Autocar , 2005 **Automotive News** , **Sustainable Innovation** Andrew Hargadon, 2015-06-24 If we can carry in our pockets more computing power than the Apollo program needed to put a man on the moon why can t we solve problems like climate change famine or poverty The answer lies in part in the distinctive challenges of creating innovations that address today s pressing environmental and social problems In this groundbreaking book Andrew Hargadon shows why sustainable innovation the development of financially viable products that support a healthy environment and communities is so difficult when compared to creating the next internet ventures or mobile apps that disregard these criteria

While other books treat innovation across sectors equally Hargadon argues that most effective innovation strategies hinge on attention to the context in which they are pursued Instead of relying on a stale set of best practices executives must craft their own strategies based on the particulars of their industries and markets But there are some rules of the road that foster a triple bottom line this book provides a research based framework that outlines the critical capabilities necessary to drive sustainable innovation a long term commitment nexus work science and policy expertise recombinant innovation and robust design Sustainable Innovation draws on a wide range of historical and contemporary examples to show business readers and their companies how to stand on the shoulders of successful pioneers **Crescita** Vaclav Smil,2022-09-21T00:00:00+02:00

La crescita da sempre un obiettivo dichiarato o implicito degli sforzi individuali e collettivi In questo libro Vaclav Smil offre un'indagine sistematica della crescita nella natura e nella società dai microrganismi agli imperi e alle civiltà Smil accompagna i lettori a partire dalle invasioni batteriche passando per il metabolismo animale e arrivando alle megalopoli e all'economia globale Inizia con organismi di dimensioni microscopiche fino all'evoluzione di esseri viventi sempre più grandi e alla crescita umana dall'infanzia all'età adulta Dalla biologia alla tecnologia il libro percorre la storia della vita sulla Terra dedicando ampio spazio all'evoluzione della capacità di produrre energia e manufatti che favoriscono attività economiche segnando progressi essenziali per la civiltà Infine guarda alla crescita nei sistemi complessi dalle popolazioni umane fino alle città La dinamica della civiltà moderna guidata dagli imperativi opposti della crescita materiale e dei limiti della biosfera resta incerta e difficile da governare verso quale futuro si avvia il mondo Una crescita senza fine non sostenibile per una realtà fatta da risorse finite

First Move Zander van Hoepen,2015-03-28 It's not easy being the new kid in school Add to that being new in town in a new country and somewhat of a nerd Such was the case for Shawn de Vos whose family immigrated to Little Rock Arkansas USA from George a coastal town in South Africa before his final year of school With a tennis ball game Shawn connected somewhat with others on the fringes of his new high school eventually He even started to enjoy awkwardly at first the joys of courtship and true friendship Soon though he'd be confronted with issues some new kids face and being bullied was just part of it Like all teenagers he'd also been confronted with issues of youth drugs alcohol sex religion Would his opinions about it let him make good moral choices Especially during senior year Shawn developed a unique friendship with one of the most popular girls in school Their different backgrounds that kept them apart somehow may become the strength that can keep them upright in their daily struggles This adds strain on their popularity and acceptance from their peers Would the friendship last Amidst everything Shawn's body developed a disease that could threaten his very existence
