Environmental Stress Gary W. Evans, 1984-05-25 A systematic 1982 on human reactions to five environmental stress factors

Homelessness and the Built Environment Jill Pable, Yelena McLane, Lauren

Trujillo, 2021-07-08 Winner of the 2020 IDEC award *Homelessness and the Built Environment* provides a practical introduction to the effective physical design of homes and other facilities that assist unhoused persons in countries identified as middle to high income. It considers the supportive role that design can play for unhoused persons and other users and argues that the built environment is an equal partner alongside other therapies and programs for ending a person's state of homelessness. By exploring issues, trends, and the unique potential of built environments, this book moves the needle of what is possible to assist people experiencing trauma. Examining important architectural and interior architectural design considerations in detail within emergency shelters, transitional shelters, permanent supportive housing, day centers, and multi-service complexes such as space planning, choices, circulation, and wayfinding, visibility, lighting, and materials, and finishes, it provides readers with both curated conclusions from empirical knowledge and experienced designers' perspectives. *Homelessness and the Built Environment* is an imperative and singular reference for interior designers, architects, and building renovation sponsors, design researchers, and students forging new discoveries, and policy makers who seek to assist communities affected by homelessness. Cambridge Handbook of Psychology, Health and Medicine Andrew Baum, 1997-09-25 A unique encyclopaedic handbook in this expanding field draws on international and interdisciplinary expertise. **Advances in Experimental Social Psychology**, 1980-01-18 *Advances in Experimental Social Psychology: Culture and Environment* Irwin Altman, Martin M. Chemers, 1984-05-25 It covers a wide range of topics dealing with the complex relationship between people and the environment. *Introduction to Psychology for Health Carers* Julia Russell, 2005 This book provides an accessible introduction to psychological research and theory relating these to healthcare experiences and practice. It explains how psychological theories can be used to interpret, explain, and actively influence a student's own experience of and practice in everyday contexts. The book includes student interviews to enhance applicability of examples offered.
