psychoanalysis and Art examines a strain of artists spanning more than a century beginning at the dawn of photography and culminating in the discussion of contemporary artists to illustrate various psychoanalytic concepts by examining artists working in a multitude of media Drawing on the theories of Sigmund Freud who applied psychoanalytic methods to art and literature to decipher the meaning and intention of the creator as well as Jacques Lacan's dissemination of scansion as a powerful disruption of narrative the book explores examples of the long and rich relationship between psychoanalysis and the fine arts Whilst guiding readers through the different artists and their artforms from painting and music to poetry collage photography film performance art technology and body modification Sinclair interrogates scansion as a generative process often inherent of the act of creation itself This is an intriguing book for psychoanalysts psychologists and creative arts therapists who wish to explore the generative potential of scansion and the relationship between psychoanalysis and the arts as well as for artists and art historians interested in a psychoanalytic view of these processes

The Wall Beside the Work Derek Pigrum, 2021-06-23 This book is about the way artists generate an endless chain of substitute objects for something they can never quite find It explores the work involved in art with a focus upon finding gathering and assembling charged and auratic objects on the wall beside the work The author employs the term Das Gegenwerk or the work towards the work This concept avoids definitive closure and expands the notion of drafting and related practices to include qualitative research methods The multi mode transitional practices of Das Gegenwerk are devoid of any demand for a preconceived goal but instead hinge upon the provisional and indeterminate As such it is a far cry from the binary logic of the computer and the design cycle but is of interest to an audience engaged with both Das Gegenwerk hinges on our capacity to respond to the outside rather than the inwardness often attributed to creative agency A fundamental belief of the book is that by investigating and adapting the

practices of expert practitioners we can gain an understanding of high level creativity It is neither a recipe nor a linear or cyclic approach Rather artistic creation is an interweave of transitional multi mode practices where the overriding emphasis is on the handling or habituation of transitional materials in physical place The author addresses the urgent need to provide a balance between the promise of new technology and our capacity to both respond to and work with what the world bestows

The Studio Reader Mary Jane Jacob, Michelle Grabner, 2010-06-15 The image of a tortured genius working in near isolation has long dominated our conceptions of the artist's studio Examples abound think Jackson Pollock dripping resin on a cicada carcass in his shed in the Hamptons But times have changed ever since Andy Warhol declared his art space a factory artists have begun to envision themselves as the leaders of production teams and their sense of what it means to be in the studio has altered just as dramatically as their practices The Studio Reader pulls back the curtain from the

art world to reveal the real activities behind artistic production What does it mean to be in the studio What is the space of the studio in the artist s practice How do studios help artists envision their agency and beyond that their own lives This forward thinking anthology features an all star array of contributors ranging from Svetlana Alpers Bruce Nauman and Robert Storr to Daniel Buren Carolee Schneemann and Buzz Spector each of whom locates the studio both spatially and conceptually at the center of an art world that careens across institutions markets and disciplines A companion for anyone engaged with the spectacular sites of art at its making The Studio Reader reconsiders this crucial space as an actual way of being that illuminates our understanding of both artists and the world they inhabit
