Normal Child and Adolescent Development Karen J. Gilmore, Pamela Meersand, 2013-10-10 Normal Child and Adolescent Development A Psychodynamic Primer presents a complete picture of mental development informed by contemporary research and psychodynamic thinking Dr Gilmore and Dr Meersand have taught human development to psychiatric residents psychology doctoral students and psychoanalytic candidates for more than a decade and found an acute need for accessible material integrating recent findings in the psychodynamic literature and psychology research with information on development as a dynamic interaction of the growing mind including the unconscious mind the maturing body and the evolving demands of environment The book is their response to this need and it is as unique as it is useful as compelling as it is comprehensive Replete with new ideas and fascinating connections the volume is also beautifully written and a pleasure to read The clinical vignettes in the text are vivid narratives that make the child at different stages recognizable and memorable In addition online video illustrations reinforce the key characteristics at each phase of normal development In brief The authors begin with an introduction to the book s theoretical orientation and end with a brief reprise of the importance of developmental thinking in clinical practice forming a clear framework for the authors perspective The authors use familiar developmental demarcations informed by current thinking to present chapters on infancy toddlerhood

oedipal age latency preadolescence early and mid adolescence late adolescence and the still controversial phase of emerging adulthood The section on the oedipal age child merits two chapters testament to the authors belief in the critical nature of this phase which marks a momentous transition in mental development Grounded in the belief that an understanding of development is a building block of clinical thinking the book emphasizes that every patient encounter demands familiarity with developmental concepts as well as the understanding that past and present are inextricably woven together and that present consciousness is an amalgam of all experience The book s multisystem approach shows the complexity and diversity of human development Truly Normal Child and Adolescent Development A Psychodynamic Primer is a twenty first century text and one that both students and practitioners in psychiatry psychology and psychoanalysis will welcome as a valuable resource

Adolescence Barbara Lloyd, Kevin Lucas, 2014-01-14 What factors influence adolescents to take up smoking Why do more girls smoke than boys In contrast to medical orthodoxy Smoking in Adolescence looks at smoking from the adolescents own points of view What emerges is that regular smokers are seen as fun loving and nonconformist cigarettes are a passport to a fashionable popular and hard identity Young people create and are influenced by complex images of smokers and nonsmokers Barbara Lloyd and Kevin Lucas explore the psychological dimensions such as social environment family peers stress and coping body image mood and pleasure They suggest how anti smoking interventions should be re evaluated to take account of this new evidence throughout the school curriculum Smoking in Adolescence will be of practical interest to teachers youth workers health professionals and parents as well as students of psychology *Women at the Margins* J Dianne Garner, Rosemary Sarri, Josefina Figueira-McDonough, 2013-01-11 A compelling look at the crisis of disadvantaged women This powerful document takes a sobering look at the phenomenon of marginalized women pushed to the edges of society holding on with the barest of hope and extraordinary bravery Handicapped by the increasing societal inequality they face as an everyday fact of life these women and in many cases their children have been disconnected from the mainstream for reasons of age race gender health incarceration domestic abuse unwanted pregnancy unemployment and economic circumstance They are poor in an affluent society powerless in a powerful nation and the suffering caused by their exclusion is poignant and troubling Eloquently illustrated with poetry art and prose created by marginalized women Women at the Margins Neglect Punishment and Resistance makes a compelling argument for social change The book offers a no holds barred look at how economic restructuring welfare reform neo conservative ideology and institutional exclusion have locked women into subservient substandard roles stripping them of their citizenship and rendering them expendable Diverse authors track the life cycle of marginalized women from teenage pregnancy to the loneliness of older women in poverty or prison Women at the Margins Neglect Punishment and Resistance addresses the effects of welfare reform the forgotten group women in prison and jail low income women and housing women marginalized by substance abuse poverty and incarceration teenage pregnancy children and their incarcerated mothers recidivism and reintegration women law and the justice system and much more Women at the Margins Neglect Punishment and Resistance acknowledges the long history of the inequality faced by women living in exclusion but focuses on the present with a hopeful but realistic eye toward the future It is an indispensable resource for sociology social work legal and penal system professionals and academics and an essential read for everyone Concepts and Theories of Human Development Richard M. Lerner, 2013-05-13 A classic in the field this third edition will continue to be the book of choice for advanced undergraduate and graduate level courses in theories of human development in departments of psychology and human development This volume has been substantially revised with an eye toward supporting applied developmental science and the developmental systems perspectives Since the publication of the second edition developmental systems theories have taken center stage in contemporary developmental

science and have provided compelling alternatives to reductionist theoretical accounts having either a nature or nurture emphasis As a consequence a developmental systems orientation frames the presentation in this edition This new edition has been expanded substantially in comparison to the second edition Special features include A separate chapter focuses on the historical roots of concepts and theories of human development on philosophical models of development and on developmental contextualism Two new chapters surrounding the discussion of developmental contextualism one on developmental systems theories wherein several exemplars of such models are discussed and a corresponding chapter wherein key instances of such theories life span life course bioecological and action theoretical ones are presented A new chapter on cognition and development is included contrasting systems approaches to cognitive development with neo nativist perspectives A more differentiated treatment of nature oriented theories of development is provided There are separate chapters on behavior genetics the controversy surrounding the study of the heritability of intelligence work on the instinctual theory of Konrad Lorenz and a new chapter on sociobiology A new chapter concentrates on applied developmental science

The Behavioral Neuroscience of Adolescence Linda Spear,2010 Understanding the role of brain changes in adolescent behavior and development Linda Spear provides a detailed and illuminating overview of the genetic hormonal and neurological developments that take place during adolescence and shows how these changes along with influential sociocultural factors interact to produce distinctly adolescent behaviors and thought processes The tension between taking risks impulsivity and self control a struggle evinced by many adolescents especially those in therapeutic treatment is also examined for its sources within the brain The result is a fascinating overview of the adolescent brain with profound implications for the clinical treatment of adolescents

The Postmodern Life Cycle Friedrich Schweitzer,2012-11 A theology in tune with postcolonial theory has the potential to creatively inform and transform ecclesial practice Focusing on the relation of theology to postcolonial theory Postcolonial Theologies brings together a wide diversity of authors many of them fresh and exciting theological voices in essays that are stunningly creative and prophetically lucid All essays are theologically constructive not merely deconstructive or critical in their visions for Christianity Forming a sort of doctrinal landscape they emerge under the themes of theological anthropology shaped by ethnicity class and privilege a Christology that intersects the claims of Christ and empire and a Cosmology that imagines a postcolonial world
