Adulthood Rites:

Adulthood Rites Octavia E. Butler, 1997-04-01 Told in the haunting voice of Lilith the heroine of Dawn this book is the story of Lilith's only son Akin. Though he resembles a normal human, Akin is the first construct, part man, part alien.

Adulthood Rites Octavia E. Butler, 2023-03-28 From the award-winning author of *Parable of the Sower*. After the near extinction of the human race, one young man with extraordinary gifts will reveal whether the human race can learn from its past and rebuild their future or is doomed to self-destruction. In the future, nuclear war has destroyed nearly all humankind. An alien race intervenes, saving the small group of survivors from certain death. But their salvation comes at a cost. The Oankali are able to read and mutate genetic code and they use these skills for their own survival, interbreeding with new species to constantly adapt and evolve. They value the intelligence they see in humankind but also know that the species rigidly bound to destructive social hierarchies is destined for failure. They are determined that the only way forward is for the two races to produce a new hybrid species and they will not tolerate rebellion. Akin looks like an ordinary human child. But as the first true human-alien hybrid, he is born understanding language, then starts to form sentences at two months old. He can see at a molecular level and kill with a touch. More powerful than any human or Oankali, he will be the architect of both races' future. But before he can carry this new species into the stars, Akin must reconcile with his own heritage in a world already torn in two.

Reading Octavia E. Butler John Lennard, 2012-10-04 Octavia Butler's premature and sudden death in 2006 has been very widely lamented, unhappily confirming her influence as a vital African American and female pioneer in SF. *Xenogenesis*, retitled *Lilith's Brood* in 2000, is one of Butler's most important works and comprises the novels *Dawn* (1987), *Adulthood Rites* (1988) and *Imago* (1989). The Notes cover Octavia Butler's life and work, the background and structure of the trilogy, Black SF in relation to race and gender, the tradition of dystopias and the work in genetics that is central to the plot. The Annotations pay special attention to the feminist and racial critique of human behaviour and to the scientific and religious themes that develop throughout the trilogy. Each of the three novels is dealt with book by book and chapter by chapter. An Essay called *The Strange Determination of Octavia Butler* considers the trilogy's two very different umbrella titles and Butler's unusual use of genetic science, especially the discovery of mitochondrial DNA, to critique racial essentialism. It also argues for her use of cellular organelles as a metaphor for the African Diaspora driven by slavery. The Bibliography provides a complete listing of works by Octavia Butler, including short stories and work published online. It also has sections detailing works about Octavia Butler and SF and Useful Reference Works. *From Africa To America To The World* Khanye Tsebo, 2018-03-17 This book is about the history of Many African's from Africa, the Americas to the entire world. Even the spirituality that has been demonized for many years. *Introduction to Christian Worship* James F. White, 2023-11-21 James White's classic Christian worship text, revised and updated. The book students of worship have read and re-read is now revised and updated for the first time in more than twenty years. Author Ed Phillips, one of White's graduate students, is joined

by practitioners and teachers from emerging generations who contribute timely and well researched material from their own areas of expertise This new content brings the original up to date filling significant gaps since the original publication on topics like technology arts embodiment in and of worship pluralism and multiculturalism denominational changes and changes in the spaces and forms of worship including worship in the age of pandemics This new edition will take its place on the shelf of every student pastor and leader of Christian worship The Age of Sex Corrie Decker,2025 As in much of the world societies in precolonial East Africa what is today Kenya Tanzania and Uganda used rites of passage to chart an individual s social and developmental progress toward adulthood Under European colonialism from the 1890s to the 1960s colonial judicial systems and the emerging genre of ethnography converged to subject African people to standardized definitions of childhood and adulthood The coexistence of rites of passage and chronological age regulations generated confusion well into the postcolonial era and the question of when childhood ends sparked extensive debate about gender race and development Corrie Decker argues that ultimately these debates came down to the age of sex The age of sex a term Decker conceptualizes in this carefully researched monograph refers to the hypothetical moment when a girl becomes a woman capable of engaging in heterosexual activity and a boy becomes a man imbued with the right and responsibility to have heterosexual intercourse Colonial ethnographic studies reduced complex precolonial rites of passage to puberty rites fixated on these sexual transformations The resulting stereotypes influenced in turn how colonial and postcolonial court officials decided age of consent and other sex crime cases Court rituals thus legally transformed girls into women by ruling on their sexual maturity and boys into men by sentencing them to corporal punishment marking their acceptance of sexual responsibilities *Adolescence in America* Jacqueline V. Lerner Ph.D.,Richard M. Lerner,Jordan Finkelstein,2001-06-04 An authoritative broad and practical survey of the social psychological and physical development of American teenagers In *Adolescence in America* more than 100 leading experts from the fields of biology medicine behavioral and social science law education and the humanities piece together the puzzle of adolescence In readable accessible language they analyze the explosion of research that has reshaped the study of adolescence in the last 30 years and explain how today s leading scientists and practitioners view the challenges of this developmental period Best of all they show parents how to apply the latest scientific knowledge such as the 40 developmental assets that predict a child s behavior to their own family situation

Migrant Lives Erkan Tümkaya,2023-12-29 The Alawi community constitutes one of the oldest secret communities originating in what is known today as the Middle East Today the community members are scattered over many different countries around the world The first Alawis came to Germany as Gastarbeiter guest workers in the 1960s following bilateral labour agreements between Turkey and Germany The present book explores the multifaceted experiences of Alawiness during the post migration period in Germany The book demonstrates the pervasiveness of the practice of secrecy in the various spheres of Alawi migrant life in Germany Throughout this book it becomes evident that living at the nexus of being an

Alawi and a migrant generates a set of experiences that are shaped by the accelerated sociocultural political economic and technological developments in Germany but also in the countries of origin The focus of this book is on identification practices the practices of secrecy the dynamics of interethnic social relations and the religious practices of Turkish Alawi men and women in present day Germany The book traces in particular the stories of the new generations of Alawis whose experiences have largely remained ignored

The Human-Animal Boundary Nandita Batra,Mario Wenning,2018-11-27 Throughout the centuries philosophers and poets alike have defended an essential difference rather than a porous transition

between the human and animal Attempts to assign essential properties to humans e g language reason or morality often reflected ulterior aims to defend a privileged position for humans This book shifts the traditional anthropocentric focus of philosophy and literature by combining the questions What is human and What is animal What makes this collection unique is that it fills a lacuna in critical animal studies and the growing field of ecocriticism It is the first collection that establishes a productive encounter between philosophical perspectives on the human animal boundary and those that draw on fictional literature The objective is to establish a dialogue between those disciplines with the goal of expanding the imaginative scope of human animal relationships The contributions thus do not only trace and deconstruct the boundaries dividing humans and nonhuman animals they also present the reader with alternative perspectives on the porous continuum and surprising reversal of what appears as human and what as nonhuman

Families in Global and Multicultural Perspective Bron B Ingold, Suzanna D Smith, 2006 Publisher description

History of Customs in the Qing Dynasty Li Shi, The book is the volume of History of Customs in the Qing Dynasty among a series of books of Deep into China Histories The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c 1600 1046 BC and the Bamboo Annals 296 BC describe a Xia dynasty c 2070 1600 BC before the Shang but no writing is known from the period The Shang ruled in the Yellow River valley which is commonly held to be the cradle of Chinese civilization However Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River These Yellow River and Yangtze civilizations arose millennia before the Shang With thousands of years of continuous history China is one of the world s oldest civilizations and is regarded as one of the cradles of civilization The Zhou dynasty 1046 256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country eventually splintered into smaller states during the Spring and Autumn period These states became independent and warred with one another in the following Warring States period Much of traditional Chinese culture literature and philosophy first developed during those troubled times In 221 BC Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin marking the beginning of imperial China However the oppressive government fell soon after his death and was supplanted by the longer lived Han dynasty 206 BC 220 AD Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly In the 21 centuries from 206 BC until AD 1912 routine administrative tasks were handled by a special elite of scholar officials Young men well versed in calligraphy history literature and philosophy were carefully selected through difficult government examinations China s last dynasty was the Qing 1644 1912 which was replaced by the Republic of China in 1912 and in the mainland by the People s Republic of China in 1949 Chinese history has alternated between periods of political unity and peace and periods of war and failed statehood the most recent being the Chinese Civil War 1927 1949 China was occasionally dominated by steppe peoples most of whom were eventually

assimilated into the Han Chinese culture and population Between eras of multiple kingdoms and warlordism Chinese dynasties have ruled parts or all of China in some eras control stretched as far as Xinjiang and Tibet as at present Traditional culture and influences from other parts of Asia and the Western world carried by waves of immigration cultural assimilation expansion and foreign contact form the basis of the modern culture of China *The Psychology of Black Boys and Adolescents* Kirkland C. Vaughans, Warren Spielberg, 2014-06-30 Drawing on personal insights and research based knowledge this important work facilitates understanding of the psychological struggles of young African American males and offers ameliorative strategies Despite examples set by successful black men in all walks of life the truth remains that a disproportionate number of black boys and young men underperform at school suffer from PTSD and too often find themselves on a pathway to jail The two volume *The Psychology of Black Boys and Adolescents* marks the first attempt to catalog the many psychological influences that can stack the deck against black male children and to suggest interventions Bringing together an expansive collection of new and classic research from a wide variety of disciplines this set sheds light on the complex circumstances faced by young black men in the United States Contributions by authors Kirkland Vaughans and Warren Spielberg contain insights from the groundbreaking Brotherman study conducted over a ten year period to report on the lives and psychological challenges of over a hundred African American boys and their families Among the myriad issues studied in this set are the often negative expectations of society the influence of gangs and the impact of racism and poverty Of equal importance the work explores culturally specific ways to engage families youths communities and policymakers in the development of healthy safe educated boys who will become whole and successful adults

Paganistan Murphy Pizza, 2016-05-13 Paganistan a moniker adapted by the Twin Cities Contemporary Pagan community is the title of a history and ethnography of a regionally unique urban and vibrant community in Minnesota The story of the community traces the formation of some of the earliest organizations and churches in the US the influence of publication houses and bookstores the marketplace and the local University on the growth and sustenance of a distinct Pagan community identity as well as discussions of the patterns of diversifying and cohesion that occur as a result of societal pressure politics and generational growth within it As the first ever study of this long lived community this book sets out to document Paganistan as another aspect of the increasing prevalence of Paganism in the US and contributes to the discussion of the formation of new American religious communities Revealing how canonical theories about community formation in anthropology do not always fit comfortably nor accurately describe how a vibrant Pagan community creates and sustains itself this book will be of interest to scholars of religion and new religious movements worldwide and offers a valuable contribution to discussions within both urban anthropology and sociology **Initiation Rites and Rituals** ,2004 An African Worldview Ian D. Dicks, 2012 In this book Ian Dicks informs the reader about the ways in which the Yawo of Malawi view the world The Yawo are predominantly Muslim yet many maintain strong links with their traditional religion They are a

largely oral society teaching and reinforcing their beliefs and practices using oral literature which includes myths proverbs proverbial stories songs of advice and prayers at various stages of the life cycle particularly during initiation events Ian Dicks describes in detail the Yawo's material world customs beliefs and rituals and juxtaposes these with Yawo oral literature He then examines them under six worldview categories the result being a rich description of the way in which the Yawo see the world This book is not an armchair study but has the feel of being written by an eyewitness by someone who has had first hand experience of the subject and who seeks to describe this in a manner which is sensitive to the Yawo and their culture

Memory and Utopian Agency in Utopian/Dystopian Literature Carter F. Hanson, 2020-06-09 For a genre that imagines possible futures as a means of critiquing the present utopian dystopian fiction has been surprisingly obsessed with how the past is remembered *Memory and Utopian Agency in Utopian Dystopian Literature* Memory of the Future examines modern and contemporary utopian dystopian literature's preoccupation with memory asserting that from the nineteenth century onward memory and forgetting feature as key problematics in the genre as well as sources of the utopian impulse Through a series of close readings of utopian dystopian novels informed by theory and dialectics Hanson provides a case study history of how and why memory emerged as a problem for utopia and how recent dystopian texts situate memory as a crucial mode of utopian agency Hanson demonstrates that many modern and contemporary writers of the genre consider the presence of certain forms of memory as necessary to the project of imagining better societies or to avoiding possible dystopian outcomes
