Adults with Autism Stephen H. Morgan,1996 **Adults with Autism** Stephen H. Morgan,Hugh Morgan,1996-09-28

From childhood services to adult provision the needs of an individual develop and change yet the literature addressing specific adult requirements is scarce This volume sets out to fill this gap and provides practical help and guidance specifically for those caring for the growing recognised population of adults with autism Issues of theory and practice from both local and international perspectives are included Subsequent chapters analyse the implications arising from thought and behaviour inflexibility with emphasis on the management of transition and bereavement Models for practice in employment and further education and also pharmacological and educational approaches to mental health problems epilepsy and challenging behaviour are concluded by a chapter which develops many themes of this publication as the basis for a practitioner training programme in residential settings An essential guide for all those concerned with the care and well being of adults with autism including parents researchers practitioners and community care workers **Handbook of**

Adolescent Behavioral Problems Thomas P. Gullotta,Gerald R. Adams,2007-08-26 As we enter the new millennium promoting sound mental health and positive behavior of adolescents has undeniably taken on greater significance than ever before To that end more and more research is confirming what many have suspected for years environment and community surroundings have a major affect on an adolescent s well being and overall mental health And because no single causal agent triggers teenage pathology and no one size fits all treatment is available the Handbook of Adolescent Behavior Problems offers a comprehensive and integrative biopsychosocial approach to effective practice This volume examines not only the psychological and genetic factors underlying dysfunction it also explores the critical roles that family members peers and the larger community play in an adolescent s life It offers current interdisciplinary perspectives on adolescent development both functional and pathological and provides coverage that is clear accessible and practical on such topics as Major disorders including depression anxiety schizophrenia ADHD PTSD developmental delays and conduct disorders Behavior problems such as substance abuse sexual offenses teen pregnancy school failure gambling and gang violence Best practices reviewing what works i e interventions that have been rigorously validated what might work i e those in need of further study and what doesn t work Residential interventions as well as community treatment Risk and resiliency factors Ongoing and emerging pharmaceutical issues Each chapter focuses on a specific behavior or disorder and is formatted to help readers quickly locate needed information The Handbook of Adolescent Behavior Problems provides a solid foundation for understanding the adolescent experience and the influence of the family and community as well as much needed information on the development of evidence based practices It is designed to be a one stop reference for anyone working with adolescents developmental psychologists clinical and school psychologists and education specialists as well as for graduate students in these areas

The Adult Autism Assessment Handbook Davida Hartman,Tara O'Donnell-Killen,Jessica K Doyle,Dr Maeve Kavanagh,Dr

Anna Day, Dr Juliana Azevedo, 2023-02-21 Adult autism assessment is a new and fast growing clinical area for which professionals often feel ill equipped. Autistic adults are often misdiagnosed which has enormous implications for their mental health. This accessible and comprehensive adult autism assessment handbook covers the most up to date research and best practice around adult autism assessment. It centers the person's internal experiences and sense making in clinical assessment rather than subjective observation thus providing the clinician with a truly paradigm shifting Neuro Affirmative approach to autism assessment. Traditional clinical assessment tools are comprehensively explored and unpacked to enable the clinician to have full confidence in aligning traditional criteria to the Autistic person's subjective experiences. Full of additional resources like language guidelines and an exploration of the common intersections between Autistic experience and the effects of trauma mental health and more this book supplies a breadth of knowledge on key areas that affect Autistic adults in everyday life. The mixed team of neurotypical and neurodivergent authors describe lived experience of Autistic adults a how to for conducting Neuro Affirmative assessments and post assessment support alongside reflections from practice.
