The Fly Sermon and Other Odes A.G. McDougall,2024-08-16 For over forty years I ve been writing odes about people places and experiences in my life My career in education has been amazing and at times intense but I managed to escape to hobbies and interests and always attempted to summarise in the form of an ode These were all placed in boxes and stored away until now When I retired from teaching I opened the boxes and read through the odes They were almost like a diary of my life so far I ve selected 21 odes for this collection They are about friends holiday experiences hobbies and sometimes things that happened in my school life My favourite is The Fly Sermon I wrote it 36 years ago for children to recite in their assembly about tolerance for others and non discrimination The theme is as important now as it was then Our life is surrounded with all sorts of living things which we should respect and learn to live with regardless of quirks traits or physical features I ll remember whenever a fly I do see The importance of living in close harmony

Hatfield at War: The story of life in a small town in 1939-45 Brian G Lawrence, 2016 This book tells how the Second World War affected ordinary families what actually happened when evacuees arrived in local homes and how they rallied to Dig for Victory Salute the Soldier or Hit the Nail in Hitler's Coffin It demonstrates just how much salvage one small town could produce and makes the connection between Hatfield Winston Churchill Stalingrad and HMS Tweed It gives a fascinating insight into how the war changed life at Hatfield House and the significance of developments at the de Havilland Aircraft Co which made this particular small town a target for German bombers Here is the Home Front 1939-45 in microcosm full of the energy determination humour and courage of British men and women in wartime *Fire by Order* E. W. Maslen-Jones, 2012-09-19 Perhaps the most surprising thing about this book is the fact that it has waited fifty years to appear for as Sir Martin Farndale points out in his foreword the debt owed by 14th Army to 656 Air OP Squadron in the reconquest of Burma was immeasurable From 1943 until the end of the war these three flights of five tiny Auster aircraft provided air

observation for the whole of the Army fighting the Japanese in the jungle below A likely explanation if Ted Maslen Jones is typical of his colleagues is that they were essentially modest men who in their own eyes were only doing their job and were in fact rather privileged to be sailing above the canopy while the ground troops were slogging it out somewhere below them Several times the author refers to the sheer exhilaration of flying over that beautiful but still unhappy country Now at last thanks to the recollections as well as the diligent research of Ted Maslen Jones the true contribution of these daring men in their flying machines can be properly appreciated As one of the pilots his own memories are naturally of his flying time but he never loses sight of the fact that it was the efforts of the fitters signallers and drivers who kept these flimsy aircraft in the air and rightly points out that the record of serviceability of 656 Squadron was truly remarkable **Forgotten Heroes of**
